

Our Hospitals

Number of Operations Performed on Women May Avoid them.

Mrs. Fred Seydel

Dear Mrs. Pinkham— I was in a very serious condition when I wrote to you for advice. I had a serious female trouble and I could not carry a child to maturity, and was advised that an operation could not bear to think of going to the hospital, so I wrote you for advice. I did as you instructed me and took Lydia E. Pinkham's Vegetable Compound, and I am not only a well woman to-day, but have a beautiful baby girl six months old. I advise all sick and suffering women to write you for advice, as you have done so much for me.

Miss Lilian Martin, Graduate of Training School for Nurses, Brantford, Ont., writes:

Dear Mrs. Pinkham— While we are taught in the training schools through the country to look down upon patent medicines, and while the doctors in the hospitals speak slightly of them to patients, I have frequently known physicians to give Lydia E. Pinkham's Vegetable Compound to women suffering from female troubles, displacement of organs, and other disorders. They would, as a rule, put it in regular medicine bottles and label it "Konic" or other names, but I knew it was your Compound and have seen them fill it in prescription bottles. Influenza and colds have been relieved and cured in a few weeks by its use, and I feel it but due to you to give Lydia E. Pinkham's Vegetable Compound proper credit."

Lydia E. Pinkham's Vegetable Compound will cure such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, writes all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

Confidence in even quality has made many friends for Chase & Sanborn's Coffee.

ALL GROCERS

CROSBY HAPPENINGS.

The Cheese Factory to Continue Operation Late. Crosby, Nov. 25.—The Crosby cheese factory will continue operations until quite a late date this season, as long as it receives a good supply of milk. This has been the most successful season in its history, paying more per ton for milk than the other adjacent factories.

George Church has had men engaged overhauling his house and has now practically a new house. Leadbeater & Church made another shipment of live stock from here last week. Hogs have advanced in price. They are now worth six cents per lb. live weight at the car. Farmers throughout this vicinity have made money out of hogs this summer. Loading at our station has been a great convenience to them.

An Ottawa man with his hay pressing outfit was through here last week, but he didn't secure much hay as the farmers are holding their hay to feed their stock in anticipation of a long cold winter. James Stanton, of Newboro, is also buying hay and is paying fifty cents more on the ton than the Ottawa man. He wants 800 tons.

Eugene Edgar, Chaffey's Locks, is making his rounds collecting the taxes for South Crosby township. Miss Alice Leggett has left to attend the business college in Kingston.

The Newboro correspondent of the Brockville Times, stated that J. N. Knowlton had been given a contract to build a new school house here, but the trustees say no such contract has been given to anyone and the calling for tenders will be left in abeyance, until it is compulsory to build. The B. & W. railway excursion to Brockville one evening last week to give the people along the line an opportunity to hear Crosby & Hunter, the evangelists, was well patronized.

Rev. Mr. Hughes, Athens, occupied the pulpit in the Methodist church last Sunday, and delivered a missionary discourse. Revival services are being conducted in Malory hall by the Holiness Movement. Rev. Mr. Mayhew and two lady evangelists are in charge. William Martin, of Elgin, has been engaged as a farm laborer by B. A. Leggett. George Quere has moved to Seeley's Bay, where he has secured employment with a farmer. The two lady evangelists in charge of the revival services are stopping in the house recently vacated by Mr. Palmer, who has moved his family to Gananogoue. W. Baker, who has been away despatching, has returned. A new organ has been placed in the Methodist church. Mr. and Mrs. Hilliard Leggett, of Athens, formerly of Crosby, are receiving the congratulations of their many friends throughout this vicinity over the arrival of a bouncing baby boy at their homes.

Dr. Shoop's Restorative brings lasting relief in stomach, kidney and heart troubles through the inside nerves. No matter how the nerves became impaired this remedy will rebuild their strength, will restore their vigor. Remember it does no good to treat the alling organs—the irregular heart, rebellious stomach, diseased kidneys. They are not to blame. Go back to the nerves that control them—treat the cause—the remedy that cures through the inside nerves. Sold by all dealers.

American women have, within a few years, captured twenty-three titles. Fashionable 26 titled German, 14 titled Frenchmen, 17 titled Ukrainians, and 9 titled Russians.

Linoleum is made of powdered cork, oil and resin, spread upon canvas under steam at high pressure.

A man without a wife is a balloon without an anchor.

