

THE WHIG—73rd YEAR

DAILY BRITISH WHIG, published every week at 200-110 King street, Kingston, Ontario, at \$5 per year. Subscriptions in advance. Single copies 10c.

Daily Whig.

Ontario Should Advertise.

There is among the people of Great Britain too great a disposition to regard the province of Ontario as merely a stepping stone to the west. It is the duty of the Ontario government, while possessing within our borders the greatest attractions for people of moderate means in the united kingdom, to present these attractions to the people who would be willing to accept them.

The Standing Of Mr. Ross.

While the independent News, of Toronto, and the World have been hunting for a liberal leader, for the party in Ontario, the London Free Press has a kindly word to say of the man who holds the position now. "All the talk," says our contemporary, "of changing the political pot sawyer serves but to emphasize the pre-eminence of G. W. Ross. There is no other liberal in sight to touch him or hold a candle to him as a claimant to the party confidence."

Women And The Franchise.

The Montreal Herald has it that "there is a tremendous difference between a voluntary organization such as the Methodist church, and the universal organization of the state." This is in reply to the Whig's observation that the papers which bewail the rejection of the women, as applicants for conference membership, should become the champions of female suffrage.

Avoid La-Grippe.

The effects of La Grippe persist long after the disease has run its course. It is an ailment that should always be fought from the start. It can be stopped in the start—or cured when once started—by use of Wade's Cold Cure Tablets (Laxative). A certain cure also for colds, headache and constipation. In boxes 25 cents. Sold only at Wade's Drug Store. Money back if not satisfactory.

In the third week in a week on the Panama railroad, one life was lost and three persons seriously injured. Women with pale, colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

Vaudeville As An Attraction.

The Central fair at Ottawa failed to produce the looked-for financial results, and the Free Press accounts for this by referring to the absence of the usual "midway" shows. This has set some of our contemporaries moralizing, and two of them have reached the conclusion that the day of big fairs, in an agricultural sense, has passed. Formerly the farmer went to the fall shows for pointers. If he had good stock or grains or roots he competed for prizes. His experience and success had an incentive for others less fortunate or progressive. If he failed to win a prize he had the consciousness of knowing that he laboured in a good cause.

All this is now said to be changed. The big stock farm man and the specialist carry off the prizes, or most of them, and the average farmer is a mere spectator and out for a "time." He is still an observer, still eager for information, but he is also in quest of entertainment, and he will have it somehow. The picture is generally correct, and it is strengthened by the exploits of the managers at Toronto and Ottawa, whose hunt for attractions is not among the productions of the farm, the forest or the dairy. The Industrial or Central are no longer boomed for the excellence they can show in the combined work of man and nature, but for the things that are imported from Europe and bear the stamp of royalty.

Editorial Notes.

The Toronto Tories have undertaken the issue of a new morning newspaper. What is the matter with the Mail? Is it not partizan enough? The insurance commission is making some society men and members of parliament look worried, as the facts come out with regard to their land speculations.

Whitney's Chance.

Exchange. Sir Wilfrid Laurier has invited the premiers of the provinces to attend a conference at Ottawa in October. This will give Whitney his chance to entertain and instruct the leaders throughout Canada with the story of his travels in England.

As A Worthy Trio.

The names of Oranvotokha, Hon. George E. Foster and Hon. Dr. Montague may yet be inscribed in golden letters in some future western temple of fame as the names of the great trio of Forrester who united to build up the Canadian west by speculating in western land.

Girl Called "Countess" Baldwin Takes Laudanum.

Buffalo, N.Y., Sept. 25.—Two cases of what the police term attempts to put an end to life by swallowing poison, were reported at the New York Central station. Both took the poison at the Central station, and at the hospital gave their names as Bessie Boland and "Countess" Baldwin.

Woman In Poisoner's GRIP.

Buffalo, N.Y., Sept. 25.—Two cases of what the police term attempts to put an end to life by swallowing poison, were reported at the New York Central station. Both took the poison at the Central station, and at the hospital gave their names as Bessie Boland and "Countess" Baldwin.

NEWS OF THE WORLD

OCCURRENCES RECOUNTED IN BRIEF FORM.

Matters That Interest Everybody.

Notes From All Over—Little of Everything Easily Read and Remembered. More hand-book news were filed by Judge Winchester in the criminal sessions. The Palace Iron Works, limited, are planning new buildings at a cost of \$100,000.

TO CROSS THE WATER.

She is a Giantess and Quite Intelligent. New York, Sept. 25.—There is good prospect that Erna Marie Fassnauer, the famous Tyrolean giantess, will soon pay a visit to the United States. She is twenty-seven years old, and was born from normal parents in Tyrol. She is seven feet four and one-half inches tall and weighs 326 pounds.

BUG POWDER

Falls on Bread and Poisons Twenty. Pittsburg, Pa., Sept. 25.—Six entire families of Allegheny whose members number over a score, have been poisoned through the product of a bakery. The poisoning was caused by eating a slice of bread on Saturday of last week, according to a physician who has been treating the cases, and while the afflicted have not recovered all but two were, last night, reported out of danger.

WORKED ON SUNDAY.

Goods Spoiling For a Want of Cans. Essex, Ont., Sept. 25.—For some time past the Essex Canning company has been waiting the filling of a large order for cans by an eastern factory. Meantime stock on hand was spoiling and the company was suffering a large financial loss.
