need not bother about launching life-boats or fitting themselves with life-preservers.

The vessel would have only to crawl into the Doevig globe, which, floating quietly off as the ship went down, would drift ashore or float on the surface until picked up by another vessel.

It is an Italian engineer named Pozzi who has applied the globular construction to submarine vessels. Pozzi, however, had purely a business proposition in view, and a round frame of craft for building or salvage operations beneath the surface of the water.

Constructed of stout cast iron, and weighing six tons, the vessel can be used at great depth. Its shape resists the pressure of the water and gives the maximum of space for machinery, and the operations of workmen. Its screws are driven electrically, and its buoyancy is regulated by ballast.

Not only the moderns, but the ancients as well, were familiar with the circular form of vessels; indeed, one may find today in parts of Asia Minor boats consisting of a round frame of work covered with skins. During the early days of sea navigation round sailing ships were frequently seen.

A preservation of the ancient type is in present use in the East Indies, where natives employ a kind of basket coracle woven of split rattan, covered with oilcloth. Each boat carries one man, and in it he successfully shoots the rapids of rivers.

Many of the fighting ships of the long ago, were nearly circular in form. The picture of one that was as round as a saucer is presented on this page. It was equipped with primitive engines for hulling, steering, and was doubtless considered a formidable battleship of its day.

Down At Portland.

Portland, July 11.—The cottage doors are open and the tents are to be seen every where. Mrs. A. Gallagher spent the past week with friends in Harroworth. Mrs. Wing is visiting her parents at Easton's Corners. A. Murphy has purchased a gasoline engine for his skiff. Tourists are arriving daily at the Commercial. Mrs. M. DeGee and son, Harry, of Pittsburgh, returned last week to spend the holidays at their beautiful cottage on the lake. Herman Morris, of Montreal, is spending two weeks' vacation with his parents, Mr. and Mrs. R. Morris. Mrs. J. Gallagher, Harlem, is spending with her son, A. Gallagher. Ross Cannon has bought out the stage route from here to Smith Falls. W. Harrison is confined to his bed at his daughter's, Mrs. F. C. Heath's. Mrs. R. L. Joynt and daughter, Mary, are the guests of Mrs. C. Donovan, Misses Ivy and Kathleen Harrison, of Smith's Falls, were the guests of their aunt, Mrs. T. K. Scovill, last week. Mrs. B. Rose and little daughter are visiting her father, J. Chapman, at Harlow. It is hoped the young men of the town will keep on putting all stray cows in pound.

A Six-Day Excursion.

On another page will be found announcement of third annual six-day excursion to Montreal and Ottawa per steamer Altha. August 2nd to 6th inclusive. The growing popularity of this excursion is evidenced by the numerous enquiries and bookings of former patrons, and many new ones. "Finest water trip in America," the verdict of past two seasons. The Thousand Islands, the rugged Adirondacks, the grandeur of the Ottawa, and the marvellous beauty of the Rideau (all to be seen by daylight); with a chance to visit Canada's commercial and political capitals, are among the many attractions.

A Quaint Island.

Jethou Island, off which the steamship Courier foundered, is by far the smallest of the Channel Islands, and boasts the distinction of being the smallest inhabited island in Europe. Having, indeed, only one dwelling house upon it. It has a population of about seven souls. It has no road or pathway or port. At the last census more than half the population of the island was absent, having gone into Guernsey market with the butter and cream from the Pethou cows. The weather became bad, and the visitors had perforce to remain at Guernsey during the census time.

Dead Creek Movements.

Dead Creek, July 11.—Damage was done to potatoes and other garden produce by the hail-stones on Sunday. The lawn social passed off very pleasantly; proceeds, \$15.70, to apply on the organ for Sunday school. The school teacher, Miss Emma Campbell, has resigned, and Miss F. Wolfe will be engaged to teach next year. Albert Gaylard has sold his farm to Frederick Loyd. Mr. Garland Newton has purchased the steam saw-mill from William Pipe and will operate it in the future.

Married At Pictou.

Pictou, July 10.—A very pleasant event took place last evening, in the home of Frederick Adam's, West Main street, when Miss Ethel Collier, Pictou, was united in marriage to William Norton, Cressy, Rev. C. A. Fox officiating. The happy couple left this morning, via steamer North King, to visit friends in New York state.

Every Camp Outfit Should Have A Box of Mentholatum.

Every camp outfit should have a box of Mentholatum. It cures mosquito bites, 25c. Gibson's Red Cross drug store.

They Know It.

Thousands of people throughout the country have tried the ordinary remedies for piles—Outcomes support. The best of them only bring passing relief.

Dr. Leonard's Hem-Rolls is a tablet taken internally that removes the cause of Piles—Outcomes support. Every package sold carries a guarantee.

