Greatest Bargains This Season

To-morrow at 9.00, 2 00, and 7.00 O'clock.

White India Linon has been one of the very scarce materials on the market, and one of the very popular materials with the pul lic, for the last few weeks. Imagine then, the surprise and pleasure with which we accepted 4,500 yards of six fine even qualities, from one of the best English makers, at very radical reductions on his regular prices. Why he reduced does not matter. Certainly it was not because of having poor qualities of an un-call-ed-for material which he wished to clear out—the Linons will prove that at a glance. Suffice to say that we'll sell to-more
