Biology Has Proved That Dandruff is Caused By a Germ. Science is doing wonders these days medicine as well as in mechanics. since Adam lived the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro s Herpicide was put on the mar ket. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to saps the vitality; causing itching scalp, falling hair, and finally baldness.
