THE CANOE UPSETS

SIX DROWN—ONE OF THEM FROM TORONTO.

Girl Brings News of a Tragedy Which Took Place on the Black River.

Bryson, Que., Nov. 2.—Miss Pearl Bertrand, a girl of seventeen, who, after an arduous journey of fifty miles on horseback, arrived here to give evidence in the protracted incendiary case at the assize, relates of having been an eye-witness to the drowning of six people in the Black River, near Hope's Farm, on J. K. Booth's limit, about fifty miles above Des Juchins, some days ago.

A canoe containing Norton Brown, of Toronto, an Inman, two squaws, and two Indian children, was crossing the Black River above a dangerous chute, when a paddle of the Indian broke, and in the swift current, the canoe, with all its occupants, was carried over the chute and all drowned.

The Indians residing in the neighborhood instituted a search for the bodies, not ceasing day or night, until they were recovered. The body of Brown was found the day after the accident, and the other bodies two or three days later.

The Madness Of Hamlet. Exchange. Richard Mansfield, at a dinner party in New York, contributed an anecdote to the old question of the sanity of Hamlet.

"I went," my young friend replied, "to see So-and-so's Hamlet."

"Ah, ha, did you," said I. "Now, tell me—do you think Hamlet was mad?"

"I certainly do," said he. "There wasn't a hundred dollars in the house."

STOMACH TROUBLES

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.

When the food is imperfectly digested the full benefit is not derived from it by the body, and the stomach troubles start to appear.

When you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost, and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Linnie Furlotte, Jacques River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood-Bitters had made with her and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Some of the Prettiest Effects in the Stylish Light Checked or Plaid Tweeds Just Received Yesterday

YOU probably have made up your mind about a new coat this season. Perhaps you've decided to get through without one—under the impression that it would cost about fifteen dollars or so to get a "good" one. "MILL-SECONDS." Do you know what they are? Let us tell you, very briefly. In all the big mills now-a-days, there is a staff of expert "examiners" whose duty it is to mark the "class" or quality of the output. Any with the slightest flaw—and you can't appreciate how very slight until you see to-morrow's specials—are placed aside, marked "seconds." They must not get out, as examples of what the firm can make. We just received nearly 900 "seconds" of men's fleece-lined underwear. Some, we simply can't see anything wrong about, others have merely a dirty mark—none are in the least way hurt as regards wearing quality. The regular price would have been 50c. or more. All day to-morrow after 9 o'clock, you can have your choice of all the assorted sizes per garment only
