Day Will Be Children's Day

We don't expect the children here with two specials such as we have men's articles, coming as they do with the opening of the hard wearing season, every child in Kingston should be here to-morrow.

To further suit the convenience of parents we will divide the lots, and offer in the morning, and the balance in the afternoon at certain hours.

Stockings--20, 23 and 25c. Pair To-morrow

Boys' and girls' stockings for the season of their great popularity we could not bear our orders to the makers have of the preceding year. So if it is a case of the entire balance stock from a year-saving sale it will make to-morrow's sale.

Woolen-knit Stockings, fine close rib, and cotton stockings at a pair according to the better qualities. To-morrow, however, you can have your choice.
