FOR GAS HOLDER FOUNDA-TION EXCAVATION.

Alexander Tait Got the Contract For \$4,545-This Amount is \$455. Less Than J. M. Campbell's Estimate.

The civic light committee hat special meeting, yesterday afternoon to open tenders for excavating -anthe new gas-holder foundation. -In attendance were Alds. Toye (chairman), Elliott, Gaskin and Kent. When the matter was first before the committee, last month, J. M. Campbell estimated that the foundation work could be done for \$5,000. It was decided to call for tenders

and the result was that the lowes contract price was \$6,050. Then the committee decided to do the work by day labor, and reject the tenders. Re cently, it was given out that a coup of contractors would undertake work within the \$5,000 estimate Mr. Campbell, and the committee has a conference and decided to call fo new tenders. These latter were ceived at yesterday's meeting, and th owest was \$455 less than Mr. Camp

RAND TRUNK RALLWAY New. York Central & Hudson Three tenders were received. W. H. Mitchell's was not given in a bulk but was far above the other two, R. Wallace's figure was \$4,650, and Alexander Tait's \$4,545. The latter, being the lowest, was accepted. A marked cheque for \$500 was required with each tender. Instead of this amount being retained, the successful tenderer is allowed to give satisfactory bonds to the extent of \$1,000. Mr. Tait is the city's stone contract tor, and can handle the rock excava-
