GARDEN OF EDEN IN ARCTIC.

View of German Savant—Man Lived There First.

Heidelberg, Germany, July 5.—"Man and every other species of mammals originated in the far Arctic regions, now deep in snow and ice," asserts Prof. Ludwig Heller, of the Heidelberg University, probably north of the present Lapland and Nova Zembla, or in regions now washed by northern ice seas. Man originated in those regions when they first began to cool. The rapidity of the cooling process and the consequent violent struggles for existence brought about the numerous species of mammals which we are familiar with, and the transition from the anthropoid ape to man. The great migration of mammals passed south through the eye and from Europe to all quarters of the globe.

Notice—Life insurance companies will reduce the rate thirty-three per cent. to all who agree to use Hollister's Rocky Mountain Tea. A wise measure. Tea or tablets, 35 cents. Mahood's drug store. It is in circulation in Winnipeg that George H. Shaw, traffic manager of the C.N.R. is to be given charge of all lines of road with offices in Toronto.

AFTER CHANGE

In The Sunday Observance Measure.

PICHE'S AMENDMENT

MAY BE ENLARGED TO COVER OTHER CLAUSES.

The Cruiser Arctic Has Set Sail For The Far North—Moberley Is Not One of the Enumerated For The Saskatchewan District.

Ottawa, July 5.—It is stated that the government is reconsidering the clause in the Sunday observance bill, passed last week, that empowers the provincial legislatures to enact exemptions from certain features within their respective limits. The form in which Mr. Piche's amendment was put, last week, does not, in the opinion of some of the Quebec members, fully meet the object for which it was devised. At the same time an effort is being made, in certain quarters, to have the provincial power of exemptions enlarged so as to apply to other features of the bill than clauses 2 and 3.

The Canadian government cruiser, Arctic, sails from Sorel, on Saturday, for the far north. She is under the command of Capt. Bernier, and will be absent till the late fall. The Arctic will first visit Churchill and Fullerton, on Hudson Bay.

Major Moody will leave here for Hudson Bay about the end of this month. A patrol boat is being built at Sorel for his service and will come to Halifax as soon as it is ready. It is possible that Mr. Moody will accompany the major on his trip to the Bay this time.

There is not a word of truth in the report that H. Moberley, recently convicted for ballot-box stuffing, had been appointed an enumerator in Saskatchewan.

Dr. Coulter, deputy postmaster-general, returned from Rome, where he was attending the Universal Postal Union's meetings. "One of the pleasant features of the convention," said Dr. Coulter, "was the manner in which the representatives of our sister colonies, Australia and New Zealand, worked with Canada for the common good. One fund on coming into contact with our fellow-colonists that they have the same aspirations and the same ideals as we have. They are imbued with the same desire to reduce postal rates, and to extend postal privileges that we have."

All the remaining estimates for the public works department, amounting to some \$8,000,000 were voted in the Commons, yesterday. The Senate passed the usury bill.

KENTUCKY'S MURDER TRIAL.

He Was Offered \$500 to Kill Marcum.

Beattyville, Ky., July 5.—A sensation was caused here at the trial of former Judge Hargis and former Sheriff Callaghan, charged with the murder of James Marcum, Ashbury Spicer, it was announced, had made a confession implicating the two chief defendants. On the day Marcum was killed Spicer was in Jackson, Ky., he claims. He said that a few minutes before the killing he was requested by "Jim" Hargis to get "Tom" White, and was later despatched by "Ed" Callaghan to get Curtis Jett. A few minutes later, while Spicer was in the Hargis store, two shots rang out, and Marcum fell dead in the front door of the court house.

Spicer stated that he was offered \$500 to kill Marcum. The other, he said, was made a few days before Marcum was killed. Spicer said he had refused to kill Marcum, and that he had also refused previously to kill "Jim" Cockill.

OFFERED CHICKEN.

Farmers Make Unusual Inducements to Workers.

Topoka, Kan., July 5.—Fried chicken and auto rides are the unusual inducements Kansas farmers are offering to prospective harvest hands, who were never before in such want of demand.

Rich crops are facing ruin and the farmers are well-nigh frantic in their efforts to secure aid in saving them. Several carloads of workers have been imported from Missouri, but the demand is still far in excess of the supply.

