Saved From Deadly Decline By Dr. Williams' Pink Pills. "When I think of my former condi-tion of health," says Miss Winnifred PELICIOUS WORLD Perry, of West River, Sheet Harbor N.S., 'I consider myself a lucky girl that I am well and strong to-day, and I owe my present good health en-tirely to Dr. Williams' Pink Pills. I I was as pale as a sheet, and wasted away. The least noise would startle me, and I was troubled with fainting spells, when I would suddenly lose consciousness and drop to the floor.
At other times my heart would palpitate violently and cause a smothering sensation. Night and day my nerves were in a terrible condition, and 1 seemed to be continually growing worse. No medicine that I took help- come to a standstill ed me in the least until I began tak- You cannot learn to be a guide by ing Dr. Williams' Pink Pills, and after ing Dr. Williams' Pink Pills, and after studying a guide book.

I had taken a half dozen boxes, I felt Dr. S. S. Bates, field secretary of so much better that I stopped taking them and went on a visit to Boston. I had made a mistake, however, in stopping the pills too soon, and I began to go back to my former condition. I then called on a well-known Boston doctor, and after explaining my case, told him how Dr. Williams' Pink Pills had belowd me before. He Pink Pills had helped me before. How Good Food may turn to Poison

place in the stomach. Food decayed in the body after being eaten is as dangerous to

health as food decayed before being eaten. Food nourishes or poisons, just according to how long it remains in the Bowels

Cascarets are the simplest and surest safeguard against Delayed Digestion yet discovered.

Sold in a thin Enamel Box, half as thick as your watch, which fits into the vest pocket or lady's purse as if it grew In this round-edged Enamel box are

found six small Candy Tablets. One of these toothsome tablets works wonders for digestion. Soon as placed in the mouth it starts

the Saliva flowing, which at once gets to work dissolving it. The Saliva becomes blended with the Candy Cascaret tablet, and from the moment they start going down your throat together they start working to-

Now, what do they work at? Bowelwork, of course,-Digestion.

Some folks think Digestion takes place in the Stomach only. But that's a great mistakel Most of the Digestion occurs in the thirty feet of Intestines that connect with

Now, these Intestines are 30 feet long, They are lined with a set of little

mouths, that squeeze Digestive Juices into the Food eaten. The Digestive Julees thus mix with cago or New York.

ECAY is not digestion, you the food, just as Saliva mixes with Cascaret tablets, dissolving and changing that food into nourishment, as it passes a'ong the channel.

The Intestines are also lined with millions of little suction pumps, that draw the Nutriment from Food, as it passes them in going through.

This Nutriment is then carried into the Blood, and spread over the Body as Brain, Bone and Brawn. But, when the Bowel-Muscles are weak,

the Food moves too slowly to stimulate the little Gastric Mouths and there is no flow, or too little flow of Digestive Juice, to change the food into nourishment. Then, the food decays in the Bowels, and in the thirty feet of Intestines,

When this Decay begins the little suction pumps draw Poison from the decayed Food, into the blood, instead of the Nutrition it should have drawn. Now, Cascarets contain the only combination of drugs that Stimulates these
