Where Babies Swim.

"I shall spend the winter in Samoa," said a traveller. "It is all ways summer there. There the babies swim." "Can you imagine a quainter, a more charming sight than a host of babies, none over two years old, laughing and crawling and swimming like fish in pools of clear sea water?"

IN A CENTURY

This Good World Will Be A Paradise.

CONDITIONS IN 2006

COFFEE, TEA, CIGARS AND GAMBLING WILL VANISH.

At Least This is T. Barron Russell's Vision of the Latter Days—Corners to Be Obsolete, and Servants Unknown.

London, May 11.—What will the world be like a hundred years hence? It is a fascinating thought, which, if pursued to its finality, leaves the thinker in a perfect maze of conjecture and wonder.

The reading world owes thanks to T. Barron Russell for relieving it of the trouble of thinking for itself by "taking the lid off the stewpot" in which the mysteries of the year 2006 are in process of boiling.

Frankly, one is glad to live in this dismal age of ours. In only a title of Mr. Russell's prognostications are likely to come true. He would turn life into a whirling kaleidoscope filled with the strangest habits and ideas, masquerading under the cloak of pleasure, he would turn men and women into babby automatons.

We arise in the morning, let us suppose, in May, 2006. Our bedroom is a circular chamber, corners being obsolete because they harbor dust, and devoid of the abomination of the new age. The housewife of 2006 will say that we, her ancestors, were a terribly dirty crew.

Press a button and your bath appears (servants being superfluous). You have your body speedily with a generated water, delivered with a force that will render rubbing unnecessary and beside it will stand the drying cupboard, lined with moving brushes and filled with deodorized air, from which in a moment you emerge with the skin dried and electrified.

The breakfast is eaten to the accompaniment of the summary of the morning's news, whispered in your ear by a talking machine, which also produces the world's doings in faithful illustration.

Is this the climax of hustling? Certainly, but it is done because you are anxious to reserve as much time as possible "for culture and for thought." Your house will be a human rabbit warren of a hundred stories. It will be filled with scientific appliances. There are telephones, telescopes, kinestoscopes, and all other sorts of "scopes" in every apartment. The new servants will be as good as their masters, because the

By Regulating The Food System

Nearly All the Most Common Ills of Humanity Are Prevented and Cured By Dr. Chase's Kidney-Liver Pills

"When our food is properly digested and assimilated, the waste matter promptly excreted and all the organs working in harmony we are well. When any derangement of these functions occur we are sick."

If we wait to consider for a moment what a large proportion of such derangements arise from constipation of the bowels, torpidity of the liver and sluggish action of the kidneys it is not difficult to understand the far-reaching effects of Dr. Chase's Kidney-Liver Pills as a means of preventing and curing disease.

One of the results of our artificial modern life, and more especially that of winter, is too much eating and too little exercise. The liver and kidneys are overworked in their effort to remove the excess of waste matter, and when they fail in this work disorders of some kind are bound to arise.

It is usually with the liver that trouble begins. The bile which should be poured into the intestines and digestion and insure healthful action of the bowels is left in the blood to poison the system.

Headache, biliousness, liver complaint and constipation are followed by uric acid poisoning, kidney disease and rheumatism when the kidneys play out.

Dr. Chase's Kidney-Liver Pills begin by relieving the action of the liver and bowels, and thereby effecting a thorough cleansing of the whole filtering and excretory systems. By this means constipation, biliousness, indigestion and all their accompanying symptoms are removed.

Women's Weakness Caused Skin Torture

It is not an uncommon thing for serious skin disease to break out as the result of bodily sickness. The skin remains healthy only so long as it is properly nourished; and during illness, when the blood is weak or the system "run-down," the delicate structure suffers to a marked degree.

To a "Sunday Echo" reporter Mrs. McKeegan, of Knowle Road, Sparkhill, Birmingham, said: "About five years ago I was under the doctor, who was treating me for a general breakdown in health and poorness of blood, but I didn't seem to make much improvement. One day I noticed a breaking out on my hand. When I showed it to the doctor he said it was a result of my poor state of health. He gave me medicine and lotion for it, but it got worse and worse. The doctor spread all over the hand, and then commenced breaking out on the other. Thinking I was not properly treated I consulted (separately) two more local doctors. They told me that the disease originated from poorness of blood, and gave me medicine, ointments and lotions, but utterly failed to stay the progress of the disease. It began to spread to my arms, and I became greatly alarmed. Apart from the disfigurement, the pain was excruciating, and sometimes I thought it would drive me mad. I tried various remedies, but none gave me the slightest relief. One night my husband brought home a box of Zam-Buk, and persuaded me to give it a trial, as he had heard splendid accounts of its healing powers for eruptions. The same night I applied it to the affected parts, and was very agreeably surprised at its soothing effect. I enjoyed a few hours refreshing sleep that night, the first for many weeks. I persevered with Zam-Buk, and before a week had passed I was delighted to find that the eruption was drying up, and I began to have some ease back into my hands. My husband and myself were delighted. Before a month had elapsed my hands were quite well again. New skin had formed all over the affected parts, and no one would think to look at my hands now that at one time they were such a horrible sight. Altogether I used five boxes of Zam-Buk. I thought at first that the sores might break out again, but nearly six months have elapsed since they were cured, and I have not the slightest sign of an eruption."
