One of those unfortunate occurrences the police court until the mother put some time past, took place early Wednesday morning last, resulting David Hartman, who lives at 375 Division street, and who is employed as a driver for the Rathtun company, being set upon by a gang of enterprising young footpads, and besides being relieved of \$20 in cash, suffering severe personal injuries.

Unfortunately afterwards blood-poisoning developed, but the doctor now thinks that the progress of the disease has been checked. The wound on the right hand is the most serious and had to be lanced this morning. Mr. Hartman has no idea who hi assailants were, but says that they were young men. He holds to the opinion that they were men who saw him with money in his possession at Napance, and believes that they fol-
