Great Windfall of Hats on Saturday

We are filling up our case with new Hats to-day, after the windfall depletion of Saturday.

The "Knickerbockers," "Mallory's," and the "King" proved the greatest favorites.

The "Borsalino," "Stetson's," and "Fletcher's" also proved good sellers. It is not so much the quality of these lines that distinguish them from others, although the quality in every case is the very best that can be procured at the price, but the advanced style of common sense selections that please the eye and that give finish to a man's appearance.

The above lines run at \$2, \$2.50, \$3, \$3.50 and \$4. Terms cash.

The excellence of our shapes will convince you that this is the place to buy your hat.

ANOTHER-DISASTER.

Torrents of Rain in Vesuvian Region.

Naples, April 28.—Another disaster has occurred in the Vesuvian region. Last night torrents of rain fell, accompanied by a heavy gale of wind, causing avalanches of mud, sand, ash and cinders to fall over Somma and Santa Anastasia, destroying bridges, blocking the roads, flooding habitations, interrupting communication by telegraph, and carrying away portions of the railway. Troops and military wagons were hurriedly despatched to the assistance of the sufferers. No loss of life is reported.

Only One Union To Strike

Chicago, April 30.—For the first time in years, May 1st promises to find Chicago practically free from extensive labor disturbances. Only one or two strikes of importance are in prospect. The chief struggle involves 3,000 iron moulders. Notices were sent yesterday to concerns within a radius of thirty-five miles, stating the moulders will quit in all shops where demands for an increase in wages from \$7 to \$9.25 are not granted.

MAKE READY

For Trouble With Turkey Over Troops

ON EGYPTIAN SOIL

SAID GERMANY IS ANXIOUS TO MAKE TROUBLE.

Turkey Shows No Sign of Retreating From the Position She Has Taken Up—Berlin Press Says Germany is Not Mixed Up in Affair.

London, April 30.—No official statement has been issued regarding the Egyptian trouble, but from the most reliable unofficial information, it is apparent that the British government is taking a stiff position with the intention of compelling the withdrawal of the Ottoman soldiers from Egyptian territory. There are continued reports of preparations to move ships and troops eastward from Malta.

It is reported that the Turkish commander at Tabah has aggravated the situation by causing the removal of the boundary marks, including, it is said, the marble column commemorating the visit of the khedive and marking the boundary from Akabah to Rafah. The cabinet discussed the question for two hours yesterday, and the admiralty and war office were busier than usual.

Telegrams from Berlin state that official circles repudiate the British newspaper suspicion that Germany is encouraging the sultan, who is considered there to be in the wrong.

The Berlin press denounces the suspicion as spiteful phantasies. Nevertheless, the opinion obtains here that the sultan believes he can rely on German moral support.

Embarrassed by her defeat at the Morocco conference, Germany is evidently trying to make trouble for the nation chiefly responsible for her humiliation. There seems to be good reason to believe that Turkey's remarkably firm position in the Tabah affair, taken at German instigation. Even the Chronicle, the chief liberal organ in England, heads an article: "Turk's Effrontery. Wants More Egyptian Territory. Who is Instigating?" And goes on to practically accuse Germany.

"There is no question that the occupation of Tabah by Turkish troops is a violation of Egyptian territory. By an imperial Ottoman firman, that portion of the Sinalitic Peninsula, south-west of a line drawn between El Arish and the post Akabah, was declared to be under the personal administration of the khedive, and until the occupation of Tabah it was recognized as such. Tabah is eight miles south-west of Akabah.

"The Turk has apparently worked by stealth in this matter, as the occupation of Tabah was not reported until covered in January by Rumbley Bey, an officer in the Egyptian army, who in making a tour of inspection of the frontier, was surprised to find 100 Turkish soldiers in Tabah.

"Rumbley Bey immediately reported the matter to the Egyptian government, and Lord Cromer informed the British government. The khedive government was instructed to protest at Constantinople. Turkish government retorted that this attitude might have served in ancient times, but would not do now, the theory of Turkey's suzerainty over Egypt having vanished with the British occupation.

