The largest consignment of silver ever brought to Finghand, weighing seventy tons, was landed at Southampton from the American liner New York. The metal was in 972 bars enclosed in 363 baxes, and its value is £250,000.

The world's international commerce will aggregate fully \$25,000,000,000 by the year 1906. By the term 'world's international commerce' is meant the imports plus the exports of all countries of the world from which statistical trade reports were available. The figures indicate that the trade between nations in 1906 will be six times as much as in 1870, and 25 per cent. more than in 1900.

Withdrawal Of By-Law. A round robin was signed to-day by

the mayor and aldermen, authorizing the withdrawal of the Crothers by-law from vote of the ratepayers on Thursday next. It may go to the people at the municipal elections next January. It is very difficult to get a by-law of that nature passed, on account of the large vote required. Two-thirds of the fied ratepayers must vote for it, unless less than one-fifth oppose it, when a vote of three-fifths in favor suffices. A by-law requiring merely a majority is a much easier problem. Last January even the locomotive Parliament has burned its bridges works by-law did not have the two- and virtually has taken the step which against it, the measure passed on the
