All The Heat You Want without any Smoke, Dust or Gas.

Most furnaces are put together like two joints of stove-pipe. That is, the steel and cast-iron are bolted together, and cement rubbed into the cracks.

In a month after starting the fire, the difference in expansion and contraction of iron and steel loosens the bolts—cement drops out—and gas and smoke come into the house.

It is a case of plugging up the cracks with cement—or living in a dusty, smoky house.

A man who takes my advice and buys a "Hecla" Furnace, saves himself all that trouble and annoyance.

In the "Hecla", joints between steel and cast-iron are FUSED and are absolutely and permanently tight. That means that HECLA generates fresh, clean hot air—untainted by gas or smoke.

Let me send you the Hecla catalogue, which tells all about these ideal heaters. Give me the dimensions of your house, and I will tell you the cost of installing a "HECLA". Both services are free. Address "Clare's Furnace Builder", care of

IS NOT YET FOUND

DR. SAVIGNAC IS STILL AT LARGE.

He Shot His Wife and Mother-in-Law—Feared He Has Done Away With Himself—Was An Adventurer.

Ottawa, Sept. 25.—No trace has yet been found of Dr. Joseph Savignac, who shot his wife and mother-in-law at Belleville, last night. He has not been seen since the shooting, despite the fact that the city and county marshals have searched the country. It is feared that he may have done away with himself, as he had a loaded revolver in his possession when last seen. He dashed towards the woods surrounding Notre Dame and Beechwood cemeteries, and may have jumped a freight on the Montreal and Ottawa short line.

Both Mrs. Savignac and Mrs. Mitchell passed a good night, and it is now thought that both will recover. A sensational feature has developed in the unusual case. Savignac, the fugitive who seems to have been an adventurer, was ordained to the Presbyterian ministry, some years ago, at Montello, Wis. The Rev. Harry and Armstrong, Ottawa, officiated at the ordination ceremony, but did not know that Savignac was still in the district. They believed that he had remained in Florida, where he went a short time after joining the ministry.

A GREAT WHEAT YIELD.

Man's Farm Averages Over 30 Bushels.

Winnipeg, Sept. 25.—The finest yield of wheat in the province is that which Peter McKinnon has near Pipestone. He threshed 10,000 bushels, which averaged over thirty bushels to the acre. One piece, 165 acres, went thirty-eight bushels. McKinnon has yet to thresh about ten thousand bushels which will yield thirty bushels to the acre. The wheat is all No. 1, hard.

New Furnaces Going In.

Yarker, Sept. 25.—The wheel factory is having a new set of patterned smoke stacks, which greatly adds to the appearance of it. We have to record the birth of a son at John Woodhouse's. Henry Gordon had the misfortune to break his collar bone. Clarence Wagant left for Montreal having finished his vacation. Mrs. G. Joyce has gone to California. U.S. Lizzy Frisby, Strathcona, spent a few days with Mrs. S. Winter, Mrs. (Prof.) Bell and Ada Walford, of Washington, D.C., at the home of Mrs. E. G. Guess. William Hope who taught school here fifteen years ago, and left for California, gave notice of his resignation. Mrs. Bevin and Alfred Connolly are on the sick list. Miss Adeline Wildo, H. Shultz, E. Green and wife, and Mrs. Kelly, Wainwright, are the guests of Mrs. Stanley Shultz. E. W. Benjamin is having a new furnace in his residence. The Methodist church here will also have a new furnace. Miss Violet Evans has opened out here in the millinery.

William Waits.

Winnipeg, Sept. 25.—The farmers have commenced their fall work, and are cutting and potato digging are in the order of the day. Work is progressing rapidly in the mica mines; on A. Orser's a new mica house has been built. Our Suburban school closes for the winter. A number of young people of this vicinity spent a very enjoyable and profitable time at W. Knowlton's cooking class. Thursday, Visitors: W. Orser at W. Orser's; Miss Etta Simpkins, Merrickville; J. K. Freeman, W. Sears, G. Knowlton and W. McFadden at J. Freeman's; J. Lee at W. Cary's; Mrs. J. K. Freeman and Miss M. Freeman have returned from visiting friends at Merrickville. R. G. Stinson and A. McFadden returned from Waterloo, N.Y. Mrs. Aykroyd and Mrs. Stinson are visiting at Maple Leaf. H. Aykroyd is visiting at Portsmouth.

A True Bill Rendered.

Ottawa, Sept. 25.—At the fall assizes here, to-day, presided over by Justice Anglin, a true bill was returned against Napoleon Boyer, charged with manslaughter in connection with the death of Thomas Onellette, who died at the Water Street Hospital of a fractured skull ten days after he had been struck and knocked senseless by Boyer, the assize judge.

A New Application Needed.

Ottawa, Sept. 25.—Judge Rochon, at Hall court, decided that the estate of the late J. E. Ledy Case company can be made to produce the last audit of the company, but not under the motion before the court, this morning, and a new application must be made.

Hastings Carries Loan By-Law.

Hastings, Ont., Sept. 25.—The by-law to give the Peterboro Boiler and Radiator company a bonus of \$6,000 and exemption from taxation for ten years was carried, the vote being 119 for and 1 against.

Suddenly Called.

Peterboro, Sept. 25.—Robert N. Bagshaw, one of the oldest and most respected merchants of Keene, died suddenly yesterday. He expired from heart failure after fifteen minutes' illness. Deceased was sixty-six years of age and unmarried.

