PURE NATIVE SILVER.
Encouraging Find East on Montreal River.
Cohart, Ont., July 13.—One of the most encouraging finds of the season was made yesterday about three-quarters of a mile east of Portage Bay on the Montreal river. This is in the famous Coleman township. The samples brought in were pure native silver, and gave great promise of this becoming a very rich mine. A small find of ruby silver has also been made on the Montreal river between Gilles depot and Latchford.

Bury The Hatchet.
New York, July 13.—A despatch from Newburgh says that ex-Governor Odell visited Senator Platt on Thursday. He took lunch with the senator and returned in the afternoon. The announcement created no surprise in New York. For a long time there have been rumors of a "burying of the hatchet" so far as Odell and Platt were concerned.

To Head Off Hill
Winnipeg, July 13.—Throughout 1-200 miles from Winnipeg to Edmonton, the Grand Trunk Pacific construction continues with tremendous vigor. Premiums are being paid for labor and 100 grading camps have been established. This leveling rush is declared to be to head off Hill's schemes. C. P. R. and Canadian Northern rushing work on numerous extensions, and surveying many branches throughout Alberta and Saskatchewan.

LEGION OF HONOR
MAY BE CONFERRED UPON CAPT. DREYFUS.

Senate Will Erect in Gallery Busts of Dreyfus' First Champions—The Condemned—Man Again an Officer, and Will Not Talk.
Paris, July 13.—At an extraordinary session of the council of state held last evening, it was decided to propose to the chamber of deputies, on Friday, a bill promoting Captain Dreyfus to be a major, and Ex-Col. Picquart, whose defence of Dreyfus caused him to be cashiered, to be made a brigadier-general. The bill furthermore will propose Dreyfus as a candidate for the legion of honor. The senate by a vote of 184 to 29, has decided to erect the busts of the condemned, of Dreyfus, Picquart and Schœner-Kestner, who were the first champions of Dreyfus' innocence. Capt. Dreyfus after the announcement of the court's decision expressed relief at having his honor restored after his long sufferings. As to his future he said he had not learned what the government's intentions were but as he was now an officer again, he could not talk for publication on that subject. Dreyfus added: "I have one word to say, that of thanks to all who have defended the truth in an innocent man." It is understood that the court of cassation was divided on the verdict, thirty-one of the judges favoring it, and eighteen opposing it. The president received the verdict calmly, but the newspaper containing the verdict sold like hot-cakes.

RATHER STARTLING MOVE.
British Factories to Open in United States.
London, July 13.—Walter Chamberlain brother-in-law of the Avyry president at a meeting of the Avyry company of Birmingham, said that as the recent general election had postponed fiscal reform the company had decided to open in the United States and to manufacture automatic weighing machines. He added that an American company had been formed to make in every machine which it was expected would be soon dumped on Great Britain, under the cost price here. The directors therefore had decided to carry the war into the enemy's camp. He intimated that this was the first of a number of such factories that would be built in countries having a protective tariff.

CALLS DOWN HIS SISTER
For Attending Banquet Given to President's Daughter.
Madrid, July 13.—The fact that the Infanta, Esalida, of Spain, attended the banquet given in honor of Mr. and Mrs. Nicholas Longworth, in Paris, by United States Ambassador McCombs, on Monday, being commented unfavorably in court and aristocratic circles here. It is reported that King Alfonso has telegraphed to the Infanta that she should not have attended the banquet.

LABEL IT HOME-KILLED
Wording in Army Meat Contract Chastised.
London, July 13.—In a speech in the House of Commons, yesterday, Mr. Haldane said he had changed the army meat contract to read "home-killed" instead of "home-fed." He found Canada, Argentina and Australia which was killed in Liverpool and labelled "home-fed."

Anxiety Over Kaiser's Health.
London, July 13.—A despatch from Berlin says that the Kaiser's health is again causing some anxiety to his friends. His ailment is regarded as more mental than physical, and his present sea trip to the north was taken on the urgent advice of the court physicians. He is described as being very irritable, so that the least thing annoys him, and makes the position of those about him very uncomfortable. He is unable, moreover, to concentrate his thoughts upon any one subject for long together, and is said to be sleeping very badly. The symptoms are all said to have grown much worse during the past few weeks. His natural restlessness is also getting more pronounced, and his medical advisers fear that unless he takes a prolonged rest, a complete breakdown will take place.

The Dates of Club Events.
Toronto, July 13.—At a meeting of the directors of the Ontario Jockey Club, it was decided to return to its original dates of the autumn meeting, viz: September 15th to 22nd, instead of September 22nd to 29th, as previously announced. The Montreal Jockey Club, for whose alteration in dates was made, having determined not to hold their inauguration meeting this autumn.

