se held up for half a year rather than

BY THE RETIREMENT FOUR MEMBERS

From the Board of Education Meeting - Household Science For Consideration.

There was a special meeting of an), Anglin, Elliott, Hender-

and organization of the public schools, a household science department and a Mr. Thompson asked for the chair-

man's ruling as to the report of the ammittee being in order. He held hat as it involved the expenditure of ioney, and as none was provided for

The Chairman's Ruling. as it involved money expenditure. and as next, year's board was

Mr. Elliott didn't agree with chairman. Very often a board of one the following year, All that the comnittee's report involved was a preparation for imaggirating the two denext year's board did not provide for the departments, then they could not be established.

Mr. Meek submitted that as the d partments could not be established Table should go over to next year's mangement committee. It would be a crious thing to involve next year's board and next year's city council is We will hold your purchases until money. He opposed the passage the report. All the board asked committee to report upon was household science, whereas it had brought

nt of two departments. hat the two departments should be he city should not be deprived of them any longer. It would be unfair, . Maccillivray said, to introduce schold science for the girls and not provide manual training for the boys. latepayers would protest were only the one department to be inaugurated.

Unfairly Criticized Mr. Elliott said it was the duty ore the board the broadest and most est of the people. The expense of establishing the two departments would not burden the city. The board had been pushing and prodding the com-mittee for the past year to bring in aformation and recommendation

Mr. Renton stated that the idea the committee was that the departments would not be inaugurated till after the summer. The recommendaions were being made now so that Sateen Quilts, filled with & Miss Shaw would have time to qualify for the position to which she

Frilled Sateen Quilts, There was too much study in the schools. The children had enough to do in learning reading, writing and arithmetic. He did not think was any need for household science and manual training in the schools.

Prof. Martin regretted that the report was out of order. The report was a good one, giving much infor-mation to the board. The educational system would not be complete with-out the establishment of both depart-ments, and he held the management committee had done right in recom-mending their establishment. The information given by the committee would be of great value to next year's

Mr. Lambert said that the board aicalit- and not consider the report It took a board some time before it formulated a scheme, and because a committee brought in a report at the end of a year, after long consideration, the board should not refuse to an all-around increase in their busi-

It Will pay you to buy now, board was more competent to deal even if you don't want to occupy with the questions than a new board. The members had been pondering over the matter and were quite NO. 136—Double Frame 7-rooms, conversant with the requirements. Only a few weeks ago the board accepted the card system of registering pupils to be introduced in January, and each, rent \$138 per year, an expense of \$50 would be required to be met next year. This was a pre-No. 530 Single Frame, 6-rooms, cedent for anticipatory legislation. It

Saving

We are learning, year after year, that as a rule financial independence cannot be secured by most men except by saving.

It is the man who plans his expenditures and systematically saves a portion of his income that accumulates a competency for old age. Start a savings account with this Bank,

Interest allowed at highest

be passed before a new management committee could report on the needs.

Anyway the burden would be very small. By the scheme introduced the chief cost would be the fitting of two and Manual Training Were Up rooms. This was estimated at \$300. The cost of equipping the rooms for the work of the departments would

be 8800-\$300 for household the government in five annual ments. The salaries of the teachers, under the scheme, after deducting the not got over the humiliation that special government grants, would on. Queen's caused the Hogtown univerly involve an increase of about \$200 sity team on its own grounds and has been squealing all week. It wants great step in advance and would put when they are a defeated aggregadate towns and cities in the province. Chairman Kelly said that the finan-cial side appealed strongly to him, trophies. Toronto has been humbled. year's board to involve the board of championship there is Toronto precetwo departments. The chairman said

for the new departments for it would

Appeal From Ruling. Mr. Elliott said he would have as he couldn't agree with it. . The

Mr. Meek claimed that a vote on the former speaker. He, himself, was not afraid to account for the stand he took on the question, and would sup-Prof. Marshall held that the chair man had not considered the right clause in the constitution in giving his decision. He opposed the ruling. A vote was taken, and Chairman Kelly's ruling was not sustained, the vote in favor of receiving the report

At this juncture, Prof. Martin, Mr. left the board without a quorum, and | Kingston should be satisfied with havaccordingly an adjournment had to ing 'Varsity deprived of big gate the village fair. were displeased with those who retired, claiming that they were blocking business of the board. At the bening of the meeting, however, Prof. Martin announced the length of time he could remain; and retired acordingly. The move of the other gentlemen was cleverly made, and did not annoy the chairman
