WOMAN CHARGES HER FATH- Hamilton Times. ER-IN-LAW.

Magistrate Has Rather Unusual Case Before Him This Morning -John Sid Arrested Charge of Theft.

A rather unusual case came before lagistrate Farrell at the police court this morning, when a woman residing in Wade's Lane, accused her father-inlaw, who lives next door to her, of denied the charge. He is over sixty years of age. The magistrate adgentleman followed her about the city on Friday afternoon, and afterwards

father-in-law some time ago, there was nearly murder in the house. At that time I had to make a complaint

The evidence of the plaintiff was cor- of nebulae, star clouds, etc. shortly. roborated by her husband. The latter said that his father persisted in in-"I cannot express the terrible suffering I terf ring with his affairs and that had to endure. A derangement of the female something would have to be done

The accused is very deaf, and the evidence taken had to be given to The magistrate adjourned the case

of theft, The charges against him was hat he did steal watches and other ewelry from George Hassan. He enered a plea of "not ouilty," and the ase was adjourned. He was arrested by Constable Alexander Allen, of Marlbank, and brought here yester-

George I loyd, the florist, accused of ill-treating his wife, and whose case was adjourned by the magistrate, again came before the court. "All right for my part," said Lloyd when asked by the magistrate how he and his wife were getting along to-

"I will dismiss the charge then," said his worship, "and I hope you Andrew Byron registered as-

Prof. Dupuis Refore Astronomical

An audience that filled the museum of the Hamilton Association, in the library building, attended the lecture given, last evening, by Prof. Dupuis, of Queen's University, Kingston, under the auspices of the astronomical secon tion. Dr. Marsh introduced Prof. Dupuis as a keen observer, an eminent mathematician and a celebrated mechanic-a fine man, in whom great qualities were combined. Prof. Dupuis gave one of the best addresses which it has been the priv-

ilege of a Hamilton audience to hear in a long time, and the illustrations, shown by James Gadsby, were of a very high order. The lecture was learned, but plain and free from technicalities, and was greatly enjoyed, His subject was "The Stars." He exfour he had prepared, and he gave a brief outline of the two leading up to called at her home, and endeavored to it. He first took up the telescope, the spectroscope and the photographic new parsonage hearty indicates a neat tidy structure of cement block construction and provided with all her.