BROOKVILLE CROWDED.
The Orangemen Had a Good Time.
Brookville, July 12.—Between seven and eight thousand Orangemen and visitors were present here in honor and celebration of the battle of the Boyne, fought and won by William, Prince of Orange, on July 12th, 1690. The day, though warm, was very enjoyable and one of the prophesies of "rain on the Twelfth" did not fall true. Delegates from all surrounding lodges were present. The gala decorations made a very creditable display as well as presenting an air of well-organized and well-kept order. To come to the visitors, prominent officers in the persons of Grandmaster Halliwell, Toronto; Lieut. Col. McNeill, Gananogue; and H. C. Lockie, editor of the Orange Standard, arrived in town last night, were met by the 1st Regiment, band and escorted to the Revere house where they made their headquarters. They were greeted by coronets and welcomed with the favor conferred upon them.

Early this morning a meeting was held in the local lodge room where the usual business connected with the occasion was transacted and some new members admitted to the order. Before noon the town presented a grand appearance. All trains connected with the incoming guests, including American lodges, accommodation for all though prices were quite on the raise when the crowd was estimated. At 2 p.m. the procession started from the court house square, through the principal streets to Victoria park where the usual address was delivered. No accident occurred to mar the day's programme. The crowd on the whole was very orderly, reflecting much credit to the organizers and the number of their members were present.

How Harry Thaw Was "Done" for \$75,000.
Brookville, July 13.—Probably at no other summer resort as at the islands adjacent to Alexandria Bay and Rockport, is the new building Harry Thaw, the Pittsburg millionaire, more to be seen of White, read with greater avidity, where a large number of wealthy Pittsburg people have their summer homes.

One of these, in commenting upon the affair, said to-day that among the Pittsburg "500," Thaw had always been regarded as a sort of peculiar chap, but a smart one nevertheless. The speaker went on to narrate how on one occasion, when Thaw joined the Pittsburg Club, he had been beaten at cards to the extent of \$75,000. Thaw paid up without saying much and went to New York, where he spent several weeks with a card sharper. He returned in quiet, unassuming way, and took nearly twice the amount from those who had trimmed him but a few months before.

Largest in Decade.
New York, July 13.—The Delaware peach crop, which will begin moving to New York and other markets this week, will, according to a crop expert in the employ of Pennsylvania railroad, be 200 per cent. greater than that of last year and 100 per cent. larger than any crop produced in that state for the past decade.

He phoned the crop this year at 2,500,000 baskets, and the pear crop at 499,253 baskets. The great increase in the peach yield is attributed largely to the fact that spraying the trees has prevented disease among them and thus increased their yield.

CHILD KILLED
Terribly Sad Accident at Napanee.

STRUCK BY ENGINE
DID NOT SEE IT AFTER MAIL TRAIN PASSED.

The Heartrending News Broken to the Parents—An Inquest Will Be Held—A Little Detroit Boy Lost Legs in a Hayfield Accident at Hawley.

Napanee, July 13.—A terribly sad accident occurred, yesterday, at twelve o'clock, at the G.T.R. station, in which Dora Morden, the thirteen-year-old daughter of E. Morden, former of the Bay of Quinte section, was killed. The deceased was on her wheel at the Centre street crossing, and waiting for the mail train to pass east, at twelve o'clock. Immediately after it passed she started across, but failed to observe a light engine that had been to the water tank, just east of the station, and which, at this moment, was backing up to take its train on the rise just west of the crossing. The engineer did not know that anything had happened until he saw bystanders waving at him. The little girl was thrown some two hundred yards and the engine passed over her, mutilating her terribly and killing her instantly. The sad news was conveyed to the parents who live but a short distance away. An inquest will be held to inquire into the cause of the accident. The funeral will take place this afternoon at four o'clock at the Eastern cemetery.

Master George Snider, of Detroit, aged fourteen years, visiting his grandmother, Mrs. W. R. Prette, Hawley, had one of his legs cut off and the other badly cut, Thursday afternoon. The leg was in the hay field and standing in front of the mower when the horses started up, with the serious results stated. Dr. Vrooman was called and dressed the wounds and amputated the leg, which was sent to the hospital. The glorious Twelfth was celebrated in Tamworth, yesterday. Quite a number from Napanee, went out to celebrate.

Little Master George Beverly Thompson, son of Mr. and Mrs. Geo. W. Thompson, Bridge street, celebrated his first birthday, yesterday, July 12th. Miss Minnie Bixby entertained a number of her friends to a driving party, to Bath, on Wednesday afternoon, and all report a very enjoyable time.

