Bad Feeling Between Whites and
Indians—Suit By Quebec Govern-
ment to Recover Succession
Duties.

Glewa, Sept. 19.—The suit instituted
again by the Quebec government to
collect succession dues to the amount
of \$23,000 from the estate of the late
E. B. Eddy came up for hearing in
Hall, and was adjourned till Friday
for argument. There is a difference
of some five million dollars in the
value placed upon the late Mr. Eddy's
mills and factories in Hall, by the
estate and by the provincial government.

A report from Superintendent Con-
stantine, of the Mounted Police, who
has charge of the Lesser Slave Lake
district, says that wherever grain was
planted this season in that remote
region it has been doing very well. A
report from Post Gorman says that
there has been bad feeling between the
Indians and the whites there since the
rush to the Klondike gold fields, and
that it will take a little time before
this feeling dies.

The government has decided to fly
the Union Jack from the parliament
buildings every day during which the
house is in session.

It was learned to-day that Mayor
Ellis has decided to run for the may-
orship for a fourth term.

Dr. E. H. Lawson, son of Dr.
James Lawson, is surgeon on the
Monteagle, at Home Kone and his
friends are gratified to learn that
there was no loss of life in the boat.

TO DROP BOMBS.

The Latest Scheme of the Revolu-
tionists.

Brussels, Sept. 19.—The Independence
Belge publishes a despatch from St.
Petersburg, saying the reason the
war and family left Petrohof, on a
yachting cruise, was because the gov-
ernment there discovered a revolutionary
plot to drop dynamite bombs on the
palace from balloons.

The despatch adds that the revolu-
tionists bought two dirigible balloons
from an American and are keeping them
in Germany until a favorable
opportunity offers for them to start
on their plan. The revolutionists
hope that the victims will include the
emperor and Grand Duke Vladimir.

THE VERY LATEST CALLED FROM ALL OVER THE WORLD.

The death of Hon. Frederick Cook
and the burial of his body in the back
yard are being investigated by the
crown attorney at Toronto.

Three United States ships saluted
as the body of Rear Admiral Chichester
was placed on board the British bat-
tle-ship Formidable at Gibraltar.

Wilbur Glen Voliva was chosen by
the people of Zion City as their lead-
er by the overwhelming vote of 1,911
to 6 for his opponent, M. E. Billis.

Members of the board of governors
of the University of Toronto asked
the government for financial aid for
the erection of the physics building.

It is stated that Charles R. Devin,
member for Galway, is about to resign
his seat in the imperial house and
that he will re-enter Canadian politics.

Mr. Quinn, reported killed in the
Gilmour fire at Ottawa, has arrived
at his home in Lunenburg. His hair
was singed, but his injuries are
trifling.

J. Latchfield, until recently employ-
ed by the C.P.R. at Medicine Hat,
was killed by a train in the C. P. R.
yards, Calgary. He deliberately walk-
ed in front of it with suicidal intent.

Charles H. Floyd, Manchester,
N.H., was nominated for governor by
the New Hampshire republican con-
vention on the ninth ballot. Winston
Churchill was the formidable oppo-
nent.

True bills were found at Halifax
against Senator Lovitt and S. A. Cro-
well, president and vice-president re-
spectively, of the Bank of Yarmouth,
who are charged with making false
returns to the government.

Herbert Parsons, president of the
New York county committee, won a
majority of the votes in the election
of the republican organization, while
Leader Charles F. Murphy, Tammany
Hall, retained his position at the
head of the organization by a narrow
margin.

RAID ON EUROPEANS.

Iron Works, Pillaged and For-
sakers Fugitive.

Tangier, Sept. 19.—Sheriff Taelainin,
with 250 men, yesterday entered
Casa Blanca, pillaged the Prince iron
works and pursued Europeans through
the streets, shooting several of them.
After terrorizing the town for two
hours Taelainin was induced by the
governor to leave, the governor hav-
ing been induced to do so by the
foreign consuls' indignant pro-
tests.

THE STRIKE TROUBLES.

Winnipeg, Man., Sept. 19.—A confer-
ence will be held to-day by the
committee of strikers and builders'
exchange. The civic committee will
await results of this meeting before
taking any action. The master
plumbers state they have their shops
running and they have nothing to ar-
bitrate. A serious aspect, from the
contractors' point of view is that sev-
eral bricklayers and carpenters are
leaving the city, which will make a
scarcity of labor when trouble is set-
tled.

NEW NAVAL CONSTRUCTORS.

Washington, D.C., Sept. 19.—Three
of the six vacancies in the corps of
naval constructors will be filled this
year. The junior line officers destined

and later will go to the navy yard at
Brooklyn for a practical application
of their training.

