

Kidney Troubles

Vegetable Compound is Especially Effective in Curing This Fatal Disease

Mrs. S. Frake

has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the female organs. My back ached dreadfully all the time, I suffered so with walking about the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all my bad symptoms have disappeared. I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it.

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

"I have been a great sufferer with kidney trouble. My back ached all the time and I was unable to do any work. I had heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it, and it has cured me when everything else had failed. I had recommended it to lots of people and they all praise it very highly."

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness, are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her decease has been freely given to sick women. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Mr. and Mrs. Henry Skinner left today, for Toronto, after a week's honeymoon at "Maitland House." After spending a fortnight in Toronto, Mr. and Mrs. Skinner will leave for India, where Mr. Skinner will join his regiment, the 19th Punjab. Very warm wishes for their happiness through a long future, will follow them.

IN VICEDICE—THE STORIES OF FEAREFUL CRUELTY.

Women and Children Put to Death, Wounded Slain and Other Victims Wantonly Tortured—Correspondent Sees the Tragedies.

Warsaw, Sept. 12.—With the sanction of the authorities, who provided an armed guard, The Associated Press correspondent this afternoon visited Siedlce, the scene of the murderous events of September 4th, 9th and 10th, the railway station at Siedlce where the correspondent arrived there was crowded with Jews, among whom were many starving women with infants in their arms. A division of the Polish army there fell upon the ears of the frightened people the sound of a volley in the town, which lies half a mile back from the station, men and women with rifles and women imploring the soldiers for mercy, anticipating slaughter. Gentlemen roughly ordered the people to be quiet, assuring them their lives were in danger.

On Warsaw street the stores and shops were closed, all showing signs of having been plundered. Pictures of malice were hanging outside the windows of many houses, mute appeals to the soldiery and looter to spare the inmates. Everywhere in the street Jews were being hunted, ready to fire on the least provocation.

The streets were littered with Jews' hats, torn clothing and damaged carts. The most severe damage had been done in Fenka street, where the houses were riddled with bullets and in many instances walls had been demolished with cannon shot. Cows and goats, escaped from their pens, wandered through the streets aimlessly. At the Victoria hotel the dining room had been spoiled of its furniture, and the bodies of the guests' rooms had been ransacked, and their contents thrown into the streets and burned. From this point the correspondent was obliged to turn back, as shooting began.

He was made prisoner by some soldiers, but shortly afterwards released by the governor's order. A fugitive state that Governor Furgale was taken sick a week ago and that control of affairs in Siedlce then passed into the hands of Col. Tuchaczewski, an anti-Semite. The people at once began to desert the town, and heading an attack upon the Jews. It is asserted that paid provocative agents so contrived matters that on Saturday the soldiers began shooting in the streets and bombarded houses, the occupants being forced to flee. To quench the flames soldiers threw oil upon burning houses.

An army officer, standing upon a wounded Jew, remorselessly killed him. It is related that soldiers killed a visiting relative on Hec's Island, and his provisions as they were spread upon the table.

Another refugee states that Saturday night the doctor at the hospital in Siedlce lighted the gas in that institution preparatory to operating upon the wounded who had been brought in, and a number of the soldiers in the street opened fire upon the hospital, killing two of the inmates.

INSURANCE COMMITTEE Looking Into the Home Life Affairs.

Toronto, Sept. 12.—Before proceeding with the evidence before the insurance committee, this morning, Mr. Tilley took advantage of the opportunity to correct an error which crept into the report of the public press, crediting the late Thomas R. Wood, instead of R. A. Wood, with having received a bonus for selling the Home Life of J. J. Warren, solicitor for the People's Life, who carried out the negotiations for the amalgamation, said these were carried on openly and that the Home Life, under the McCutcheon contract, was no worse off than had the contract been carried out. The five per cent. commission paid Mr. McCutcheon was simply a substitution for the commission paid the manager, Mr. Patterson, for other details regarding his contract, which was approved by the annual meeting of the company.

Peaches for preserving. Crawford's, France spends two millions a year more on her army and navy than does Germany. Her exports for national defence are nearly forty-five million a year. British exports and imports from and to India are now practically equal, being each about thirty-seven millions a year. Only three British millionaires' estates were assessed for death duty in 1904. This is below the average. A cubic foot of lead weighs 71½ pounds; of mercury, cubic foot weighs 845 pounds.

Peaches, extra fine. Crawford's.

Quite a stretch of cement walks have been laid down here this year. A holler has resumed his work as mail carrier, and a number of the Lowell, Mass., spent a few days here at P. Vanuysen's. Mrs. M. SECRET SERVICE MEN Looking Up Diamonds Mounted in Montreal.

Montreal, Sept. 12.—Three United States secret service men are in the city on an interesting mission. It is known to the government of that country that \$150,000 worth of diamonds were recently purchased in Antwerp, for a large New York dealer, and were brought to this city. It is the belief of the officials that it is the intention to smuggle the jewels into the States if the opportunity presents itself. They are keeping a close watch on the people concerned.
