A crisis has arrived in the affairs of Faternal insurance organizations that is

Because of the apparent chrapmens of the Co-operative system, thousands of men over 50 years of age to-day find that their assessments have increased be-

youd their ability to pay and the security offered so uncertain, that they realize their mistake of committing their future to this system of insurance.

The following filustrations prove that it is much more profitable to insure in the NORTH AMERICAN LIFE ASSURANCE COMPANY, for a period of 20 years, which covers the period when life insurance is most valuable, instead of for the balance of one's life. The figures used represent the rates of a well-known society with 25 cents a month additional for local dues. society with 25 cents a month additional for local dues, and does not include first and subsequent years' extras-

The North American Life's figures represent a definite guaranteed premium, which cannot be increased, with increasing guaranteed surrender values after the third year, any man under 35 years of are may save hundreds of dollars by carefully studying the figures contained in the following lilustrations.
