

# THE SUNLIGHT WAY

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Hard rubbing and boiling are things of the past in homes where Sunlight Soap is used as directed.

Sunlight Soap will not injure even the daintiest fabric or the hands, and the clothes will be perfectly white, woollens soft and fluffy.

The reason for this is because Sunlight Soap is absolutely pure, contains no injurious chemicals—indeed, nothing but the active, cleansing, dirt-removing properties of soap that is nothing but soap.

## Is Baby Plump, Rosy and "Good"?

That is the normal condition of a healthy baby. If your baby is thin, pale and peevish there is something radically wrong, and ten to one the trouble is with its food. Either the food is lacking in nourishing qualities, or, being unassimilated, is not assimilated, and, as a consequence, baby is miserable and fails to thrive.

What is absolutely necessary in such a case is a concentrated and nourishing food, and, at the same time, easily digested.

## FERROL

Phosphorized Oil and Iron—the original and only combination of Oil with Iron and Phosphorus. Babies like FERROL. It always agrees with them, and never fails to give the most gratifying results.

FERROL is absolutely the only Infant Food which develops every part of the system: Phosphorized Oil, the most valuable food known, to build up the tissue and muscle; Iron to enrich the blood; and Phosphorus, for the development of bone, nerve and brain.

## SOFT AND PLEASANT NOT THE ITCHING KIND

Some underwear always seems to rub you the wrong way—a nasty, prickly, disagreeable feeling. You know that kind makes you squirm.

## Geetee UNSHRINKABLE UNDERWEAR

Geetee underwear is made from the best and finest qualities of Australian Wool—much finer than the Canadian wool—retains all the original qualities of the wool and is soft and elastic.

It is as soft and fits as well at the end of the season as at the beginning.

ELECTRIC TRAIN AND A TURBINE-DRIVEN STEAMSHIP.

Trains Will Go Uniformly Sixty Miles An Hour by Electricity—Photos of Two Self-Made Men.

Portrait of William H. Taft, Secretary of War.

Special Correspondence, Letter No. 1,552. New York, Oct. 12.—Never in the history of our state, or I might say the United States, has there been such a singular and puzzling compilation in our politics, as that which exists at the present moment.

My dear desk are the photos of two men whose life began at the lower rung of poverty's ladder who achieved great wealth, and then died, leaving it all behind them; one man had two daughters, each of whom inherited from their father's estate a fortune of nearly twenty millions of dollars.

On my desk are the photos of two men whose life began at the lower rung of poverty's ladder who achieved great wealth, and then died, leaving it all behind them.

## NEED A LAW.

What the City of New York is Giving Away.

Unless the legislature soon intervenes with a law absolutely forbidding the practice of granting unlimited franchises for the use of public utilities to private corporations, New York State will wake up at an early date, and it is expected that the fact that it had granted away practically for nothing, to railroad companies and electric light concerns, not only the power of Niagara Falls, but nearly the available power of all the rivers and streams in the state.

The extent to which this scheme of enriching a comparatively few individuals at the expense of the state has already gone is hardly realized.

The three electric operating companies have already secured the equivalent of 415,000 horse-power, and another power company located in the upper Hudson valley has secured exclusive water rights under unlimited franchises, covering less than seventeen counties in the eastern and central portions of the state.

The company is already supplying power in ten of these counties to railroads and other business enterprises. Plans for the electrification of several of the great trunk railroads of the state are under way, and it is expected that the power that is demanded for all the power that can be generated at a good market rate, is proposed to build storage and reservoirs at the state's expense in the Adirondacks to help the power companies out in the dry season.

An Exciting Dash. Not long ago there was a great religious excitement among negroes in the neighborhood of Smithland, Numbers were baptized nearly every day.

The Deacon's Hard Luck. Elder Matthews was popular among the sick of his congregation. He had an unwavering belief in the medicinal value of his pocket, whenever he called to see some sick parishioner who had passed well into the middle stages of life.

Most Highly Paid Judicial Official. The provision in the bill introduced by Mr. Bryce in the house of commons to reduce the salary of the Lord Chancellor of Ireland from £8,000 to £4,000 a year may render it of interest to know that the Lord Chancellor of Ireland is the most highly paid holder of a judicial office in the United Kingdom.

Don't Gorge On Pickles. Medical men frequently warn persons suffering from obesity to be careful in adopting remedies, ouster or otherwise. They tell us that it is infinitely worse to be excessively thin than outrageously fat.

Martyrdom Described. Kingston, Man. Tells How He Suffered and How He Was Released.

For years a martyr, is how Charles H. Powell, of 105 Regan street, Kingston, begins his story. "A martyr to chronic constipation, but now I am free from it and all through the use of Dr. Leonard's Anti-Pill."

Dr. Leonard's Anti-Pill. Many who are now suffering from this complaint will be glad to learn from Mr. Powell's story that there is hope for the most stubborn case.
