FADED AWAY
Russian Reform Schemes
Again Crushed.
A DECIDED REACTION
HAS FINALLY DECLARED IT-
SELF OPENLY.

By the Government Appointments
—Armed Forces Relied Upon—
Members of Douma to Be
Prosecuted.

St. Petersburg, Aug. 11.—The ap-
pointments of Prince Vassitshkoff as
director of the department of agri-
culture, M. Irvolsky, brother of the
minister of foreign affairs, as procur-
ator-general of the holy synod, and M.
Filosoff as minister of commerce, are
regarded as confirming the belief that
the government relies wholly upon the
armed forces.

The following figures demonstrate
the frame of mind of the government:
The department of political police has
arrested 268 persons in St. Peter-
burg, since Monday, and has made
forty-six domiciliary searches. Sixty-
eight persons have been expelled from
the capital, thirty-two exiled to Si-
beria, eight workmen's restaurants,
four offices for finding work for the
unemployed and four printing estab-
lishments have been closed.

A Bureaucratic Cabinet.
London, Aug. 11.—The St. Peter-
burg correspondent of the Times says:
Reaction has finally declared itself
openly. A purely bureaucratic cabinet
has been formed and the prospects for
Premier Stolypin's schemes of reform
have faded into nothingness. The
character of the new cabinet makes it
clear that N. Stolypin's promises of
reform will be simply allowed out of
the government programme by a sturdy
array of repressive measures. The
collapse of the coalition scheme re-
lieves the government of the irksome
necessity for treating respectfully the
members of the former douma who
signed the Viborg manifesto. It is
now announced that 229 of these in-
cluding ex-President Murostoff and
Prince Dolgoroukoff, will be prosecut-
ed.

Enquiries About Battleships.
London, Aug. 11.—The Evening
Standard announces that enquiries are
being made in behalf of the Russian
government among British shipbuilders
with reference to the construction
of battleships.

MUST BE MADE SAFE.
Railway Commission Will Ap-
point An Inspector.

Ottawa, Aug. 11.—The railway com-
mission has decided to select an ex-
perienced railway man to make an in-
spection of the Canadian railways, with
a view of seeing that they are
made as safe as possible, both for
those who use and those who operate
them. The inspection will ascertain
whether the companies are providing
the safeguards that the law demands
for the protection of life and prop-
erty. All rolling stock, and locomo-
tives, all signalling appliances, and
tracks, will be thoroughly examined,
and the inspector will report to the
railway commission whatever changes
he thinks should be made.

By order of the railway commission
the railways of the dominion were
given until this fall to provide all
cars with air brakes, automatic cou-
plers, etc., and it will no doubt be
part of the inspector's duty to see
how the railway companies are carry-
ing out the mandate of parliament in
these particulars.

ON ITS METTLE.
Emerson Say Road Will See
Prosperous Days.

Halifax, Aug. 11.—"The position of
the J.C.R.C." said Hon. H. E. Em-
erson, "was never more satisfactory
than at present. It almost seems
prosperous days have come to the In-
ternational. The hearty co-operation of
officials and employees, I am happy to
say that we are meeting all difficulties
successfully."

"Good feeling prevails among the
officials and men, and all are on their
mettle because of criticism levelled
against the International."
"The earnings of the road during
July exceeded those of the corres-
ponding month last year by nearly
\$100,000. We are laying a great many
new and heavier rails and improving
the roadbed."

A Not Sentence.
Charlotte, N.C., Aug. 11.—George
Hall was, last night, convicted of
conspiracy in connection with the
lynching at Salisbury, of the three
negro murderers of the Beverly fam-
ily and was sentenced to fifteen years
in the state prison.

\$21,000 FOR CHORUS GIRL.
Miss Walker Wins Breach of Pro-
mise Suit.

Union City, Tenn., Aug. 11.—After
deliberating more than three hours
the jury in the suit of Miss Lola
Walker, who is said to have formerly
been a society girl, and who was later
a chorus girl, returned a verdict
awarding her \$21,000 damages against
Col. Richard Edwards, a wealthy
young clubman, whose residence is in
Union City, and who is well known in
New York, Chicago and St. Louis.

The case had been on trial for thirty-
two days. Eminent counsel from St.
Louis were engaged by the defense.
Miss Walker brought suit for \$50,000,
alleging breach of promise of mar-
riage. An appeal will be taken to the
supreme court by Col. Edwards.

TREATY IN OCTOBER.
Great Britain and U. S. Get To-
gether.

Victoria, B.C., Aug. 11.—The pro-
posed pelagic sealing treaty will be
negotiated between Great Britain, and
the United States in October, ac-
cording to advices from Washington.
Whether Canada will be a party is
unknown. Preliminary arrangements
were carried out some months ago.