It is perfectly harmless to the most delicate constitution. It is sold in a box of five packages. Sold at \$1.00. At any drug store or 25c. Gibson's Red Cross drug store, Pictou.

WANTS HEAD OFF

CRIMINAL DESIRES TO GIVE POPULACE A SHOW.

Public Execution Leads to Disquieting Carousal—And the Authorities Want to Pardon the Murderer—May Force Passing of Law.

Paris, July 12.—"I want to be guillotined. They condemned me to death, and they shall execute me. I'll have none of their pardons. There is no reason for a revision of my sentence. Paris has not seen an execution for years."

This declaration was made by a man, Pierre Adam, to the prison authorities and lawyers, who were trying to persuade him to appeal for a commutation of a death sentence for murder. He has resisted the persuasions persistently for three weeks, and clamors to have his head shopped off, yet the authorities do not comply with his wish. The position is a curious one. As the law stands it permits that executions shall be public, but since the guillotine was removed some years ago from the notorious place de la Roquette, the local officials everywhere have successfully resisted the attempts to secure a new site, and the guillotine has laid idle in a shed, the officers of justice not venturing to offend any part of the city by insisting upon its erection.

They have consequently persuaded every person condemned to death to appeal for a commutation, which has been forthwith granted. Adam's unprecedented refusal creates a difficulty. A public execution invariably leads to a disgusting, and misbehavior by the crowd, and the establishment of the guillotine anywhere without the assent of the authorities, representing the respectable citizens, would inevitably arouse anger. Hence the reluctance to carry out death sentences here, and the discussion alternatively localizing private executions and abolishing capital punishment, and Adam's novel attitude may lead to the passing of one or the other.

GANANOQUE NEWS.

Funeral of the Late Mrs. Atkinson This Afternoon.

Gananoque, July 12.—The funeral of the late Mrs. E. L. Atkinson, who died in Hamilton, took place, from the family residence, here, this afternoon, to Willow Bank cemetery. Mrs. Miss Nash, who has been in St. Vincent de Paul hospital, for the past week, where she was operated on for appendicitis, is improving very rapidly.

The local Orange lodge attended the celebration in Brockville today.

Mr. and Mrs. William G. Riley, of New York, have taken possession of their summer residence on Hay Island, for the season. Rev. William Parley, of Easton's Corners, is spending a few days with friends in town. Capt. Wood, of the local Salvation Army corps, left yesterday, to enjoy a month's furlough in South Dakota. Mrs. (Dr.) H. A. Parker, Church street, spent Tuesday with friends in Brockville. William Williams, of New York, is visiting with relatives in town. Mrs. W. E. Meggs and family, King street, accompanied by Mrs. Horace Griffin, are visiting the former's sister, Mrs. T. Tennant, Caintown. J. C. Shortill, is spending a few days in town with friends and relatives.

A Becoming Necessity.

Fine figured lawn, batiste and silk are used for the fashioning of this season, when the jackets and saques take the place of the lounging robes which are worn during the winter months. White lawn is used in making the saque illustrated. The front is tucked to five inches below the waistline, being finished with eyelet insertion and a wide gathered ruffle of the lawn. The back is tucked and finished with a belt which runs only to the under arm seams. The full flowing sleeves are finished around the hand with the insertion and ruffle of lawn, and a ruffle edges the rolling collar. If desired, the tucks in front of the jacket can be extended to the waistline and fastened with a bow in the front. The dressing saque has become an important factor in a woman's wardrobe today, but it is a garment so easily made by the amateur and so satisfactory, that no woman need wait for a giddy supply.

Fatal Blood Poisoning.

Frequently follows the use of cheap corn salves and plasters. The speediest is the best, and that's "Putnam's," which has a record of fifty years' success. "Putnam's" substitutes for "Putnam's," which costs 25c. in every drug store.

Experiments at a western female college disclosed the fact that thirty-seven per cent of the students talked in their sleep.

Some of them would even answer questions, but that depended on what the question was. It makes new friends everywhere. With Hazel soap 25c. box. Gibson's Red Cross drug store.

McClary's Sunshine Furnace

HON. G. W. ROSS
ONTARIO LIBERAL LEADER
A GLOWING OPPOSITION

burns coal, coke or wood equally well, and grates for both are always supplied.

In mild weather, when a steady fire is not needed, the chilliness can be taken off a house with a wood fire—the large double feed doors will admit a heavy, rough chunk.

The "Sunshine" is a glowing opposition to cold winter days, and will produce more comfort from the same amount of fuel than any other furnace.

You should examine this heater before buying any other.

Sold by enterprising dealers everywhere—booklet free.