Substitution Dangerous When It Is Practiced By Unscrupulous Druggists

The practice of certain unscrupulous druggists, of offering some inferior compound of their own in answer to calls for a well-known and reliable preparation is most pernicious, and dangerous to the public.

As an instance of this fact we find that many of this class of dishonest druggists have been putting up for customers the prescription for coughs and colds referred to in a recent issue, requiring whiskey, glycerine and the Pure Virgin Oil of Pine, using in place of the latter ingredient the cheap bulk oil which is usually carried in stock, and which is without any specific medicinal virtue, and which will in most cases create nausea.

The formula referred to, prescribed by an eminent specialist in pulmonary diseases, is a most effective remedy when properly compounded, and will break up a cold in twenty-four hours and cure any cough that is curable. Great care should be exercised, however, to use only pure ingredients, and for this reason it is better to purchase each separately, and mix them at home. Buy a half pint of good whiskey, two ounces of glycerine and a half-ounce of the Virgin Oil of Pine (Pure). Mix in a bottle and take in teaspoon doses every four hours.

The Virgin Oil of Pine (Pure) is put up for dispensing only, in half-ounce vials, each securely sealed in a round wooden case, with an engraved wrapper with the name "Virgin Oil of Pine (Pure)" plainly printed thereon.

AT COOKE'S CHURCH ITS DIAMOND JUBILEE WAS CELEBRATED.

Rev. D. Strachan, B.D., of Brockville, was the Preacher—What the Object of the Church Today Should Be. Cooke's Presbyterian church celebrated its diamond jubilee Sunday and large congregations were present at both the services. The pastor, Rev. Dr. MacTavish, was present, and the services were presided over by Rev. D. Strachan, B.D., of Brockville. Both the pastor and Rev. Mr. Strachan made fitting references to the diamond jubilee, and the services were of a most helpful nature. The church with Mrs. Evans as soloist, and the quartette, composed of young men, rendered a special programme of music.

To-night the diamond jubilee will be further celebrated by the holding of a platform meeting, when Rev. Mr. Strachan will deliver an address on "Men."

At the morning service, yesterday, Rev. Mr. Strachan gave a most learned and interesting discourse, taking as his text I Corinthians 13:13. "I am not an apostle? Am I not free? Have I not seen Christ—our Lord? Are not ye my work in the Lord?" In opening, the speaker referred to the work of Paul as an apostle. The early church, he said, had the same problems and narrow views to face as the church today. Paul had asserted his right as an apostle, and laid down the principles by which Christian life might be saved. Paul saw the vision of God and it was this vision that the people needed to-day. Vision meant apostleship, and apostleship meant service. To have a vision of God was to have the starting point in Christian life. "The great motto of the church was the vision of Christ, and the great keynote of to-day was service for God. After receiving this vision we could go on in confidence. It was the vision of Christ that made John Wesley say, "The whole world is my parish."

"What does this gathering here to-day mean?" continued the preacher. "What has the past sixty years for this congregation meant? Why are the members of this church filled with gladness? Is it because you have no debt upon the church—that you have a comfortable place in which to worship, and a good minister? I venture to say that such things have never entered into your rejoicing at all. Deep down in your heart you rejoice because you are better able for service."

The speaker said that the church should be far away from such things to-day. We should be through with convention times and painful discussions. There should be no question as to how many should sit on a flower committee or as to whether a minister should or should not read his sermons. Such things as those should be dropped. An interesting sermon in one object should be too see the vision of God; to see God reflected in the face of Jesus Christ, and when the Master comes to be able to say like the prophet of old, "Here am I, send me."

Afternoon Service. In the afternoon a special service was held, when addresses were delivered by former superintendents of the church. Those present were: Prof. Fowler, Prof. Weddell, D. A. Shaw, Rev. A. Laird, and James Craig. Prof. Fowler was introduced pleasantly, and did not speak. All the addresses were instructive and helpful. Rev. Mr. Laird's knowledge of history furnished him with material for a most interesting sermon in "The Church of the Nineteenth Century." There were 182 members of the Sunday school present, besides a large number of visitors. The pastor presided.

Evening Service. In the evening Rev. Mr. Strachan preached an eloquent and instructive sermon on the "Great Work of Christ."

