THIS YEAR'S BOOK NOW BE-ING DISTRIBUTED.

Contains 477 More Names Than Last Year's Directory-Some Interesting Facts Concerning It-It Shows the Population to Be Growing.

The first city directory, published by Kingstonians, printed by Kingston-ians, and bound by Kingstonians, is now being distributed. For long years Toronto or Hamilton directory publishers have issued the book, and the local men to get out the volume proved unsuccessful. There were many skeptical citizens who told this year's publishers that the book would never be got out, because other attempts had come to naught. The book, however, has been issued, and every has been done in Kingston. That th city is growing is proved by the fact that this year's alphabetical directory contains 477 more names than last year's. Only the names of people over eighteen years of age are published and married women are excluded from had increased to 8,249. This year number stands at 8,726. It is usual t is to be regretted that so few which his mother and he will live after it is completed. The building will number of names in the directory by Chatham, is the guest of friends in the population by multiplying the number of names in the directory by their houses. It had been designed to be 26x32 feet and the material will three. This method of computation pance, are spen would give Kingston a population of with his son, C. H. Sharp, 294 Queen 26,178. This rule, however, though street. claimed to hold good in other cities, L. W.
