Abbey's Effervescent Salt... At Druggists. 25c. and 60c. a bottle. Doctor's said Female Trouble. Mrs. Charles Lewis, Collingwood, Ont., writes: "For eight years I suffered from Kidney Complaint, and until twelve months ago doctor's said I was suffering from Female Trouble." Last November (1905), I was seriously ill, resulting I believe from kidney trouble. Finding doctor's medicine doing me no good, I purchased my husband to purchase a box of Doan's Kidney Pills, after having read of a case somewhat resembling mine. I commenced taking them according to directions (not taking the doctor's medicine), and on second day a swelling commenced in my feet, legs and body. The following day I was so changed and swollen my husband, in alarm, hastened to Mr. Johnson's drug store, who told him to tell me to stop the pills were drawing something out of the blood, and to keep on taking them. I did so and after taking them a week, the swelling disappeared, I felt well with a complexion free from pimples, tired, weary feeling gone, constipation from light heartiness, I have not felt since a child, took place in me.

Daily Whig. Liberals Under Discipline. Mr. Ames, who represents one of the divisions in Montreal, has undertaken to reduce St. Ann's division, which is open. He is a man of leisure. When he ran in St. Antoine division he inaugurated the card case, the literary bureau, the canvassing and checking departments, with an army of runners and drummers and callers and the telephones on election day, that only a man of wealth could assume to hire.

Editorial Note. Windsor wants a municipal. Have the examples of New York and London counted for nothing? The law should come down heavily on any man who speculates with trust funds. He should be made an example of every time.

Need Of A Rebuke. In 1904 the Ontario government (Liberal) projected the Ontario School of Pedagogy, and when the house was asked to vote upon the grant for its establishment, Mr. Whitney opposed it. He was not the friend of Hamilton then, and he is not the friend of Hamilton now though he has conferred upon it the doubtful honor of giving Mr. Hendrie, one of its members, a place in his cabinet without portfolio.

Spirit of the Press. He Certainly Did Not. Buffalo Times. Count Boni de Castellane now realizes that he didn't know a good thing when he had it.

Harassing The Great Falls. This is an age of electrical development, and from the harnessing of the water falls which have for years been allowed to boom out their wondrous force without attracting much attention. For decades after decades the mighty Niagara was simply a world's attraction, and the people contemplated the tremendous surge and sweep of water without realizing what it really meant.