At 8:30 o'clock, at the close of the regular service, a union meeting was held. Rev. F. C. Stevenson gave an address on "The Young People's Missionary Movement." Mr. Stevenson is secretary of the forward movement for the missions in the Methodist church. The foreign missionary board of the Presbyterian church, gave an interesting address on "The Student Volunteer Movement." Rev. Mr. E. Hines, educational secretary of the Young People's Movement, in a vigorous address, pointed out that now three thousand students are going to the mission field, and that two thousand more had signified their willingness to go, and that it was necessary that the church should realize her duty and provide the means whereby the men might be sent.

Two Vivid Sermons. Rev. C. T. Scott, B.A., of Douglas church, Montreal, preached masterly sermons, on Sunday, during the anniversary services of Queen Street Methodist church. Good congregations attended. The people were enthusiastic and liberal and gave a good round sum to help reduce the debt. The singing was of a high type. The anthems were choice, the solos excellent and the male quartette most efficient. Miss Mitchell, Mr. Manhard and Mr. Bradley were the soloists, Messrs. Bradley and Shea duettists, and the male quartette composed of Messrs. Manhard, Bradley, Butlerford and Shea. "The Wayside Cross" was a gem.

Mr. Scott, in the morning, spoke with effectiveness on God intervening through man and showed, in consequence, the tremendous responsibility resting on man to show God in his reality and holiness. In the afternoon Mr. Scott spoke on temperance to the children of the Sunday school. It was a record attendance and a record collection for the day. At eight o'clock a very large audience, the eminent preacher discoursed on the restlessness of the world and into God the things belonging to it. He showed how civil government was formed and how every honest man must set towards it and followed with the blessing and gifts God had bestowed and

MISSION CONFERENCE HELD IN OLD CONVOCATION HALL.

Addresses Delivered By Two Mission Representatives—The Young People's Forward Movement. There was a fair attendance at the missionary conference held in old convocation hall, yesterday afternoon, when addresses were delivered by Messrs. Armstrong and Hines. The former spoke first and gave an interesting history of the Young People's Society of the Young People's Movement. Twenty years ago Moody addressed a gathering of students in Massachusetts, and as a result one hundred missionaries went forth to foreign fields. The anniversary of this event was celebrated last February and March at Nashville, Tennessee. But the society is not a missionary in the sense of sending forth sympathy in the cause among those upon whom must depend its future success. The birthplace of foreign missions furnishes an interesting story. In 1806 five students from Williams' University, following an old custom of spending Wednesday afternoons studying away from college surroundings and in the quietude of nature herself, were caught in a thunder-storm and took shelter under the lee of a haystack. Here, in discussing conceptions of the great missionary movement, they saw the light of day. The one dissenting thought there was too much work at home along the same line, and this should first be overcome. He gave his life to the carrying out of these convictions. In 1810, four years later, a recognized board of foreign missions was formed, and in 1812 the first missionary was sent to heathen lands. Continuing, the speaker pointed out that while all could not go to foreign fields to labor in the vineyard of our Lord, those at home had their duty to attend to.

Closely associated, but entirely distinct from the Young People's Society is the Student's Volunteer Movement. It originated four years ago at Silver Bay, in New York state. As to the work done by the society. It has now struck at the very heart of the young people. Text books were issued by specialists and issued for study classes, and thus an effort made to strike at the very heart of the young people. Text books were issued by specialists and issued for study classes, and thus an effort made to strike at the very heart of the young people. Text books were issued by specialists and issued for study classes, and thus an effort made to strike at the very heart of the young people.

A few years ago the churches were all praying that doors might be opened in heathen countries. This prayer has been answered. The great need at the present time is well qualified young men and women to do the work of missionaries, and more money to sustain them. A hundred six of the times is the interest college men are taking in religious matters. It is estimated that five per cent of the young men other than students are members of Christian churches, but statistics show that fifty-two of those identified with our colleges are connected with some branch of the church.

First Baptist Church. Rev. A. E. Armstrong, B.A., Toronto, who is one of a delegation in the city, representing the Young People's Forward missionary movement, presided at an interesting service in the First Baptist church yesterday morning. He spoke of the wide-open doors of the yet unevangelized nations for the missionary of the gospel, the great work of missionaries to carry to these peoples the word of life and the great developing possibilities in the Sunday schools, and the work of missionaries in Christian lands. His address was much enjoyed. In the evening, the pastor conducted a memorial service for the late Joseph Rawlin, who was an esteemed member of the First church for twenty-one years. The quarterly temperance lesson was taken up in the Sunday school in the afternoon. There was a large attendance, and in addition to other things of interest, the little Misses Edna Singleton and Maggie Lake, gave excellent temperance recitations, pleasing everybody.

