BOMB THROWER
HAS BEEN ARRESTED AND HAS CONFESSED.

King Alfonso Had a Really Miraculous Escape—Chain of One of His Orders Was Broken—Gen. Weyler Hurt.
London, June 1.—A dispatch to the Exchange Telegraph company, from Madrid, to-day, says that the bomb thrower has been arrested, is confined in the Media Dia police station, and has confessed and supplied details of the outrage. Another dispatch, from Madrid, says King Alfonso is in an even more miraculous escape than is generally known. A fragment of the bomb struck his breast, but the force was broken by the chain of the Portuguese order of Santiago which the king was wearing. The chain was broken, but it stopped a piece of steel which might otherwise have pierced the king's breast. Queen Victoria is irrefragable, declaring that she is responsible for so many persons being killed.

Gen. Weyler Injured.
Madrid, June 1.—Gen. Weyler was seriously wounded by the bomb explosion yesterday. Five of the wounded are dying.
King Alfonso and his bride, before luncheon, to-day, rode through the streets of Madrid in an automobile without any escort. They were loudly acclaimed by the people.
It is asserted that letters were received in government quarters, last night, saying that this would not be the last attempt as the band of conspirators had declared its intention to keep up the effort. The courage of the queen is greatly admired. Those who saw the queen alight from the royal coach, after the explosion, say her bridal veil touched the bloody pools on the pavement, and she bore an impress of the terrible scene as she returned to the palace.

MONTREAL CONFERENCE
To Enquire Why a Quarter is Charged.
Smith's Falls, May 31.—This year the railway authorities taxed the ministers coming to the conference a quarter each for "taking their tickets," that is, so that they could get home on the single fare rate. A committee is to investigate this charge, which is made for the first time.
To-day, the conference took the following probations: Rev. J. G. Elliott, Albert Budd, William Kendall, Henry Poivrier, Brunant Lapote, Benjamin Ayre, W. A. Lariviere, C. Crane, Harold D. Robertson, G. W. McIntosh, Roy Gleason, Pomeroy, Henry Mick, T. E. Armstrong of the Montreal district.

Rev. J. Grenfell, William Pike, Job Routhouse, G. C. Poyer and Hugh Carnes were granted superannuation for one year.
The following are to enter the ministry: T. H. Bode, J. G. Boucher, J. A. Waddell, R. W. Street, G. D. Armstrong. They will be ordained on Sunday morning.

Elected President.
Smith's Falls, June 1.—Rev. Melvin Taylor, of Montreal, was to-day elected president of the conference. He is a son-in-law of Prof. Dupuis, of Kingston.

It was the most exciting presidential contest in the history of the conference. Rev. Mr. Taylor was elected on the fourth ballot, defeating Rev. F. G. Lett, Ottawa, by a narrow margin. Mr. Lett led on the first three ballots, but on the fourth there was a small turn over to Mr. Taylor, the vote being Taylor, 110; Lett, 108; Hughes, 1; Rev. C. D. Baldwin was elected secretary.

EXEMPTED THEM.
The Taxes Levied Were Paid Pending Terms.
Amherstburg, Ont., June 1.—Mayor Steel has decided no longer to oppose the wishes of the council and most of the town, by refusing to exempt three United States engineers in payment of the river channel improvement. At this point, who live in Amherstburg, from payment of income tax. The household goods of the engineers were seized, recently, to satisfy the unpaid taxes. The engineers had the goods about to be sold at public auction when a committee, consisting of three ex-mayors and business men of the town, placed it with the town treasurer pending a settlement of the matter.

SHOULD STATE CONTENTS.
Prof. Dube Opposes Sale of Patent Medicines.
Ottawa, June 1.—Hon. William Templeton presided at the special committee on patent medicines. Dr. Dube, professor at Laval, was examined. He said that about seventy-five per cent. of standard drugs were adulterated. This was owing to the keen competition in the business. The doctor was opposed to the sale of patent medicines. He thought the government should have all patent medicines analyzed so that it would be known what they contained.

Enjoyed The Trip.
Toronto, June 1.—The special train which left Toronto, on Monday, to convey the legislative assembly over the Temiskaming railway, returned with the party this morning. The members thoroughly enjoyed the trip, and a resolution of thanks to the Temiskaming railway commission was passed.

