FORT HENRY.

Squadron of Royal Canadian Dragoons May Be Quartered in One of Barracks-Will One of the Batteries Be Moved to Fredericton ?

The intention of the militia departtry as garrison at Fort Henry. There was some talk of putting artillery here, but there is a likelihood of one battery being transferred to Frederic ton, N.B., and its place taken here by a squadron of the Royal Canadian ragoons, now stationed at Toronto In view of Stanley barracks having been sold to the Toronto Exhibitio being able at present to erect nev barracks in the Queen City, such transfer is considered very likely. There seems no doubt but what the fort is to be put in repair for occupation. and Tete de Pont barracks partly re-

New uniforms are due the 14th Regiment this spring, and they are being kinds, dandelions, narrow dock, burawaited. The issue of clothing from dock. headquarters is frightfully slow. Tapestry, largest variety, good wear- hustling by those responsible would periods. In order to keep a city regiment filled with all classes of young men, neat uniforms must be provided, for the city corps are subject to greater criticism than the rural regiments When young men enlist as voluntee diers of the king, they want to the duty of the militia department to see that they are, and not hard

> Citizen asks: "Will the city counil, this year, make a grant to the 4th Regiment band for concerts durng the summer in Macdonald Park? The sum of \$300 would really mean but fifty cents a night for each musician and that should not be begrudged considering the great attraction and leasure the concerts are to the pub- Will lic. It is the one enlivening feature of the week. Other towns, Gananoque, Picton and even Belleville make yearly grant for band concerts Can't Kingston follow suit ?" Th answer to this is that the city coun cil has not the money. An amount will have to be collected. It is understood that the R.C.H.A. band will rive a few park concerts during

A complete history of the 14th Prinof its organization, in 1863, forty-three years ago, is to be compiled and pub lished in book form. The officers have the matter under consideration, in fact and added to from year to year, Few of them have a more interesting history than the 14th of Kingston.

A rumor in military circles is to th effect that Lieut.-Col. Fages, com manding the R.C.H.A., is to be transferred to Quebec, to command the garrison artillery at the citadel, in place of Lieut.-Col. Wilson, to be retired. Lieut.-Col. Fages has not received any notification of any such change. In the event of such transfer, it is rumored that either Lieut. Col. Hudon or

Featured

Announcement of a performance "The Holy. City" interests theatregoers to an uncommon degree. The great Biblical drama and the sumptuous production given it, the strength of the acting company, the music and grand spectacle with which the play abounds, furnishes dramatic satisfaction and scenic pleasure so complete and grateful that Managers Gordon Bennett's enterprise is a leading feature in all columns containing theatrical news. Seldom has a play been so immediately noted, because seldom has any one play so many points of the thrillingly told story of the Aposcombined. The theatre goer who is more pleased with brilliant spectacle and wonderful stage effects, has his and almost unprecedented execution.

G.T.R. SURVEYORS

Locking Over This Locality-Will Main Line Be Changed?

There are several Grand Trunk railway surveyors at work in this district and for the past couple of days they have been looking over the locality in the vicinity of Williamsville and the fair grounds, evidently mapping out a change in the main line so as to bring it further into the city, and by so doing getting rid of the grade immediately west of here. If the G. T. R. company have intentions of running their line into the heart of the city, it. is time the city council and board trade took some action, as better railway accommodation is one Kingston's first needs in order to get it out of the rut. There is no doubt but what the city would give the G. T. R. company the fair grounds, if it would bring its main line through that way.

> There are a good many things before us at the present day, and there is no time in the history of this city when a board of trade has so many things that can be worked on as at the present time.

Our railroad system is very bad, our freights are wrong, our hotel accommodation is altogether inadequate to the city. We have a town here that has natural advantages that only need to be shown to the public to be appreciated. Our port is one of the best situated on the chain of the great lakes, and is losing its supremacy; trade is going by us; many steamers do not stop here at all, but go direct to Montreal; Georgian Bay elevators, which have no right to exist, have grown in number and are carrying the grain across the peninsula of Ontario and delivering it at Montreal, Portland or St. John, and we are no

getting anything out of it. Places that have nothing like th advantages we have are pushing to have canals built, such as Ottawa for the Georgian Bay, and Peterboro for the Trent Valley, while if we had the enlarged Welland canal that would take in the new up-to-date steamer, it is safe to say that this port would be perhaps the second largest port on the chain of great lakes. Manitoba and the North-West are increasing in population, the area of land that is cultivated is almost doubling in proportions, and the na-

tural outlet for this grain is through the Welland canal to Kingston, and from here by enlarged river craft to Montreal. There are many other things of al only a few that strike us at the mo
