COMMERCIAL MATTERS.

What is Going On in the Business World—The Markets.

The failure in Canada this week was 21, last year, same week, 45. A charter has been granted to the Chesapeake and Potomac Telephone Company for \$40,000.

Estimates of a cotton crop of 12,000,000 bales and a winter wheat crop of 440,000,000 bushels were sent for the future of the United States.

A by-law to join the W. H. Mills Shoe Company \$100,000 in a children's shoe manufacturing establishment, in Seattle, has been carried.

It is reported that the Great Northern and Northern Pacific are to join in building a mammoth hotel at Vancouver, B.C., to cost three quarters of a million.

An a specially constituted shareholders of the British American Assurance Company, the directors were authorized to increase the capital stock to \$2,000,000, of which \$800,000 may be 6 per cent. preference.

At a meeting of the shareholders of the Western Assurance Company directors were authorized to issue the balance of the unappropriated ordinary capital of the company, \$200,000. A sufficient number of subscriptions had been received to the ordinary stock to render it unnecessary for preference stock.

Three money by-laws submitted to the property owners of Montreal were carried. The first was to raise \$40,000 for water works extension and installation of filtration plant. The second was to raise \$8,000 to extend the municipal gas system, and the third was to finish the new municipal building.

Failure in the Dominion of Canada, as reported by R. G. Ross company, during the first six months of 1906, was \$12,000,000 in excess of the balance of 485,303, and liabilities of \$5,214,975. This is little change in number compared with the 627 failures in the corresponding months last year, but a considerable increase in liabilities, as compared with the \$3,250,945 in 1905.

For the year ended June 30th, the gross earnings of Canadian Pacific were \$117,700,000, or an increase of \$11,185,000 over the previous year. Net earnings in America can show a like increase. Net earnings were \$22,900,000, an increase of \$7,500,000. The gross earnings for the fiscal year with comparative figures as follows:—1905-6, \$117,700,000; 1904-5, \$106,500,000; 1903-4, \$105,400,000; 1902-3, \$40,967,000.

AIM FOR DOLLAR WHEAT.

Farmers of West Co-operate to Help Prices.

Farmers from all parts of the middle west, in session in Chicago recently arranged their plans for a campaign to regulate prices for farm products. In the American Society of Equity these farmers are banded together with the avowed purpose of securing at least \$1 a bushel for wheat, 80c. for potatoes, and 25c. a dozen for eggs, while apples will be held, stored and marketed to strike an equitable medium between 8c. the price which the farmer is more often compelled to accept for his crop in the fall, and 36 a barrel that the consumer is compelled to pay in winter. A system of cold storage warehouses operated by the society, in which perishable produce may be kept, is one feature of the plan, the selling to be done by agents of the society direct to wholesale dealers in cities.

CHINA MUST PAY \$20,000

Men Who Protect Missionaries to Be Rewarded.

Peking, July 9.—Mr. Carnegie, the British charge d'affaires here, has finally settled the British claims growing out of the anti-foreign riot at Yangshang, province of Kiangsi, in February of this year.

China pays \$20,000 indemnity for the killing of the child of H. C. Kingham, a British missionary, and \$3,500 for the British mission property destroyed, and agrees to punish the guilty persons, who are to be designated by the British legation, and to reward those who protected the missionaries.

EVERY BLUE LAW

May Be Enforced in New York State.

New York, July 9.—After the driest Sunday in its history, the state is threatened with the enforcement of every unrepented blue law on its state books.

Captured the Men.

On Sunday word went out to the constables of the district from Chief Bailie, to be on the lookout for a bay mare, fifteen hands high, thick bay, with white star on forehead and white hind foot, about twelve years old. The animal, the property of J. McLaughlin, livery keeper, of the city, was attached to a black buggy, with Corning body, three bow top and rather shabbily painted.

This morning word was received at the police station that the constable at Centreville had arrested Levi Woods who was driving the horse and rig. Police Constable Arnold and Mr. McLaughlin went out to bring to the city the alleged thief, and he will appear in police court in the morning to answer to the charge.

Will Have To Go Back.

Montreal, July 9.—Charles C. Brown, formerly a customs appraiser, at New York, whose extradition was sought by the United States authorities and whose case has been the subject of considerable litigation for the past several years, will have to go back to the United States, a writ of habeas corpus having been quashed, to-day, by Judge Taschereau in the practice court.

Captured Highwayman.

Fresno, Cal., July 8.—A dispatch from Berkeley states that the highway man who held up five stages, near Alwacene, on Saturday night, has been captured.

TOO GENTLE

Is Treppoff's Complaint Against The Czar.

WITH AN IRON HAND

IS WAY REBS SHOULD BE RULED HE SAYS.

He Avows Majority of Troops Are Emphatically Loyal—The Land Question Is Question of Questions—His Attacks Go on.

