FARM LABOR SCARCE.

Stress of farm work has raised the outery for men to go in the country to work. Almost every farmer in town, to-day, wanted a man, and a well-known Wolfe Islander offered \$2.50 a day for men to help with the having. Too many of our young men, evidently, have travelled west. Reports have come in from many nearby sections of the scarcity of farm hence the good prices. That work is noticeable lately at the morning sessions of the police court. Going Away? That's Right-But--Choose Your Whitewear Before You Go

If your answer was not "Yes"well, we'll tell you now that this talk is really meant for those whose intend ed trip necessitates the choosing of some one or more white under-garments. No greater mistake could be made, than to plan a visit of even a few days without plenty of such, And we promise youguarantee you, that nowhere (either in Toronto, Montreal or orther large cities) will you find nicer designs, of finer quality—at the same pleasing prices than we are now showing. So we urge you not to leave without every "white need" well supplied, and also, not to always to be remembered that the comshould build up a reserve before it resumes the payment of dividends.
