In Favor of Domestic Science and Manual Training. The management committee of the board of education will again, at th special board meeting, to-night, present a report which suggests that "for the proper equipment and organizaion of the schools a household science department and a manual training department be established at as early a date as possible, the former to include the needlework and the latter the art work now being done in the public schools." This will wipe for so late. out the present work, as constituted, of Miss Shaw, but the committee supgests her appointment as manual training instructor if she can qualify, and it is thought the board will postpone the opening of this department until she has opportunity to arrange she said she could do the work.

with the education department for ried upstairs to curl her hair. certificates. In a letter to the board The household science department is to be for the girls of the senior IV classes of the public schools and of the first form of the collegiate. In the public school grade named there are eighty-nine girls, and in the first form of the collegiate, sixty-one; total, 150. eight to ten hours for the supervision of needlework in the public schools. The course to be for two years one in the public schools and one in the collegiate. The curriculum to be accordance with the requirements of the department. The accommodation required is two rooms. The estimated expenses for the first year, after de

ducting the government grant, are The manual training instruction o be for boys of the junior and senior IV grades of the public schools which number 188. Ten classes to be formed, each class to be given one esson of one and one-half hours per week. The course to be for two years. The curriculum to be in accordance with the requirements of the departnent. The teacher to give manual and art in the public schools in the just to teach you a lesson." afternoon. The accommodation required is one room.

Regarding the estimated expense of this department, outside of accommodation, it cannot be reliably given as here is a difference of opinion as to what the salary should be. The cost of the equipment would be \$500, and of supplies \$200, making \$700, excluive of salary. The grants would be: Fixed annual, \$350; twenty per cent. f the equipment each year until its ost is covered; \$100, making \$450 exlusive of what would be received on salary, viz., twenty per cent. of all ver 8600. The salary of the present manual training teacher would be aved, so that to establish this new epartment the cost to the board for the first year would probably not be over \$200 or \$300. The management committee in consultation with the property commit-

tee, learned that accommodation can be provided for the household science collegiate building for \$250, and for the manual training department in bailding for 850.

The Paragraph Pulpit

Unitarian. REV . C. W CASSON, OTTAWA

Unitarian Belief In God. It is urged against Unitarians that they do not believe in God, It is not an argument; it is a foolish error. As a Methodist minister I believed i God, but as a Unitarian minister to day I find that the only change my faith is that it has grown more ample and more sure. The conception has changed, but the conviction grows more clear with each new day of Unitarian progress. This statement is not mere speculation, but is the voicing of actual experience. If you have been

taught to believe that Unitarianism is

simply unbelief, you may correct the
