Men On Mars ?

Are there living being on the planet Mars? That is the great problem of ly interested and which scientists are trying to solve. Within twelve months fifteen years, and everywhere telescopes are being trained in the hope of discovering this great secret. Already it is a settled fact that conditions on the planet would sustain human life; at least in a modified form. There is water on Mars and air-though the amount of water is not large and the air is much rarer than the atmosphere