St. Petersburg, July 9.—Gen. Treppoff, "the best hated man in Russia," lives up to his reputation by declaring that the government is using too gentle methods in dealing with the revolutionaries.

He would, according to his own statements, put down the extremists with an iron hand. He has views in regard to parliament, however, which are not so extreme. He would, according to his own statements, put down the extremists with an iron hand. He has views in regard to parliament, however, which are not so extreme.

"The prevalent tone of parliament is destructive, but I dare believe it will become constructive or, at least, I hope it will become so. The best solution is a monarchy from the centre party, as being the strongest party. I admit that the appointment of such a ministry would be a great risk, but the risk would be justified by the urgency of pacifying the country. Every reasonable measure should be done to restore order and secure stability by pacific means. If all these are exhausted then some other measures may have to be devised."

"The great power of the revolutionaries," Gen. Treppoff declared, "lies in their control of the press. Political passions are such that the most pretentious of men have lost their heads and are raising like lunatics over utopian schemes which can only result in blood and flame. I cannot deny that the revolutionaries have won over nearly all the men of talent. Even if moderate journals should be founded, their promoters would find no collaborators."

Turning to the question of disaffection in the army, Gen. Treppoff declared positively his conviction that the overwhelming proportion of the troops are implicitly loyal, and never will turn against their sovereign. He thought that the revolutionary propaganda in the army is far less than has been alleged.

"The land question," Gen. Treppoff said, "is the question of questions. Personally, I consider the government's land proposals quite acceptable."

The general spoke with his usual remarkable bluntness, not attempting to cover the desperate condition of the country and the strength of the revolutionary cause, and giving the lie direct to Treppoff, whom he formerly characterized as a traitor who had sold himself in the hope of attaining a place in the new government. He also attacked Gorenkyin for his inaction.

The interview with Treppoff will precipitate a remarkable sensation when it is republished here and an issue at Petrohof between the Gorenkyin and Treppoff factions.

TRIMMING OF TREES

A NEW SYSTEM IS MUCH NEEDED.

Power Given Cities—Special Appropriation Required for a General Trimming of the Trees—The Present Cost.

The question of tree trimming is to engage the careful attention of the board of works. The city solicitor has been asked to state what power the city has in regard to the cutting and removal of trees in the streets. According to the latest provincial enactment, all places of over 10,000 population have the power to trim and cut down trees without receiving any petitions from the people, but ten days' notice must be given to owners of property in front of which are the trees to be removed. Formerly, only cities of 40,000 and over were given that privilege, but the solicitor of Kingston was instrumental several years ago, in having the power conferred upon all cities, and it has been very convenient for Kingston.

At present all the tree trimming done is on petition of residents and where the erection of new electric and telephone wires require it. The trimming is done under the supervision of the city engineer, though, it is claimed, that many trees have been shorn of their beauty by indiscriminate cutting, especially near the top.

In 1906, when chairman of the board of works, Ald. Toye, asked council to make a grant of \$200 a year for a general tree trimming, but his scheme was not carried out. He wanted a start made in a certain section of the city, irrespective of petitions and for the trimming to be continued from year to year until the whole city had been covered. Last fall, Ex-City Engineer Cairns, recommended to council that a special appropriation be made for tree-trimming so that there would be a general trimming, and also a removal of many trees that are unnecessary.

At present, the tree trimmer receives \$400 a year and the wood for his work, but the system is very unsatisfactory.

At present all the tree trimming done is on petition of residents and where the erection of new electric and telephone wires require it. The trimming is done under the supervision of the city engineer, though, it is claimed, that many trees have been shorn of their beauty by indiscriminate cutting, especially near the top.

In 1906, when chairman of the board of works, Ald. Toye, asked council to make a grant of \$200 a year for a general tree trimming, but his scheme was not carried out. He wanted a start made in a certain section of the city, irrespective of petitions and for the trimming to be continued from year to year until the whole city had been covered. Last fall, Ex-City Engineer Cairns, recommended to council that a special appropriation be made for tree-trimming so that there would be a general trimming, and also a removal of many trees that are unnecessary.

At present, the tree trimmer receives \$400 a year and the wood for his work, but the system is very unsatisfactory.

Power Given Cities—Special Appropriation Required for a General Trimming of the Trees—The Present Cost.

The question of tree trimming is to engage the careful attention of the board of works. The city solicitor has been asked to state what power the city has in regard to the cutting and removal of trees in the streets. According to the latest provincial enactment, all places of over 10,000 population have the power to trim and cut down trees without receiving any petitions from the people, but ten days' notice must be given to owners of property in front of which are the trees to be removed. Formerly, only cities of 40,000 and over were given that privilege, but the solicitor of Kingston was instrumental several years ago, in having the power conferred upon all cities, and it has been very convenient for Kingston.
