Talk On The Tariff.

The finance minister, speaking at the complimentary banquet which was tendered to him in Montreal, intimated that there would not be much serious change in the tariff. Perhaps this word of counsel, though non-commital, is timely. The tendency towards panic

or alarm is very evident. On two sides there has been intense activity. The manufacturers have been conducting a vigorous campaign behalf of a higher tariff. "More pro tection" has been the slogan, and it has been heard more in the than in the west. The farmers have felt that they have been practically

refused to allow this.

It is not the food you swallow, which does you good. It is the food you digest. When the digestive apparatus becomes deranged, only part of your food is digested, the rest simply decomposes. This causes gas which inflates the stomach, causing belching, pain and sometimes (by pressing upon the heart) palpitation. The foul gas so generated fills the blood with poisons, and is carried to the brain. Headache, nausea, dizziness, and sometimes blurred vision results, Now Bileans correct all these evils

They stimulate the gastric flow, and the stomach is thus enabled to digest all the food taken. They gently open the bowels, so that accumulated impurities are excelled. They purify the blood, clearing it of poisons, etc H. S. Sharkey, Petrolea, (Ont.) says! "I suffered severely from sick headache and dizziness, and had

## THE HARDEST GALE.

Waves Rolled Mountains

Mariners says that, last night, and this morning's hurricane is the hardest gale for some years. In the harbor the scene was one of grandeur, the uge white capped waves rolling from nice to fifteen feet high. Across the harbor at Point Frederick, nothing can be seen but spray. Navigation to-day is at a standstill, no vessels venturing in the blow. There have been no reports of any vessels being wrecked as yet, but in a blow like to-day's, it will go hard with any vessels caught crossing the lakes.

A Tug Damaged.

The Montreal Transportation company's fine tug Emerson, left Kingston, Wednesday afternoon, with four grain laden barges for Montreal. In the vicinity of Clayton, N.Y., anchors were dropped as it was very dark. Soon the wind began to blow a hurricane, and the tur was dragged on the shoal at the head of Round By naming his ten children after as Island. The Emerson left her barges was very dark. The derkness was gives anchoring, as it was unsafe to proceed down through the islands. The crew consider that the lightly, under the circumstances, the only wonder being that the barges were not damaged.
