He characteristics are the position afforded better chances in the future. He characteristics are the position afforded better chances in the future. He characteristics are the position afforded better chances in the future. ll outside expert assistance. The meaker claimed that the local man should get the preference. If Mr. Beekwith could do all that his credentials represented, then he was lf all Kingston required was the building of shorters.

was no necessity of appointing an engineer. The work of the office had been carried on satisfactorily. The only large work ahead was the O'Kill street sewer extension, and the assistance of Superintendent Hewitt, of the waterworke, could be secured for would come in. Ald, Craig was surble that Ald, Nickle should have been badly being the chance till the end of the spoken as he did about Mr. Beckwith

time was opportune for Kinoston to competent.

do away with a city engineer, He had hopes that in years to come Mr. Me-Clelland would become a competent engineer, for which post he was now studying. He would like to assist Mr. McClelland, but he hadn't the qualifications of the various applicants, as the speaker and others had. He himself voted in the board of the works meeting for the board of works meeting for the board of works meeting for the board of the colts of the fifties.

Go to Lake Ontario Park, Monday, and give the young Canadian hero, william Sherring, a grand reception. He will run at 4 p.m.

erman take turns in doing the work." pert on re-inforced concrete work.

(Laughter). Ald. Bassam ridiculed the Ald. Nickle's amendment was (Laughter). Ald. Bassam ridiculed the idea of Kingston not requiring an expert city engineer. In Mr. Beckwith the council had a plumbing expert and architect as well. The speaker claimed that Kingston should have a good city engineer. The reason why \$1,500 a year was recommended was that engineers were source, and had to be paid. It was necessary that Kingston paid. It was necessary that Kingston should have a city engineer at once.

Ald. Carson said that the work of the streets department has been going on smoothly for the past few months, but that was not the point. Was Kingston to go ahead? If it was it must have a competent engineer. Mr. Beckwith, whom the board of works was recommending, had excellent the competent of the point of the point. Was adopted, and the by-law appointing Mr. Beckwith was passed, and signed and sealed.

General Business.

Ald. Givens had retired before this vote was taken.

The board of works report was then adopted, and the by-law appointing Mr. Beckwith was passed, and signed and sealed.

General Business.

Ald. Reeves was welcomed by the mayor as the new member-elect from the point of the point. was recommending, had excellent qualifications, having had ten years experience in municipal engineering. He claimed that according to Ald. Gaskin's argument, a deck hand might be advanced to a captain's post because he had been on a boat; or the city solicitor's clerk might have as much mayor as the new member-elect from Cataraqui ward. He will occupy a seat between Alds. Nickle and Rigney, according to alphabetical order.

"An alderman elected by acclamation should provide oysters for the council," said Ald. Carson.

"I would remind Ald. Carson that oysters are bad at this season of the

e he had done clerical work in his Ald. Reeves was excused. affice. Mr. Beckwith was satisfied to do the work of city engineer for \$1,500, because he and his wife desired to live in Kingston. In view of the fact that Mr. Beckwith would do the city's indemnify the city against damages spector the council would be foolish Ald. Daniel Reeves was appointed ellent chance to secure his services. A vote was taken on Ald. Gaskin's