Edwin W. Sims, solicitor of the de-
partment of commerce and labor of
the United States, who has been dis-
patched to the Pribilof Islands to
make a special report for use in con-
nection with the negotiations, has
returned to Seattle, and reports con-
cerning sealing feet and
local sealing conditions.

JAPANESE FOR ALBERTA.
A Colony May Be Established
There.

London, Aug. 11.—The Birmingham
Daily Post says that nothing is known
officially in reference to the founding
of a Japanese colony in Alberta, but
the Post's secretary, high commis-
sioner, in the Post says he has re-
ports for believing that the report is
true.

Allan Cameron, general traffic agent
of the C.P.R., when interviewed, says
the Post, said he could imagine no
better class of settlers in a country
like the west of Canada. They are
strong, hardy, healthful, resourceful,
capable, cheerful and obedient to the
law.

CAUGHT HIS THEROAT.
Horse Grabbed Jockey and Shook
Him.

Brighton, Aug. 11.—Just prior
to the decision in the race for the
Worthing Plate, Marigold IV., ridden
by Cockey Brady, reared up and
knocked Jockey Madden, who was rid-
ing Centre, out of the saddle and
then went on his knees, caught hold
of Madden's throat and shook him
like a rat, despite the efforts of
Brady who labored the horse over
the head. Eventually the enraged an-
imal bit Judge Nutter's leg. The horse
was badly lacerated and he was bleed-
ing freely when released.

MRS. LEDOUX TO HANG.
Convicted For Murder in Cali-
fornia Courts.

Stockton, Cal., Aug. 11.—Mrs. Em-
ma Ledoux was sentenced to be hanged
October 19th next on conviction for the
murder of Albert N. McVicar. Her
attorneys presented affidavits intended
to impeach the character of Juror Rit-
ter but Judge Nutter deemed them
insufficient as a basis for a new trial.
The convicted woman received the
sentence with calmness. The case will
be appealed.

Will Not Owing to
the prompt action of the American and
Japanese governments in publishing
the facts of the seal poaching in-
cident on the island of St. Paul, the
first report published, which were
sensational and inaccurate, have been
corrected. The newspapers refer to the
event as unprecedented in the rela-
tions between Japan and the United
States. The Japanese government will
not make any protest.

Foreign Consuls Threatened.
Beirut, Aug. 11.—A good deal of ex-
citement has been aroused in Euro-
pean circles by the receipt of an an-
onymous Moslem letter threatening
the lives of all foreign consuls at
this point, unless they bring their in-
fluence to bear for the dismissal of
the present Vali, Khalil Pasha, who
is charged with taking bribes and op-
pressing the people.

Japs Have Meat Scandal.
Tokyo, Aug. 11.—Japan has a can-
ned meat scandal. As a result of an
official investigation into the canned
meat industry at Hiroshima, con-
sequent on the agitation in the United
States, it was found that a can la-
belled "boiled beef" contained horse
flesh which had been prepared so in-
geniously that it could be identified
only by careful analysis.

A Steamship Ashore.
St. Michaels, Azores, Aug. 11.—The
American steamship Brooklyn, from
Manzanillo for New York, with 339 im-
migrants on board, went ashore yester-
day, in entering the harbor. There
will be great difficulty in refloating
her.

A PRISONER
While A Rebellious Crew
Landed Arms.
GUN-RUNNING PLOT
CAPTAIN OF SCHOONER LOCK-
ED IN CABIN.

The Crew Deserted After Landing
the Contraband on Finnish
Coast—The Captain Released
By Fishermen.

Copenhagen, Aug. 11.—The Danish
schooner Peter, commanded by Capt.
Albertsen, has arrived here after an
exciting adventure with Russian re-
volutionists of the coast of Finland.
The Peter was chartered at Lubeck
to carry a cargo of iron and copper
wares, stored in large casks, to Lulea,
Sweden. Acting on instructions, Capt.
Albertsen hired a new crew at Lubeck,
dismissing his cargo and set sail for
Lulea.

All went well until the schooner ar-
rived off the Aland Islands, when the
crew suddenly mutinied and, armed
with revolvers, attacked the captain,
whom they bound and locked in his
cabin.

Capt. Albertsen remained a prisoner
for six days, during which time a
sailor armed with a revolver con-
stantly kept guard over him. Through-
out a crack in the wall the captain could
see the other members of the crew
bringing up cases from the hold and
opening them. To the captain's as-
tonishment, they contained rifles and
ammunition.

The schooner finally put in at a
point on the Finnish coast, where the
arms and ammunition were landed by
the crew, who had apparently been
paid by revolutionaries at Lubeck.
The crew then deserted the schooner.
Capt. Albertsen was released from
his cabin by some Finnish fishermen,
who explained that they had been or-
dered, at the point of revolvers, to
assist the sailors in landing the contra-
band.