A NEW EDITOR

For the High Class Society Journal.

HITS THE KING

A Bouquet Was Hurled At King Edward.

STRUCK HIS FACE AND THE WIRES SCRATCHED HIS CHEEK.

There Was a Vision of Bomb-Thrower, However, Proved to Be No Anarchist, But An Old Fodder of Blossoms.

London, July 5.—Although no mention was made of the fact in the newspapers, it has been learned that the police were very alarmed by an incident which occurred during the recent ceremonial visit paid by the king to St. Paul's cathedral.

Just as the procession was passing the Temple near the law courts a bundle of roses was thrown at the king. The bunch struck his majesty's cheek, and the wire which bound the flowers slightly scratched his face. In an instant the thrower was arrested, the police remembering that the Madrid bomb was tossed in flowers.

The thrower, however, proved to be a famous old character—an elderly woman known as the "flower seller of Temple Bar." She has made it a practice for years to throw flowers to the king, and has been looked up twice by the police when he heard of the arrest immediately demanded her release, adding, through his secretary, that "the poor woman meant well."

SHOULD CLAIM RIGHTS.

London, July 5.—Lord Lansdowne, in the House of Lords, during a discussion of the present shocking condition of the Congo Free State, said it was high time the European powers were taking some action in the matter. If the abuses were continued, he contended, the British should claim their right to appoint consuls there, and, personally, he had more faith in the honesty of the British than in a whole row of inspectors and officials belonging to the Congo Free State.

THEY ACCEPTED TIPS FOR MAKING FAST TRIPS ON AMERICAN LINE.

This is the Charge Against Express Drivers—Officials Were Ignorant of This—Speed Too Great Rounding Curves.

London, July 5.—The London and South Western Railway company will conduct a stringent inquiry into the allegations that the drivers of the American Line express train accepted tips for making fast trips, but declined that they did not know that this was the practice.

The board of trade enquiry into the accident opened yesterday. The proceedings were private. Any witnesses of the accident will be called to testify. It is understood he will say that before he left the rails the train made a big lurch to the right, but regained its course in the opinion of experts this seems to indicate that something gave way, either an axle or a wheel. The boat train was scheduled to run 115 miles of the course from Plymouth to London, in 113 minutes.

A HOT FIGHT

In Italian Chamber of Deputies.

Rome, July 5.—A debate in the chamber of deputies, on the report of a special committee on the Italian navy, was continued by a general majority affirming, by a show of hands, confidence in the ministry of marine. The socialists and radicals were dissenting and demanded a formal division, which President Bianchini refused. As the president quitted the chair, Deputy Chiesa, a republican, rushed at him with clenched fists. The secretary and many deputies hastened to defend the president, who is a respected octogenarian. There was a hot fight around the speaker, who was surrounded by his staff and the other officers, who were held back by the police. The fight was bloodless, but collars, cravats and hair were lost.

A BRAVE MAN.

Rojetensky Pleads Guilty to Save His Staff.

Kronstadt, July 5.—In a manly effort to save the surviving members of his staff and the other officers, who he believed surrendered the garrison, he believed on account of their affection for their wounded commander, and their desire to save his life. Admiral Rojetensky pleaded guilty before a court-martial. In a short speech to the court, the admiral declared he took all the blame on his own shoulders, and asked that he alone be punished to the fullest extent of the law, virtually an appeal for condemnation and death.

All the other defendants pleaded not guilty.

The Aland Islands.

St. Petersburg, July 5.—The occupation by Russia of the Aland Islands, Finland and Sweden, the Associated Press is officially informed, is one of the measures taken to prevent the smuggling of arms and ammunition through Finland into Russia, and there is no intention of violating the treaty of Paris of 1856, by rebuilding the fortifications at Bomarsund destroyed by the British fleet during the Crimean war. The military force sent to the islands consists of a few hundred marines and infantry, who are living in tents.

Thousand Island Park Notes.

Mosquitoes in unusual numbers are proving a nuisance to cottagers. The green grass which has been allowed to grow up to a few days ago made a good breeding place for the pest. One or two high winds generally serve to get rid of them, but so far there have been no winds to speak of.