Turkey, however, shows no signs of receding from the position she has taken up. A commission which was appointed by the porte to examine the question on the spot has reported, naturally, in favor of Turkey's claims, and at the present moment Muktar Pasha, the specially appointed Turkish commissioner, is in negotiation personally with the khedive on the subject. Of course the British government which is looking to protect the Egyptian interests, is actively interested, and nothing can be concluded without the consent of Great Britain.

"It would be interesting to know why Turkey is interested in a railway in the Sinalitic Peninsula, running from Akabah to Suez. There is one country to which such a railway seems profitable. Germany has practically the monopoly on railways in Asia Minor. True, Akabah, which is at the head of the gulf of the same name, is a considerable distance from the German railways, but it could be linked up, and the line from Akabah to Suez would be of great strategic value.

"The proposed line, which would be about 150 miles long, would cut across the base of the Sinalitic Peninsula, El Arish, is on the Mediterranean coast, and is given on the map as belonging to Egypt. The proposal that Turkey should be allowed to occupy any part north of a line drawn from El Arish to Suez would mean the giving away of the whole Sinalitic Peninsula."

Turkey Not Reasonable.

London, April 30.—The Times Constantinople correspondent cables: "There is no sign that the Turkish government is ready to take a reasonable line on the Tabah question. The decision to reinforce the British garrison in Egypt, which it was thought by some would open the eyes of the sultan's advisers to the danger of the situation, has not produced that effect, though it has attracted public attention to the dispute. Prevailing opinion seems to be that the government made a deplorable mistake, and that the reckless attempt to bluff Egypt and Great Britain can only be a humiliating failure."

IS REPORTED DEAD.

A Priest Who Was Afflicted With Cancer.

FATHER LOUIS MARTIN.
London, April 30.—It is reported from Rome, that Father Louis Martin, general of the order of Jesuits, whose right arm was amputated a year ago for cancer, has finally succumbed to that terrible disease. He died after excruciating agonies on April 15th.

THE SUNDAY REST

Was Kept by San Franciscans Yesterday.

San Francisco, April 30.—Only two regiments of troops, comprising in all about 1,250 men, will be sent to San Francisco to reinforce those now there, instead of the 2,500 men, as originally proposed.

The second Sunday since the earthquake and fire was the first day of rest experienced since catylnism and conflagration wiped out half of the city and made more than 200,000 persons homeless.

The loss of 300 lives and the devastation of four square miles of the best part of San Francisco have now been written in history.

Last week saw the passing of the scene of grief and desolation and the dawn of order and rehabilitation.

As extreme distress has passed rations will be confined to helpless women and children and refused infants. Luxuries will be confined to infants and invalids.

It is estimated the city has suffered a loss of \$200,000,000 by fire. There is not sufficient money in San Francisco for reconstruction.

Efforts will be made to make the best of the disaster was aided by the resumption of Sunday afternoon concerts in Golden Gate Park.

Officers were slated to find the municipal treasure intact. The vaults were a part of the city hall that escaped fire. An expert found gold, silver and securities scattered over the floor unharmed. The vault contained \$5,800,000 in currency, \$300,000 in securities of the Greenback Savings bank and \$12,000,000 of unsold city bonds.

Shipping is beginning to resume its normal course.

All possible work of a municipal character was suspended Sunday, and the disposal of the city's property was hurriedly made up.

The work will be pushed along with this end in view.

A Syndicate May Build.

Brooklyn, April 27.—The opera house by-law was defeated, to-day, by the sweeping majority of 509, by the vote of the taxpayers. It has been a subject of much comment and up to the closing of the polls the result was doubtful. It is true Brooklynites are not fit for occupancy, but the town is already heavily involved with local improvements and the high taxes are a drain on the pocket.

Des Moines, Ia., April 30.—George Lubard of Fort Dodge was made violently sick by smoking a cigar in which a part of human finger was discovered. While the piece of the finger was comparatively small, it was easily recognized as two joints, and a part of the finger nail could be discerned. It had evidently been cut by the hand of a cigar-maker by a machine in some factory, and was unnoticed because it was mixed with the filler. Lubard had bought several cigars. On smoking one of them he noticed a peculiar flavor. A few moments later he was taken sick—breaking open the cigar, he found the finger.