GOING VERY SLOW.

Havana, Sept. 19.—Notwithstanding
some appearance of activity, no de-
cisive progress was made yesterday,
in the peace negotiations. Insurgents
within the city are not willing to enter
on negotiations until all the con-
spiracy prisoners shall have been re-
leased.

A FRESH DISTURBANCE.

London, Sept. 19.—Lloyds agent, at
Port Said, says that it is reported that
one hundred men were wounded in
the mutiny, yesterday, on board the
Turkish troopship Aswad. No one was
killed. There was a fresh disturbance
on board to-day, but it was quelled.

A CRISIS IS AT HAND.

HE TOOK LIFE

Fortune Gone, Boy Plung-
er Suicided.

NEW YORK EVENT
HIS LIFE CRUSHED OUT
UNDER TROLLEY.

Charles H. Wilson Jumped in
Front of the Cars and Re-
ceived Injuries That Quickly
Proved Fatal—He Was a
Stock Speculator.

New York, Sept. 19.—Dejection caus-
ed by the loss of a fortune he had
made as a "boy plunger" in Wall
street, is given as the reason Charles
A. Wilson, twenty-two years old,
dived to his death under the wheels
of a trolley car near Fort Lee, Satur-
day afternoon. Henry Benoit, motorm-
an of the car which cut off Wilson's
legs, stated that the young man
made an unsuccessful attempt to have
the car kill him as it was going to
Englewood, and on its return trip
waited for it and jumped under the
wheels when it was impossible to stop
the car in time to save him.

Mr. Wilson, however, states that
her son accidentally fell under the car
through weakness due to an attack of
typhoid fever from which he was only
convalescent. Mrs. Wilson and her
husband recently separated, and her
son, not wishing to take any side in
the controversy between his parents,
went to live in West 141st street,
where he was ill he was taken to the
J. Hood Wright hospital and, when
recovering, went to No. 101 West
Fifty-first street, where he resided up
to the time of his tragic death.

Baruch Bros., No. 55 New street,
Wilson's employers, thought well of
him and kept his place open while he
was ill so that he might resume his
duties here on his recovery.

"If Charles killed himself, which I
do not believe," Mrs. Wilson said, "it
was because of worry over being a
boarder. He had been told that he
was doing anything for you. I believe he
was knocked down in trying to get on
the front platform of the car."

Wilson went to Central Park with
his sisters, Saturday afternoon, and
became separated from them when
he went to Fort Lee. After crossing on
the trolley, he boarded Benoit's car and
alighted when the car took a switch
at the top of the hill to let another
car pass it. As Benoit's car started,
Wilson was thrown from the car and
run down by it, but Benoit stopped
the car in time and roughly abused
Wilson for what he thought was stu-
pidity.

On the return trip of the car, Be-
noit states, Wilson, who had walked
half way down the hill to the ferry,
hid behind a telegraph pole, and when
the car came near enough ran out and
threw himself between the fender and
the front wheels. The car was stopped
before the rear wheels passed over the
young man, but he had already sus-
tained injuries which proved fatal an
hour later.

Wilson when only twenty years old
had a very successful series of stock
speculations, and acquired a small
fortune, then going into business as
broker and attracting much attention
because of his youth and acquisition
of wealth. His fortune did not last.

BOYS RUN AWAY.

Mimico, Ont., Sept. 19.—Eeping
has apparently become epidemic
among the lad of the Victoria In-
dustrial School here. Last week three
young gentlemen walked off, though
they were all very soon "walked"
back again. Yesterday two more
went off, it is believed, from the play-
ground, immediately after breakfast.
The escaped lads are Roy Rogers,
Hamilton, and Peter Baker, Gnan-
anque, both being between thirteen and
fourteen years of age. The superin-
tendent thinks both runaways will
soon be brought back.

THE NEW INSPECTOR GENERAL.

Washington, D.C., Sept. 19.—Col. E.
A. Garlington, who will be the next
inspector general of the United States
army, is a member of the general
staff, who attains his higher place on
the retirement, at his own request, on
account of ill-health, of Gen. G. H.
Burton, a New York man, for many
years on duty at Governor's Island.

Col. Garlington is the brother-in-law
of Gen. J. Franklin Bell, chief of
staff, and is well known in the mili-
tary service.

A PECULIAR ACCIDENT.

Hamilton, Ont., Sept. 19.—John
Frawley, a deck hand on the Meacasa,
met with a peculiar accident at the
bench. A boat was being tied up
at the pier, his foot caught in the
rope. Before he could release himself
the boat moved forward and his foot
was severed from his leg at the ankle.
He was brought to the city hospital,
where his leg was amputated at the
knee.

