"The Perfect Food"

Now 10c.

It is the only food for children and the best food for grown or growing people because it is only pure grain-has absolutely no foreign sweetening substance. It is made in the cleanest food factory in the world from the whole wheat and combines all the elements that make blood, brain, nerves, muscle and bone. Besides it's just the best you ever tasted. At all grocers. Always ready to eat.

Thin, Bloodless People

Are constantly in danger of conacting disease of one kind or another. Good rich, red blood naturally repels disease and destroys disease germs, and the man who's blood is in this condition is practically proof-against germ diseases. On the other hand, if the blood

weak, thin and watery, the system is in no condition to resist attack, and the ansemic person is always liable to contract Consumption, La Grippe, Typhoid, Pneu-monia, and kindred diseases; Coughs and colds are easily taken and hard o shake off, and disease of some kind is always either present or

The moral is, "find something to enrich the blood." There is just one preparation which can be depended upon to do this speedily and with solute certainty, and that is

FERROL contains all the elements necessary to the formation of rich, rec blood, and in such a shape that they cannot fail to be assimilated. If your blood is thin do not fai to take FERROL, and do not delay
