STEEL AND IRON

THE ROMANCE OF THEM IN UNITED STATES.

Eleven Years Ago There Was Not a Mill Producing Half a Million Tons a Year.

Until eleven years ago, there was not an iron mine in the world that had produced half a million tons in a single year...

There are men now alive who will live to see the day when wooden sailing vessels will be replaced by steamships made of iron and steel...

These consecutive groups of millions have been created by the natural wealth of the Lake Superior wilderness...

Next came the lumbermen, who made millions out of the Lake Superior forests. The iron ore, in fact, may be called a by-product of the exhausted timber lands...

The public school system of Minnesota has to-day more than fifteen million dollars in its treasury accumulated by the leasing of its ore and timber lands...

The Lake Superior ore mines are the last and most wonderful of the world's mineral discoveries. The experts say that they are practically all taken up...

The immense recent finds in Alabama and British Columbia show that there may yet be many new ore worlds to conquer...