A LADY INJURED
While Out in Motor With Her Brother.
St. John, Que., June 1.—While Mr. Hebert, of Montreal, here on a visit, was out, this morning, with his sister, in an automobile, on Jacques Cartier street, and was attending to some requirements, looking over the side of the machine, the motor ran against a telegraph pole, sustaining serious damage and throwing Miss Hebert several feet out of the motor. She received a very bad shaking up.
The body of the man Fontaine, drowned a few miles south of here several days ago, was found last evening.

EARL GREY'S ADDRESS
To the Prisoners' Aid Society.

JAMES ADAMS DEAD

PORTSMOUTH LOSES AN OLD RESIDENT.

Born in Ireland in 1833—In Canadian Government Service Many Years—Prominent in Fraternal Society Circles.
James Adams, J.P., died at his home in Portsmouth about midnight Thursday, after a few days' illness of apoplexy. The deceased was born near Armagh, Ireland, in 1833. He learned the trade of carpenter and joiner, and also studied architecture and drawing in his leisure hours. When twenty years of age he was appointed foreman for the district church buildings in the north of Ireland, and occupied the position for years. In 1857 he came to Canada, settling at Ottawa. From 1863 to 1866, inclusive, he was foreman for Thomas McGreevy in the construction of the parliament buildings. In 1869 he was sent by the justice department to Kingston, as trade instructor at the penitentiary. For twenty-five years he occupied the position of chief trade instructor, clerk of works and penitentiary architect.

Mr. Adams was very prominent in fraternal society circles. He joined the Orange order in Ireland, and in Canada rose to the rank of a Royal Black Knight. He was master of Portsmouth L.O.L. No. 481, for some years, and was also district deputy and county master of a number of the Masonic order he was a member of Minden lodge, No. 253, A. F. & A. M., and a past master. He was a member of the Ancient Frontenac Royal Arch Chapter, No. 1, passing through all the chairs; took eighteen degrees in the Scottish Rite, and was a charter member of Court Frontenac, No. 99, I.O.P., of which he was also first chief ruler.

When in Ottawa, Mr. Adams became connected with the Ottawa Field Battery, passing from gunner to sergeant. In 1866, he raised No. 2 garrison battery, was appointed lieutenant and obtained a second-class military certificate. In August of the same year he raised No. 4 battery and was raised to the rank of captain.
Mr. Adams rendered faithful and useful public service to the village of Portsmouth, where he resided so long. He served as school trustee, on the board of health, as councillor and reeve. Latterly, he was appointed a justice of the peace. The flags on the Portsmouth village hall and the Orange hall are flying at half-mast out of respect to the memory of the deceased true-hearted Irish-Canadian gentleman.

The deceased is survived by his wife, two sons and two daughters. The latter are: Capt. A. Adams, R.E.C., Cairo, Egypt; E. J. Adams, Ottawa, chief architect of the justice department; Mrs. John Fisher, Kingston, and Mrs. McCune, Toronto. In religion Mr. Adams was a Presbyterian, an elder in Cooke's church. The funeral will be on Monday afternoon.

Real Good Advice.
There is no reasonable excuse for any man living in a town if he does not like it. If you have no word of commendation to say for your town, its institutions, or people, emigrate. You must not put the blame out of existence by going away. The town bell will ring out its calls to dine and work just the same and the church bells will toll the same monotonous ring on Sundays. The birds will sing and the children play just the same. The pure air and bright sunshine will remain the same. Health-giving properties, Speak a good word for your neighbor if you can't, don't be everlastingly enlarging on his faults. If you have become thoroughly disgusted, move away and go where things will suit you better.

Police To Get Keys.
Asked as to what would be done to the market this morning, Ald. H. Angrove, chairman of city property committee, said, this afternoon: "The police will be handed over the keys for to-morrow morning." The police will not have any notification of their new duty, except through council proceedings. Ald. Angrove stated he would notify Chief Ballie to-day.

A New Invention.
A machine for paraffining cheese has just been perfected by D. J. McPherson, Montreal, who is known as the inventor of a number of appliances used in the manufacture of butter and cheese. The new machine, it is expected, will prove of inestimable value to cheese exporters and will, in time, no doubt, be the means of greatly improving the reputation of Canadian cheese.