The captain, who is an old man,
hired several of the fishermen and af-
ter great difficulties, succeeded in
bringing the schooner to Copenhagen.

END OF STRIKES.
Present Generations Will Not See
It.

Knoxville, Tenn., Aug. 11.—President
John Mitchell, of the United Mine
Workers of America, addressed the
joint convention of coal miners and
operators of district 19, including
miners of East Tennessee and South-
western Kentucky, and President Mit-
chell cautioned both sides to exercise
caution and sound business judg-
ment in their negotiations and ad-
vised both to prepare to make con-
cessions in behalf of peace throughout
the district. He predicted the time
when strikes and lockouts would be
more, but said: "We will never live
to see it."

The miners want a restoration of
the scale of 1903, which is an average
of seven and one-half per cent, over
the present scale, an eight-hour day
and an increase in the allotment for
yardage proportionate to the increase
in the cost of fuel.

The operators are willing to restore
the scale of 1903, but decline to grant
the yardage increase.

PASSED BAD CHECKS.
Is the Son of a Pittsburg Mil-
lionaire.

Washington, Aug. 11.—G. R. Raf-
erty, twenty-eight years old, has been
arrested here and locked up on the
charge of obtaining money by false
pretenses. He is accused of passing
worthless checks here. He claims to be
the son of Gilbert P. Rafferty, of
Pittsburg, the millionaire coke manu-
facturer, and is the husband of the
woman who but a few days ago sued
the elder Rafferty for \$500,000 for
alienation of the son's affection.

FOUR YEARS AND 25 LASHES.
Limit of the Law Meted Out at
London.

London, Ont., Aug. 11.—Arthur La-
vigne, a French Canadian, was sent-
enced to the limit of the law, namely,
four years in Kingston penitentiary
and twenty-five lashes by Judge Ed-
ward Elliott. The prisoner had com-
mitted assault on young girls, once
in Stratford and again in London
township. Upon hearing the addition
to his sentence of twenty-five lashes,
the prisoner broke down and cried.

Many Medical Men.
London, Aug. 11.—England is send-
ing fifty delegates of the British Medi-
cal Association to Toronto August
21st, including Sir William Broad-
bent, Sir Victor Horsley, Sir Thomas
Barlow, Sir James Barr, Sir Hector
Cameron, and Dr. G. C. Franklin.
The trip of the English members alone
will probably cost £50,000.

MYRIADS OF LOUSTS.
Vegetation Ruined—Dey All At-
tempted at Annihilation.

Vienna, Aug. 11.—Myriads of locusts
are devastating the country in the
neighborhood of Delbrach, Hungary.
They are sweeping through the land,
eating every green thing they find in
their path. The crops on 60,000 acres
have already been consumed, so that
the ground is quite bare, and the au-
thorities are helpless to stay the ad-
vance of the insects.

All sorts of desperate means are be-
ing tried without avail to keep back
the invading host. Fires have been
lighted, but the locusts swarm into
the flames until they are extinguished
and the survivors continue their
march unimpeded.

Twelve steam rollers are being used
at one place, and roller brooms are
sweeping up the dead bodies of the
crushed insects. But no apparent pro-
gress is made. The locusts cover the
earth in many places to the depth of
several inches, and daily annihilation.
To make matters worse, a storm
has carried clouds of them over the
River Theiss, and they have devoured
practically all the corn, which was
standing in sheaves. What is left is
worthless, as animals refuse to touch
it owing to its peculiar smell.

The plague first appeared last year,
when a force of 600 men was or-
ganized to destroy the locusts. This
year the position of affairs is much
worse, and many farmers are threat-
ened with ruin.

A PROMISING COUNTRY.
Says Immigration Commissioner
of Canada.

London, Aug. 11.—In the course of
an interview with the Tribune, R. T.
Watson, commissioner of immigra-
tion, New York, said that the great
prosperity was being shown by Canada,
as well as the United States, Canada
was one of the most promising coun-
tries in the world. It was true that
many were crossing from the United
States to Canada, and on the other
hand many from Canada were taking
part in the industrial life of the
States. Neither Canada or the United
States wanted undesirable.

Liable To Heavy Fine.
New York, Aug. 11.—A special to
the World from Saratoga says: Four
stable boys in the employ of John
Huggins, trainer for H. H. Duray, at
the local race track, were seized yester-
day by representatives of the im-
migration department of the United
States government and taken to Ellis
Island. The boys, among them
officially, were engaged by Mr. Huggins
and Mr. Duray in Newmarket,
Eng., and were brought to this country
in violation of the United States
alien contract law. The law
imposes a fine of \$1,000 for each per-
son imported upon the person who so
imports.