MEDAL FOR BRAVE FIREMAN.

St. Thomas, Ont., Sept. 19.—A fire-
man, George McGuire, of this city, of
the Wabash, will be awarded a medal
by the Humane Society for rescuing
the infant daughter of Farmer Ben-
wick, about three weeks ago, by
climbing on the pilot of his engine at
the risk of his life and picking her up,
while the train was running at the
rate of forty miles an hour.

Don't forget the big flower show.

A THOUSAND LIVES

Were Lost in the Typhoon at
Hong Kong.

Manila, Sept. 19.—Latest advices
from Hong Kong state one thousand
lives were lost in the typhoon and
that the damage to property, public
and private, will amount to millions
of dollars. Two vessels were sunk,
two, stranded and seven were damaged
and one-half of the native craft in
port were sunk. The shipping trade
has been partly saved through lack of
lighters.

BISHOP IS MISSING.

Hong Kong, Sept. 14.—The typhoon
which swept this port, yesterday, was
of a local nature. Over one thousand
sailings and junks are missing from
Hong Kong alone. Wharves were swept
away and collapsed. The military bar-
acks are in ruins. Several thousands
of Chinese water dwellers, must have
perished in the ruins. The losses in
lives and in property to the Chinese
were appalling. One launch that was
captured had 130 Chinese on board.
They were all drowned. The Bishop of
Victoria, Dr. Hoar, was on his way
to visit some neighboring islands,
when the storm broke and is reported
missing. His launch has been found
floating bottom up.

VERY POOR BINDING

Of Public School Books, Say
Principals.

Toronto, Sept. 19.—Some rather sug-
gestive evidence was brought out at
the sitting of the school book com-
mission, which opened its investiga-
tions in the parliament buildings this
morning. The members of the commis-
sion are: T. W. Crothers, St. Thom-
as, chairman; John A. Cooper, Toron-
to; George S. Lynch, Mr. Stanton,
K.C.; Hamilton; and James A. Mac-
donald, Toronto. These represent the
government while A. C. Caselman is
secretary.

Richard Southam, president of the
Mail Job Printing company, Toronto,
testified that the readers cost 1-3
per cent more than they should, and
the cost to the pupils \$46,000.
Ernest A. Coombs, principal of the
Newmarket high school, Albert O-
Dell, public school inspector for the
county of Northumberland, and Thom-
as Caselman, principal of the Galt
College Institute, all gave evidence
as to the durability of school books.
Their testimony generally was of an
unfavorable character; that the books
were badly bound, and came to pieces
readily; and that books which should
last for three years lasted some times
less than a year.

GENERAL ASSASSINATED

Another Foul Outrage in Warsaw
To-Day.

Warsaw, Russian Poland, Sept. 19.—
Gen. Nicolaief, of the artillery, was
assassinated here to-day. He was
walking on Wilka street when he was
surrounded by five revolutionists and
shot dead. The murderers escaped, and
Gen. Nicolaief, of the artillery, was
thought to be a member of the field
court martial.

HINDOOS AT HARVARD.

Cambridge, Mass., Sept. 19.—Ar-
rived in flowing robes and high white
turbans Amar Singh and Copal Singh,
his cousin, both pure blood Hindoos,
arrived at Harvard, to-day, and regis-
tered as students in the Harvard
graduate school. They are the first
full-blooded Hindoos that have ever
attended Harvard.

HARRY SMITH KILLED.

Detroit, Mich., Sept. 12.—Wheeler
man Harry Smith, aged twenty-four
years, Sombra, Ont., son of Banker
Smith of that place, was killed at
Ponchartraine, Mich., on Sunday, by fall-
ing through a hatch into the hold of
the steamer Mitchell. He joined the
steamer only last June.

BIG FIRE AT BUENOS AYRES.

London, Sept. 19.—A great fire is
raging along the docks at Buenos
Ayres, Argentine Republic, according
to private messages received. It is
reported that the entire shipping of
harbor is threatened with destruc-
tion.

TO PUSH IT FORWARD.

Quebec, Sept. 19.—The work on the
construction of the Quebec and Sagua-
way Electric railway, from St.
Joseph to Malbaie, a distance of
fifty-eight miles, will be commenced
shortly and pushed to completion with
all possible speed.

England imports nearly £18,000,000
worth of timber a year. A well-
known authority on forestry declares
that £18,000,000 worth of timber
might be produced in this country
if we went the right way about it.
