'Opifer per Orbem Dicor."

Opion Law In Demand. The temperance people, those who are identified with the central organization and have their fingers on the

public pulse, have roused themselves and are going this year to make record on local option. The three-fifths majority is against Whiskey is fully ripened them-that un-British act for which the Whitney government has not offer-

ed any reasonable defence-but in spite

of it the option law men are going to

and the cause they advocate.

"We don't have to get down on our knees now to the municipal councils and beg them to let us have a local option vote," says Mr. Spence, of the Dominion Alliance, "We simply hand them a petition, and say : 'Here, twenty-five per cent, of the ratepayers want a vote on local option,' and it's got to come. Then if we carry it, there will be no doubt as to whether it will be granted. There will be no refusal on the part of the council give the by-law a third reading."

He was asked when the campaign would begin, "Right now," he replied. The vote could not be taken until January 1st, but the preparation for it would go on at once.

#### Economies At St. Thomas.

St. Thomas took over its gas plant about the time that Kingston went into the light, heat and power businoss as a civic enterprise. A reference to its success will, therefore, be

Last year the net earnings are said to have been over \$22,000, after provid ny for over 86,000 in extensions, which amount, by the issue of debentures will become a charge against the cap ital account. The debenture and terest account called for \$12,278,11. that the balance, for depreciation and contingencies, amounted to \$9,725. The exhibit was so generally favour

that the city caused a reduction in the rate to \$1.15 per thouwhich relieves all jar on nerves, stimu-lates blood circulation and protects the sand feet, this to apply to both heating and illuminating gas. The reduction will cause a loss in revenu of 81,525, but it is expected to be more than made up by the increased tendering advice to young men. consumption. The department gains by the return to it of 600 metres, from as many houses, and valued at

> The nuisance of double metres and double accounts the Kingston people can appreciate, and they will pray for the day when they will be blessed by their abolition as the people of St Thomas have been.

## Put Back The Money.

The men who would bait Jerome, the New York attorney, in the insurance cases are not so clever as they sem. He is waiting for the suprem ourt's decision. If it rules that it riminal for companies to give political subscriptions he will go in pursuit of G. W. Perkins et al.

Meantime he would be insane to tart prosecutions which would tainly be held up. The voting of in surance money for campaign purposes is very wrong. It has been generally condemned, and the New York legislature, at the instance of the Armstrong committee, has passed acts which will prevent a repetition of the offence under any circumstance. But the New York Life's proceeding was not on which ranked as grand larceny, and i does not require one to be learned in the law in order to realize this.

If it was wrong for an insurance ompany to give its money to the politicians it was certainly wrong for the politicians to seek and accept it. Mr. Roosevelt's committee profited by the deal, and his personal representative, now a member of government, should have returned the money to the companies that supplied it. This course would be the easier when it is recalled that there was a large balance in the republican treasury when the election was over.

## Late Revelations.

Ottawa Journal. The information brought out by the insurance commission at Toronto, that the funds of at least one insurance company were quite freely used for speculation in margins and stocks that had little or no real value is not very reassuring. This class of specu lation is of the ordinary bucket shop character and a most risky species of stock gambling.

## Here's A Starter.

Montreal Gazette. The Leeds, England, council station. An inspector of the local government board investigated and found that the money of which the ratepayers were asked to authorize the borrowing, had already been borrowed and spent. Municipal ownership making municipal government Great Britain careless and irresponsible, Presently it will reach the low standard of this continent.

#### THE MAN MURDERED And His Remains Found on the

Prairie. Morris, Man., May 7,-What is lieved to have been a cold blooded murder was discovered near here, on all dealers. Friday, when a couple of children herding cattle on the prairie found the body of a man lying on the prairie The remains were brought to Morris. The body had been partly eaten by sale to-morrow 15c, at Campbell Bros. wolves. The rest of the body looked as Kingston's popular hat store. if it had been through fire. Signs of The people should not be asked to foul play were clearly in evidence. The law bone of the left side was broken and there was a large bruise on the forehead. About forty yards from where the body was found were traces of blood and several pieces of hair

#### WALL STREET'S CLOSE TIME. Remarkable Decline in Marketable Securities.

New York, May 5.-Henry Clews, banker, reported: A wave of liquidation of almost cyclonic proportions struck Wall street this week, Conditions being unsettled by the San Francisco disaster, the opportunity was seized to enforce drastic liquidation, The Whitney, government proposes which fell chiefly upon a few promin ent and rather too optimistic operators. This brought a drop of from 10 to 50 points in many active shares, inflicting severe losses in quarters for tunately able to stand them. In spite of this unusual break there are financial atmosphere appears cleared now that the storm has spent The manifest duty of Mr. Foster is its worst force. The monetary situation furnished the instrument of power for the bears. Had it not been for the large demands of San Francisco upon an already overtaxed money market with the government. "I stand ready no such enforced decline would have to meet any charge that any person been possible. Fortunately, we were able to secure material assistance from abroad; \$30,000,000 has been remitted to San Francisco, and \$40,000,000 of gold has been ordered from Europe, being made immediately available through Secretary Shaw's leniency in depositing treasury gold

in return for bonds as collateral. Since the high prices of 1905 many active, shares have declined from thir ty to eighty points. This is a tre dous shrinkage, amounting to probably one thousand millions. That such a contraction could take place without involving failure worth noting is remarkable testimony of the strength of our financial situation. Securities have receded to a more natural level, and liquidation, if continued, should follow in other quarters where no re cession has yet taken place after ab normally ligh prices. Speculation in real estate, still going on at a threatening pace cannot be indefinitely continued. Many commodities, especially hose in the metallic industries, also selling too high for stability, and reactions would be beneficial Prices all around, costs of living, wages, etc., are too high. Perhaps such reaction may not be long postponed, and Wall street, with its usual foresight, is discounting some of these

## BOY FOUND REVOLVER

There's a Hole in His Right

James Halladay created a scare at the home of his parents by unearthing a loaded revolver in the dresser of his bedroom. He cocked the weapon, and, asked, pulling the trigger, the weapon went the ratepayers to vote on the borrow- off, the ball passing through the palm ing of money for a new electric light of one hand and entering the wall close to where two younger children were sleeping. The lad's hand was badly shattered.