Mr. and Mrs. A. R. Davis and family, Winnipeg, arrived in town this week to spend a few weeks with relatives in Napanee and vicinity. Frank W. Morris is at present very busy.

The Eastern Methodist Sunday school held its annual excursion to Kingston and Thousand Island, Tuesday last. The excursion was thoroughly enjoyed by all who availed themselves of the outing.

George H. Perry and F. Hoey, sailing on the upper lakes, this summer, spent a day or two in town this week. A. G. Smith, Pictou, our well-known fruit man, spent a few days this week renewing acquaintances in town. Mrs. Nixon and daughter, Miss Jessalyn, guests of the Rev. J. B. Snider, Snerry Rockwell, John street.

Camp Le Nid will open for the season to-day, Garratt New, Straburg, Susquehanna, Pa. It is well pleased, to spend a few weeks. He is well pleased with the west.

PECULIAR, BUT SHARP.
How Harry Thaw Was "Done" for \$75,000.

Brookville, July 13.—Probably at no other summer resort as at the islands adjacent to Alexandria Bay and Rockport, is the new building Harry Thaw, the Pittsburg millionaire, more to be seen of White, read with greater avidity, where a large number of wealthy Pittsburg people have their summer homes.

CAN'T KEEP IT DOWN
Steamboat Loaded With Whiskey Floats Again.

Vermilion, S.D., July 13.—For some unknown reason the steamboat North Alabama, which struck a snag and sank in 1870, six miles below here, suddenly reappeared on the surface of the Missouri river, last evening, and hundreds of people are viewing the spectacle. The boat was bound from Sioux City to the Yellowstone district with flour and whiskey when it sank. It is supposed a change in the current washed away earth deposited above and around the boat, allowing it to rise again. There were fifty barrels of whiskey aboard, and already a hunt has begun to locate the liquor, which has had thirty years of ripening. Owing to the fact that mud and sand have filled up much of the interior of the boat, it has been impossible to get at the whiskey as yet. When it is reached South Dakota's prohibition laws will undoubtedly be severely tested.

ADDED CRIME TO CRIME.
Man Arrested for Murder of Girl Shoots Himself.

Elroy, Wis., July 13.—Conductor H. M. Riggs, who was arrested here in connection with the murder of Millie Ellison, at Minneapolis, shot himself, dying instantly. Riggs, when arrested, asked to be taken to see his wife and daughter, who are visiting in the country. He returned last night and talked with many friends, being apparently cheerful, but somewhat pale. Shortly after midnight Riggs asked permission to go to the hotel to his room. With the officer outside, not locking his door, Riggs, when searched just after his arrest, shot himself through the temple. Riggs had no weapon. Officers from Minneapolis went on their way here at the time of the suicide.

LAW AN IMPORTANT GAIN.
Government Carried All That Could Pass Parliament.

Ottawa, July 13.—The representatives of the Lord's Day Alliance, who have been following the Lord's Day bill in its progress through parliament, make no secret of their opinion that the law as passed is undoubtedly an important gain. They give unstinted praise to Sir Wilfrid Laurier and associate the measure with the measure in which the measure was carried through. They acknowledge also the leading part that the minister of justice, the Hon. J. A. A. Macdonald, played in the discharge of the bill, and one of the Lord's Day representatives said he had a hesitation in expressing his satisfaction with the bill as far as it went. He was convinced, the government carried out all that was possible to carry. Any weaknesses that experience shows can be improved in ensuing sessions.

TO STEP OUT
Until the Scale of 1903 is Completed With.

Athens, Ohio, July 13.—The officials and delegates of the 30,000 coal miners of the Toronto district, at a convention, last evening, in Glouster, voted, nearly unanimously, to issue orders to close, but all the coal miners in the employ of the "stand pat" operators, and to have them stay out till the absolute scale of 1903, is paid by the operators. The orders were issued, last night, to close the mines out. The difference between the miners and the operators is 74-100 of a cent per ton on wages to be paid to the fillers.

MARY PATENTS ISSUED.
Heaviest Business in History of Office.

Ottawa, July 13.—The year just closed was the heaviest in the history of the patent office of Canada. The total number of patents issued was 5,870, a large increase over the previous year. The amount of fees received was \$14,700. In excess of 1905. Seventy per cent. of last year's patents go to American citizens.

Visiting Big Plants.
Buffalo, N.Y., July 13.—A party of seventy-five Canadian engineers, members of the Toronto Engineers' Club, arrived in Buffalo, by special train over the Grand Trunk, at 10:20 o'clock this morning, and are being entertained here to-day. Before leaving the engineers will visit the several points of interest especially the great industrial plants.