Has Obstinate Cataract.

Vienna, Sept. 25.—Emperor Francis Joseph has returned from Ischl. His complete recovery is a matter of improvement of his health and his physicians advise a sojourn in the Riviera, but the emperor refuses to leave the country. He is suffering from obstinate cataract, but no surgical complications are feared.

Second Thoughts Are Worst.

A recent German paper gives an anecdote of a man who strayed into a "charity bazaar," and had a trying experience.

He made several quite unsatisfactory purchases, not knowing how to refuse the demands of the pretty saleswomen, and at last, to prove that he could make one sensible investment, he bought a small match-box, and carried it off in triumph and in haste.

Examining it after he had left the booth he discovered that there was no place in which to light the matches.

So, with the air of one determined not to be cheated, he marched back to the young lady of whom he had bought the match-box.

"There is a mistake here," he said. "You sold me this pocket match-box, and there is no place on it to scratch the matches."

"My dear sir," said the young lady, "you are quite right; I made a mistake. That is intended for a jewel-box, and costs fifty cents more, if you please."

"And what do you do?" asked a friend, to whom he related his tale of woe.

"If you've ever been to a fair," replied the other, in an aggrieved tone, "you know very well what I did. I paid the 50c, of course!"

Dancing Birds.

The finest of bird dancers are the South American cock birds. All these birds have regular dancing places, level spots which they keep clear of ticks and stones. A dozen or more assemble around this spot, and then a cock bird, his scarlet crest erect, steps into the centre. Spreading his wings and tail, he dances, at first with slow and stately steps, then gradually more and more rapidly until he is spinning like a mad thing. At last, tired out, he sinks down, hops out of the ring and another takes his place.

Some of the quail tribe are great dancers, and so are the American sand hill cranes. It is a ludicrous sight to watch a crane dancing; he so desperately solemn over the performance. He looks like a shy young man who has just learned to waltz and is rather ashamed of the accomplishment.

Hal Walters Jumps.

Ottawa, Sept. 25.—That Rough Riders are making a big effort to rouse up a lot of the best men available and put a winning team on the gridiron this fall became even more apparent than formerly, this afternoon, when Hal Walters, the old Ottawa City man, stepped out to the field at Lansdowne Park garbed in red, white and black. Walters thus jumps the St. Patrick's Club with which he played last fall and will be seen on Rough Riders' wing line.

There is a queer connection between herrings and marriages in Scotland. It is always after a good fishing season, and when the fisher lads have plenty of money, that the lassies make their best catches.

NEGROES KILLED

IN A FIGHT WITH OFFICERS AT BROWNVILLE.

257 Arrested, All Heavily Armed—500 Negro Students Surrounding By Troops—Members of College Faculty Arrested.

Atlanta, Ga., Sept. 25.—Two negroes were killed today in a fight with officers. One negro was killed in Brownville, by militia, to-day, while trying to break the lines. Two hundred and fifty-seven negroes have already been placed under arrest in Brownville. The majority of them were heavily armed.

One of the first arrested was L. J. Price, a negro postman, who is charged with supplying ammunition to the blacks.

Deciding that the negro students, five hundred in number, who live in the campus of Clark University, excited the attacks on officers in South Atlanta, last night, the military authorities have sent troops to the scene. They expect to capture and search all the students and punish the guilty ones. All of the students of Gammon negro seminary, four hundred in number, and President Bowen, of the faculty, have been placed under arrest in Brownville on account of trouble there this morning.

Several from this place attended the fair, the day was fine and the exhibition. All seemed to enjoy themselves. Mrs. Robert Shuter has been quite ill. The Viva Cooper was seriously ill for a few days. The railroad company is improving its property about the station, building new tracks and switches, laying concrete walks, and other things improving things. J. Granger, superintendent of St. Jud's Sunday school, gave the pupils their annual outing by holding a picnic in McAvoy's Grove. Mr. Granger and Assistant hired a large land-wagon to drive the children, also the parents, with the refreshments, to the grounds. After dinner games were indulged in racing, jumping and swimming and a tug-of-war. The rector, Mr. Dowdell, was present, and did all he could to amuse and entertain the little folk. All enjoyed themselves very much. Last week W. A. Dean, Newark, N.J., arrived here, after an absence of eighteen years. His father was over-seer of the paper mill here, at the age of 109. It is interesting to note that the old man was born during William Pitt's first administration, and in the same year as the battle of St. Vincent was fought, that he lived in three centuries, and during the reigns of five English sovereigns, and had memories of both Trafalgar (1805) and Waterloo (1815). James McNally was born in Ireland on February 15th, 1797. He was by trade a sea-farer, and assisted in that capacity in the building of Colney Hatch lunatic asylum, in 1851. At the age of sixty he emigrated to America, where he lived from 1857 to 1873, when he returned to England; and at the age of ninety-five became an inmate of the Home-Orthodox Home of the "Little Sisters of the Poor," in Meadow-road—on February 15th, 1897—the 100th anniversary of his birth was celebrated by a fête, in which the entire establishment participated. The present Archbishop of Westminster assisted. It was then conclusively proved that the old man was actually the age that he represented himself to be. McNally was fond of his pipe, and always enjoyed a chat with his many visitors.
