FIRST BUDGET

Of Liberal Administration Introduced.

THERE'S A SURPLUS

MR. ASQUITH DOWN ON MILITARY EXPENDITURE.

Will Dispute System of Carrying Out Naval and Military Work on Borrowed Money-Will Repeal Coal Duty.

London, May 1.-In the House of Commons, yesterday, Mr. Asquith, the chancellor of the exchequer, introduced the first budget of the new liberal administration.

Mr. Asquith estimated the expenditure for 1906-07 at £795,900,000, and the revenue at £721,800,000; there would, therefore, be an estimated surplus of £74,100,000.

The chancellor then surveyed the general financial position, referring especially to the growth of the national indebtedness, now £3,944,950,000, and to the expenditure, dwelling on the gigantic, excessive sums devoted to the navy and army.

In addition to the ordinary provision, the chancellor said he proposed to take £2,500,000 from the estimated surplus, and £2,500,000 of Chinese indemnity for the reduction of the debt.

Toronto, May 1.-A judgment which would seem to have a significance for trade unions throughout Canada, was delivered, this morning, by Chancellor Boyd, Justice Magee and Justice Meredith.

McMahon, on a verdict of a jury, awarding \$7,500 and costs to the Toronto Metallic Roofing company.

The company was embarrassed in its business, some two or three years ago, by a boycott of the members of the union.

As to the damages, the body of the defendants, who were the union members, has been settled in its present shape by the judgment of the court.
