New York, June 16th, 1906. STIRS NATIVES TO REVOLT.

Insurrection Breaks Out in German East Africa Berlin, June 18 .- A great rebellion has broken out among the natives of German East Africa. A negro sorceress has been at work among the blacks arousing them against Europeans. The power of the sorceress over the natives is so great that they have been incited to fanaticism in their desire to drive out white settlers and the insurrection is attributed rectly to the witchcraft practiced by the sorcerers and her agitation. It is stated that it will be necessary to send an army to Africa from Germany to quell the insurrection.

Eats Deadly Cockroach ; Dies. Kansas City, June 18 .- A cockronel which ate arsenic used to poison rats. and afterward crawled into a bag of oatmeal, caused the death of Mrs. S C. of Stepney Makes Start-

London, June 18.- The report of D Thomas, the medical officer of the borough of Stepney, to the local gov-ernment board shows that his department during the past five years has destroyed over a ton of rotten tinned foods daily at the Stepney wharves. These, he adds, were not American goods, as practically no canned goods from American concerns are imported through the Stepney wharves, but were colonial meat, fish and fruit. The medical officer says he found New Zealand raspberries treated with sulphur in order to preserve them. On their arrival in England the raspber-

ries were soaked in aniline bath to restore their color. He considers that Argues diseased meat, once canned, will easily defy detection, and that a strict exof slaughtering is the only means of protection. He urges that increased powers be given to the public health

LIKELY PRINCE REGENT WILL SUCCEED.

Monarch Lives Like Wild Animal and is in Frightful Condition From Neglect - End

Absurdity. Vienna, June 18.-In well informed uarters here it is considered probable that King Otto of Bavaria, will soon be deposed. When Prince Regent Luitpold was in Vienna recently, he took Bavaria being ruled in the name of an insane sovereign, and of the Viennese gression. court circles approved the plan for some time actively discussed in Bavaria, of making him king. A change in the Bavarian constitution, however, would be necessary before this could be done, and it is doubtful if the diet

would assent to the project. King Otto, who was insane when he ascended the throne twenty years ago, has grown worse each year, and is now living like a wild animal. He permits nobody to approach him. His sonly nourishment is bread crumbs and conform more with those of the Uni-ted States, where officials and com-dried fruit. He is in a frightful condition from neglect, which his physicians and custodians are unable to chial traditions, they are not permit