Want To Be Police Officers.

Minneapolis, Minn., April 30.—Thirteen women of this city may presently be in a position to arrest their own husbands. They have applied to Mayor Jones for jobs as policemen. They have stopped short at the helmet and nightstick. All they ask is the badge which shall announce them to the world as special officers, with the right to "run in" any offenders against the sanitary code.

Slabs Of Solid Silver.

Cohalt, Ont., April 30.—Strikingly rich as many previous finds have been in Cohalt camp, the latest vein opened at the Fox—Is the most marvelous. Over 100 feet of this five-inch vein have been uncovered, displaying in the open vein slabs of solid native silver, glistening in the sunlight.

At the police court session, this morning, John Wood, implicated in the McKay fur robbery, was before the magistrate, but was remanded for a week, in order that he may be able to testify when Schager pleads on Friday next.

GREAT SCARE

In France, Without Any Apparent Reason.

DISORDERLY ONES

WARNED AGAINST ANY MAY-DAY DEMONSTRATION.

Uniforms Throng Paris Boulevards, and Trains Are Crowded With People Trying to Get Out of the Country.

Paris, April 30.—Premier Sarrien, in a speech delivered here yesterday, gave warning of the disorderly element that the government purposed dealing firmly with any outbreaks on May 1st.

An investigation of the attempt made on Friday, to blow up a railway bridge at Argentueil, near Paris, shows that a serious effort had been made to cripple the main line between Paris and Havre. An emigrant train passed three minutes before the explosion. The roadway was torn up for thirty-five feet. Vigorous measures have been taken against any further attempts.

The only signs of anything unusual in Paris life are the vast number of uniforms among the throngs on the boulevards, and the unprecedented crush of travellers at the railway stations, seeking to escape from the country. Each ordinary train for London has been supplemented with never before seen numbers of military troops. Their facilities are greatly over-taxed and many passengers have suffered much discomfort from over-crowding.

The panic has spread also among the Parisians of all classes, especially in the matter of commissariat. There never has been such a demand for food of all sorts, especially wheat and flour, in many places, as is exhibited. Most provision shops kept open all day yesterday. It was necessary in several cases, to form the customers into lines outside of the doors waiting their turns. Meantime there is still nothing known that could justify this enormous scare. There is no disorder, and none is definitely threatened.

The strike, undoubtedly, will develop into serious proportions, but there is little danger of grave disturbances in the early stage, especially while the great military force is arrayed against the disorderly element.

THEY ARE BUSY

Ontario Legislators Working For Prorogation.

Toronto, April 30.—There is to be no revision of the game laws this session. Hon. Dr. Reame states that owing to the great mass of business which the government has had to deal, there is little time to devote to this matter. The intention is to get through with the actual business by Friday next and prorogue the house on the following Monday or Tuesday. The work will be pushed along with this end in view.

A Lucky Woman.

San Francisco, April 30.—The guests who were in the St. Francis on the day of the big fire were granted permission yesterday to visit their former quarters in the hotel saved. They ascertain what could be recovered of their personal belongings. One woman found \$1,000 worth of diamonds near her trunk.

Detective Gibson, of the local police force, said yesterday that the fee destroyed practically every bit of evidence against Jacob and Herman Funniger, accused of swindling banks out of \$758,000 by borrowing money on fictitious wheat certificates.

Poisoned By Candy.

Guelph, Ont., April 30.—As a result of eating candy which they purchased from a package from a Hespeler storekeeper, Gladys and Nancy, two little daughters of Edward Taylor, Averoyle, are seriously ill.

The little girls, one of whom is eleven years old and the other nine, went to the candy store on their way to school yesterday. Shortly after eating it they were both taken ill and medical attendance was summoned.

The condition of the younger one became so critical that she had to be revived by powerful stimulants.

The doctor stated that the children had been poisoned, and attributed it to the eating of the candy.

An investigation is likely to take place.

The Vessel Cleared.

