Escape From A Nuisance.
The information which a public official imparted to the board of control in Toronto, and to the effect that the experiments with smoke consumers on the C. P. R. locomotives had been a success, is received with great favour. Formerly the smoke would escape from the engine's funnel "dense, black, impenetrable," and with the aid of the device now on trial, it is changed to "light grey vapour, entirely unobjectionable."

The statement is one of the most important which has been yet passed out for the information of travellers. Summer touring is detested on the railways in consequence of the smoke nuisance. The cars must be ventilated and the smoke sweeps through them, and smudges and soils everything it comes in contact with. If the nuisance can be avoided, at any cost, it will be a blessing which the passengers on the trains will not fail to appreciate.

Use Of Connee Act.
A great deal has been said for and against the Connee Act. The act has had its friends and its opponents. What is its design? To prevent municipalities going into a ruinous competition with private companies as suppliers of water or light or power. Kingston was not, when it purchased the gas and electric works, free to embark on an enterprise without regard to these plants. Is it not that such was the case? The city paid a good deal for an old out-of-date plant, which must sooner or later be replaced. But it acquired a monopoly of the business and that is the main consideration so far as the city is concerned.

Imitating The Liberals.
The Ottawa Citizen offers some explanation with regard to its attitude on the Murphy deal. Its criticism has been termed a revolution and yet, it remarks, "there never was a day in the history of the dominion, when the conservative press slavishly followed governments and defended acts which they considered wrong." That is a great boast, and yet, not of so much account, when its limitations are remembered. The acts of conservative governments in the past have been few which the conservative press "considered wrong." Its moral vision being perverted it is not remarkable that there has been a failure to denounce some things that have been essentially ranker than the Murphy graft.

Spirit Of The Press.
It was His Kind.
Provincial Treasurer Matheson ought to resign, for he told the newspapers days ago that the Murphy deal was all right, and one just after his own heart.

Mistake A Bad One.
"An Ontario government official has made a mistake," says the Hamilton Spectator. "But the government will correct the mistake." Reference is made to the granting of concessions to the Murphy syndicate on terms which were different from those given out by the premier, and from those which were advertised. The government has cancelled the award on the ground that it was subject to ministerial review. It was a fortunate provision to which the government was forced to resort, for when the deal was reported Hon. Mr. Foy and Hon. Mr. Matheson had nothing to say. The matter was in the hands and control of the railway commission.

1,000 Islands - Rochester.
Steamers North King and Caspian leave daily, except Monday, at 10.15 a.m. for Thousand Islands. Returning, leave at 5 p.m. for Rochester.

NO SPECIAL CREDIT
DUE J. M. SHAW FOR THE WORK DONE.

In Collecting Asylum Fees—Detailed Statement of His Expenses to Be Called For—Some Pointed Statements.
Kingston, Aug. 8.—(To the Editor): The following paragraph appeared in the News of Saturday last:

"J. Morgan Shaw, in his new office of collecting asylum fees, has shown what energy and business capacity can save his government in cool hard dollars. The office is a creation of the Whitney government, and a wise creation it was. A statement of the amount received by the government on account of maintenance of patients in the various asylums of the province for the six months, ending June 30th, 1906, shows a total of \$26,290.62, as against \$20,722.45 for the corresponding period of 1905, and \$43,132.61 for the like period of 1904. In other words, the new office has in six months poured over \$26,000 extra into the Ontario general fund."

READY TO GIVE IT UP.
A Kingston Lady Found a Watch in Brockville.
Brockville Recorder.
While en route to the fair grounds, Tuesday of last week, Mrs. Steeves, Ottawa, a visitor, in town, dropped her watch at some unknown point along Park street. She notified the police of her loss and a diligent search followed, without success until yesterday, when the chief constable had a lady visitor from Kingston who picked it up and taken it to her home. Chief Bailie of Kingston, was notified yesterday afternoon, and this morning Chief Bailie received a reply from him that the lady in question had the watch and was quite willing to give it up.