The first signs of the red flies begin to show on the boardwalk. Flying from the dock to the hotels, but they only live a few days at the most.

The first signs of the red flies begin to show on the boardwalk. Flying from the dock to the hotels, but they only live a few days at the most.

TAKES BATH ONCE A YEAR.

Prophet Does Not Even Drink Water.

Paris, July 5.—Solomon Nava, the prophet of the Simplest Life, has arrived in Paris in the hope of interesting prominent persons in his scheme for founding a sanatorium in the mountains, where his patients have only children as his patients and would bring them up to live a purely natural life.

Nava lives on raw fruit and vegetables, never touches eggs, milk or butter or meat of any kind. He does not even drink water and bathes only about once a year, as he believes that scrubbing down with a towel is sufficient to keep the body clean.

KINGSTON SELECTED.

Toronto, July 5.—In addition to the selection of Hamilton as a site of one of the proposed normal schools it has been definitely decided that one shall be located at Kingston.

It is expected a decision will be reached, this afternoon, as to the sites of the others contemplated under this year's programme.

EIGHT NEW SAINTS

MAY BE ADDED TO ROMAN CATHOLIC CALENDAR.

They Are Jesuit Fathers Murdered By Indians, in Canada's Early Days—Honour for Canadian Scientist—Twenty-Five Ounces Baby.

Montreal, July 5.—A petition has been sent to the civic authorities, asking the council to pass a resolution asking the pope to canonize six Jesuit fathers and two laymen, who were murdered by the Indians in the early history of Canada, while they were working to convert them to the Roman Catholic faith. It is hoped to have the canonizing ceremony in connection with the 300th anniversary of the founding of Quebec, next year.

Dr. T. A. Starkey, head of the hygiene department, at McGill University, has been appointed fellow of the Royal Sanitary Institute. This is the first time this honor has been conferred on any scientist.

The record for tiny babies is believed to be broken at the incubator hospital, at Dominion Park. The infant, which was taken there Monday night, weighs twenty-five ounces, and was born prematurely at six months' gestation. In honor of the day on which it was born, the 4th of July, the little girl was named Martha Washington. The doctors have some hopes of saving the little one's life.

Bribe-Takers Buried Alive.

Simla, India, July 5.—Burying alive is still a recognized form of execution in Afghanistan. Although the amir boasts of the civilization of his country under British influence, he has just ordered this barbarous punishment to be carried out.

The victims were three mutis, or judges, at Lughmann, who were convicted of taking bribes and malversation in the amir's court. The amir was in poor health at the time, and commanded the governor to have the three men buried alive. The sentence was duly carried out after his departure.

Fire At Carleton Place.

Carleton Place, Ont., July 5.—At about 2:30 o'clock this morning, fire broke out in a building, known as the Ontario House, in Carleton Place, owned by P. J. O'Brien, Smith's Falls, and occupied by the family of T. L. Carroll, as a dwelling. The firemen were promptly on hand, and the fire was quickly extinguished. The building was a two-story structure, and only a shell left standing. How the fire originated is unknown. There is insurance on the building and the household effects.

Greatest Crop Ever.

Winnipeg, July 5.—The crop report issued by the C. P. R. shows the wheat to be in a magnificent condition. The damage by hail through the coloration is very slight. The crop is from a week to ten days ahead of last year. Wheat is heading out and farmers are jubilant. It is almost impossible to foresee any set back to the greatest crop in the history of western Canada.

Recovers By Prayer.

Pittsburg, July 5.—After eight years' illness, during which physicians insisted she would not recover, Miss Mackley arose from her bed yesterday and walked out of the house apparently in good health. She discharged her doctors and says prayer alone cured her.

Belgian Crew Took It.

Henley, Eng., July 5.—In the final heat for the Grand Challenge Cup, which took place to-day, the Belgian crew defeated the Trinity Hall by three lengths. Time, 7 minutes, nine seconds. This is the first time the famous cup has been won by any but an English crew.

Ladies' Caps.

In crash and duck, at Campbell Bros'. Buy Peruna at Gibson's Red Cross Drug Store. Fresh there.

WEATHER PROBABILITIES.

Toronto, Ont., July 5.—110 a.m. Moderate northerly winds, fair and moderately warm, to-day and on Friday.