\$50,000 FOR BALLOON RACE. Paris Newspaper Organizes Great Affair. Paris, Nov. 25.—It is announced that prizes to the value of \$50,000 have already been promised for a great steerable balloon race from Paris to London, which the Mail is organizing. The race is to take place during September, 1905, while the Anglo-French exhibition is being held.

The Mail has promised \$20,000, and the Margy Club, Mr. Charles and M. Clement have promised \$10,000 each. Further subscriptions are being invited from others interested in the development of aerial navigation.

"Buy Ood for the teeth." Sold at Gibson's Red Cross drug store, Phone 230.

Killed By Injuries. Berkimer, N.Y., Nov. 26.—O. A. Douglas went on the witness stand, in the trial of the case of the death of a child, testified that Grace Brown was killed by injuries inflicted before her body fell into Big Moose Lake, where it was found.

HE IS SIXTY-SIX. This is the Birthday of Andrew Carnegie.

New York, Nov. 26.—It is just sixty-six years ago, since a baby boy destined to become world famous as a philanthropist, first saw the light day, at the little town of Dunfermline, Scotland. The boy was Andrew Carnegie. His parents brought him to this country when he was still a mere child and at ten years of age he began his career in the blue uniform of a district messenger boy in Pittsburgh a city which has since benefited incalculably through his beneficence. In most of his biographies the date of his birth is given as 1835, which would make him sixty-eight years old today, but Mr. Carnegie himself is authority for the assertion that he is sixty-six. As a matter of fact the Laird of Skibo is as sensitive regarding his age as he is concerning the

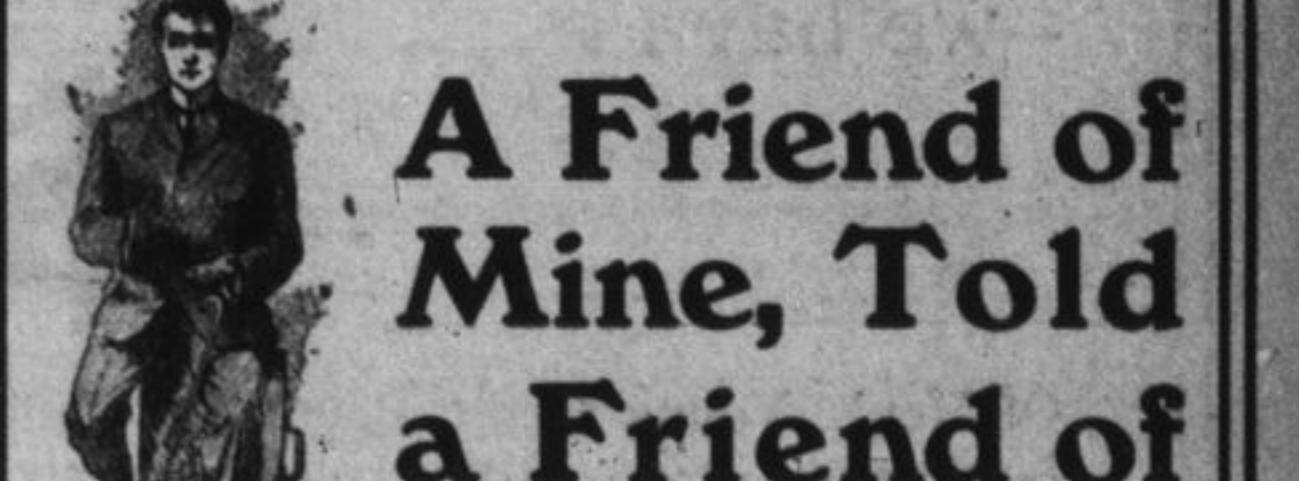

subject of death. Those most intimately acquainted with him aver that the mention of either subject in his presence is offensive to him. However, true this may be a number of his friends and business associates of this country made bold to enter their congratulations on the occasion of his birthday. Both Mr. and Mrs. Carnegie are in excellent health. Mr. Carnegie's most recent benefaction has been a life pension to the Rev. T. Booker Washington, the colored minister, who is doing so much for the uplifting of his race.

A perfect bowel laxative for constipation, yellow complexion, headache, dizziness, sour stomach, coated tongue, biliousness. Laxative set promptly, without pain or griping, pleasant to take—Laxative only 5c. Sold by all dealers.

During the past year nineteen persons were assessed in Great Britain on incomes of £50,000 a year.