Awards To Indians.
London, Ont., Aug. 9.—There was a crowd of Indians at the offices of the Dominion Bank, where the former are being paid the money awarded them by the United States supreme court for losses in New York State that the Indians in that state were deported to the province, and have recently found that there was money due them in the deal. The sum (in round numbers) going to the Muncey Reserve Indians is a million dollars.

Let The Committee Enquire.
Kingston, Aug. 8.—(To the Editor): The local fire-fighters' claim, in last Friday's paper, that the statement I made in Wednesday's paper was decidedly contrary to facts, I wish to ask as a citizen, what are the facts regarding the fire on Sydenham street, July 30th, as the firemen did not reach the scene until eight or ten minutes after the fire was put out, and when they arrived one of the firemen said if the occupant had waited for them, the house would have gone all their time to save the other buildings around it. The occupant fought the fire about fifteen minutes, and put it out, but was badly burned about the feet and legs.—J. TRUESDELL.

To Agree Temporarily.
Paris, Aug. 9.—Le Matin says the pope's instructions to the French clergy as to the course they shall pursue with regard to the church and state separation law, have been received in Paris. The text of the instructions has not been published, but it is believed the pope refuses to accept the law, though he agrees to a temporary arrangement under it.

Old or young can learn to swim with swimming floats, 35c. and 50c. Gibson's Red Cross drug store.

A FRANK AVOWAL.
That Kingston Was Punished For Late Acts.

The most unblushing case of punishing a constituency for its political preference is that of Kingston. At the last general election, when the province gave an overwhelming majority against the Ross government, that city returned its former liberal member, Mr. Pense. When he was later unseated on a petition his constituents re-elected him, though meanwhile the Whitney government had taken office.

There can be no two opinions that in the distribution of new normal schools, Kingston was entitled to one. For all practical purposes, it is very little nearer to Ottawa than Peterboro is, while Peterboro is only a three-hour journey from Toronto. Kingston has the inestimable advantage of being a university town, and of having within it an institution that is a university in reality, and not merely in name. Queen's is an historic institution with a noble record and a wide constituency. Every one expected the government to place one of the normal schools in its immediate vicinity; every one was surprised to see Peterboro secure the institution. Of course, everybody forgot that Kingston had remained liberal, while Peterboro had become conservative.

Kingston Lady And Zam-Buk.
A number of Kingston ladies have expressed their appreciation of Zam-Buk, the great herbal balm. This balm is unique for sunburn, freckles, insect stings, sore feet, blistered hands, etc. It also cures eczema, ulcers, cuts, bruises and all injuries and diseases of the skin. Local testimony to its value in cases of skin eruptions is provided by Miss K. Matthews, of Beverley street. She says: "Some time back my face began to break out, and all I tried for it seemed to have no effect. I could not get it better. I saw a report of Zam-Buk, and gave it a trial. It has worked wonderfully. I think it just splendid for skin eruptions, and will recommend it to my friends."

Spent A Day On The River.
By taking in the America's trip to Ogdensburg, Friday, 8 a.m. First class meals on board. Home early. Only 50c. return.

Too Much Food.
Every time you eat too fast, cram too much food into the stomach, you offend a law of nature and will probably suffer headaches, nausea, biliousness and all the horrible distresses which are so common. Now if you will assist nature a little in an agreeable manner with such a pleasant and efficacious treatment as Hutch you need not suffer. Hutch will give you instant relief from these little complaints and if you give it a thorough trial you will find that it causes you permanently to eat less, and cure you for ten cents. 25c. and 50c., at all drug stores.

Yacht Club Dance.
There was only a small attendance at the Yacht Club dance last night. The weather was altogether too hot for dancing. The club's new scheme of limited invitations has greatly reduced the number of visitors to the weekly dances. All who go have to show their season invitation cards.

Wood's Eschscholoid.
The Great English Remedy.
Tones and invigorates the whole nervous system, makes new blood in old veins. Cures Nervous Debility, Mental and Brain Fogginess, Headaches, General Weakness, Emission, Spontaneous Emissions, and Effects of Abuse or Excess. Price 25c. per box, six for \$1.50. One will please six. Sold by all druggists or mailed in plain paper on receipt of price. Never supplied by mail. The Wood Medicine Co., Toronto, Ont.