Sault Ste. Marie, Ont., April 30.—The Canadian steamer Ironquois which blocked navigation at this point last week by swinging across the river, left Guelph last night for Depot Harbor, Ont., in tow of the tug Boyton. Her rudder is gone. The steamer will be taken to Collingwood dry dock after unloading her cargo of grain.

The Russian imperial crown is valued at \$3,000,000.

KING STAYS AT NAPLES

To Meet Heads of Vesuvian Observatory.

Naples, April 30.—The weather continuing fine, King Edward said today, that he would not leave Naples without visiting the observatory, as he desired to meet Prof. Mattei, the director of the Royal Observatory on Mount Vesuvius, and Frank Perrett, Brooklyn, N.Y., the assistant director.

STRONG WORDS

Uttered By the Editor of the Toronto Globe.

Detroit, April 30.—John A. Macdonald, managing editor of the Globe, spoke at St. Andrew's Presbyterian church, Windsor, yesterday morning, at the Detroit Y.M.C.A. in the afternoon, and at the Central Methodist church, Detroit, last night. In addressing a men's mass meeting, at the Y.M.C.A., Mr. Macdonald, referring to the future of the United States and Canada, said in part: "The day will surely come when we shall have no more unfriendly tariffs and restricted trade. God has ordained that if one of these two countries laughs, the other shall rejoice, and that if one weeps the other shall mourn. Let us make a nation in the new world that shall stand for something higher than brute force."

Speaking further, Mr. Macdonald declared that a "government that would build forts and point guns across the inland lakes and the border separating the United States from Canada would be a traitor to his country."

TO FORM LABOR UNIONS.

Keir Hardie Protests Against Driving Men From Soil.

London, April 30.—Addressing a meeting of workmen at Ramsey, Hampshire, called to protest against the action of Lord De Ramsey in notifying the tenants of 1,100 allotments to quit the land, James Keir Hardie urged the agricultural laborers to form a strong union in order to protect themselves.

Men, he said, should not be driven from the soil and into the town slums through the land being turned into deer forests for American millionaires and other idlers. Landlords, he declared, played the same part to society as did the parasite to the tree, sucking away its strength and giving no return.

"PURE INVENTION"

Tarte Denies He Will be Member of Commission.

Montreal, April 30.—Mr. Tarte declares that the report that he is to become a member of the new Montreal harbor commission to be appointed by the government is pure invention. No offer, Mr. Tarte declares, has been made to him, and there would be no acceptance if there were an offer. He would not again part with his freedom and independence.

Army Wants Bigger Cadets.

Washington, D.C., April 30.—The requirements of height at West Point, for new cadets will be changed so as to keep out of the military service, boys who are under-sized. The minimum height is slightly increased, so that a candidate for cadetship must not be less than five feet four inches at sixteen, and not less than five feet five inches at the age of eighteen, and upward. Of course, the usual restrictions against deforming and infirmities continue to prevail. The medical board for the examination of candidates, will be composed of three army surgeons, one of whom will be the senior. It has been prescribed that will go into effect until after the admission of the incoming class. Observations during the recent war in Manchuria, are said to be responsible for this change.

Lucas Brothers Acquitted.

Belleville, Ont., April 30.—The case of Walter Lucas, who with his brother John, was charged with breaking into, loaded G.T.R. cars and stealing grain and flour therefrom, was disposed of in the police court, the prisoners being acquitted. E. Gus Portef, defended him.

Victories For Kossuthists.

Budapest, April 30.—The elections to the Hungarian Diet began Sunday, and will continue for ten days. Out of thirty-five contests that have been decided thirty Kossuthists were elected. Premier Wekerle, Count Apponyi and Francis Kossuth all were returned.

G.T.P. Air Line.

Winnipeg, April 30.—Right of way for the G.T.P. from Portage la Prairie to Winnipeg, will assure an air line fifty miles long, or about six miles shorter than any other existing system.

David Mackay, a prisoner at Brantford Jail, escaped on Saturday, but was recaptured by the jailer, who pursued him in an automobile.

WEATHER PROBABILITIES.

Toronto, Ont., April 30.—(10 a.m.)—A few showers, then clearing. Tuesday, westerly winds, fair and cool.
