"Grand Peninsular"
has an all-steel oven.

Steel is more uniform in thickness and radiates heat more quickly than cast iron. For that reason most cast iron ranges have steel oven bottoms.

In my new range—GRAND PENINSULAR—I have gone farther and made the WHOLE OVEN—top, bottom and sides—of STEEL PLATE. That is the reason the "Grand Peninsular" is such a quick, even baker—and saves so much fuel.

I have perfected a perfect system of Ventilation, too. All the vapor and odor of cooking are driven off—and a constant current of fresh, heated air fills the oven.

I also put a Thermometer in the oven door, so you can tell the exact temperature of the oven. It does away with all guess work and insures perfect cooking.

These are a few of the helpful features that make my new GRAND PENINSULAR the ideal range for Canadian homes.

A FINE ART EXHIBIT
THE DUTCH PICTURES EV-OKE INTEREST

On the Part of Connoisseurs and Art Lovers—To-Morrow and Saturday Will Be the Last Days of the Exhibit.

To-morrow and Saturday will be the last opportunities to see the splendid show of Dutch water colors and etchings, which have been on view this week at Kieppatrick's gallery. This exhibition has already interested many connoisseurs and art lovers as well as students. It presents an opportunity for the exercise and cultivation of artistic appreciation and sensibility never before presented in so complete a manner to this community. No one whose knowledge entitles him to an opinion on art will deny its importance in the development of art and the appreciation of it.

It would be useless to attempt a review of all that is worthy in this exhibition. The variety of subjects treated show the versatility of the painters and the exhibit demonstrates the unity of the Dutch school of aquatints.

The charming landscapes of Du Chatel, Van Driessen, Westerbeek, and Klinkenberg, show the closest observation and the most consummate knowledge of drawing and technique.

Some one has said their subjects are simple enough. A windmill, a canal, or a grey sky, but they make one think. Where will be found in any age or among any other painters such delicate gradation of color, such disposition of light and shade, such truly quality, space, air, light and movement? Take for instance, the moist atmospheric canals of Du Chatel, "The Evening Light With First Snow," Rotterdam; "Westerbeek's Sheep on the Heath," Klinkenberg's, "Old Canal in Utrecht," and many others that might be mentioned as perfect examples of broad, true and sympathetic rendering.

The genre pictures, though few are fine, as J. Weiland's "Cooking the Soup," and "Old Woman Spinning," Erlman's "Painters," and Van Esbroek's "Lion And Lions," are perfect specimens of their work. Mesdag's "Fishing Boats on the North Sea," is convincing for its movement and form, and represents the greatest of sea painters, and patrons of art.

The exhibition is open from 10 to 6 p.m., and should be seen by every citizen of Kingston.

ARBITRATORS AWARD
On Perth Toll Road Received by County Council.

The county council's adjourned session to receive the Perth Road arbitrator's report and award and to transact other unfinished business of the year convened Thursday morning. There were present: Warden Franklin and Councilors Freeman, Black, Blew, Tappin, Fringle, Spoor, Pillar, Sproule, Shannon, Grant and Staines.

J. M. Farrell, chairman of the board of arbitrators, presented to the clerk the award, which was not to be covered until the amount of fees endorsed thereon was paid. These fees amounted to \$355.

Councillors Pillar and Sproule said they couldn't understand how the county council must pay the costs before the award was made known.

Mr. Farrell pointed out that this was the statutory procedure. The party that took up the award must pay for it. Afterwards, if the award was accepted, then the county could debit a portion of the cost from the amount to be paid to the road company. Mr. Farrell stated that the fees to Mr. Bermingham and Dr. Ryan amounted to only \$70 each, a decidedly small amount for the services of gentlemen of their standing, when they had given so much time to the arbitration. They could not be got again for such small fees as provided by statute. The stenographer's fees and for supplying copies of the evidence amounted to \$1600.

On motion of Councilors Staines and Sproule, the award was referred to the toll roads committee to report at the afternoon session.

It is computed that the whole cost of getting the award, including solicitors' and witness fees, will be about \$1600.

CHANCE OF CENTURY.
What Principal Gordon Says of Union.

Toronto Globe.

Rev. Principal Gordon, of Queen's University, Kingston, said that there seemed to him to be an opportunity in Canada today, for the union of the various sections of the Protestant church, such as had not been afforded in any country for a hundred years, perhaps not since the Reformation. The cleavage between the Episcopalian and the United Church was less here than in Great Britain or in the United States. There had been a great deal of united action in temperance and charitable work, and the young people of the different churches were brought together a great deal in Sunday school and young people's conventions.

Principal Gordon hoped for a successful issue of the union movement. The people must decide it, and he thought that if they could have attended the sessions of the joint committee last year, and the year before they would have come to an early and favorable decision. There were some strong men still opposed to it, he admitted, as they conscientiously believed the churches were better as they are. There must be, he said, no undue haste, but he must hope for the success of the movement. It would undoubtedly help if the Anglicans and Baptists could see their way clear to joining in the negotiation.

Budget From Wilmar.

Wilmar, Dec. 13.—The people are making good use of the snow, hauling wood, hay, etc. The lead mines are starting up again, under the direction of the St. Lawrence Smelting company. Extensive building is being done, and much machinery is being put out. The company mining on A. Greer's estates will start their boarding house on Monday next. Sherman Greer has started a mica house on his farm at the head of Elk Lake, E. Doctor being superintendent, and P. Vanhousen occupying the position of mica house boss. H. Amey met with a very serious accident late in the evening in his mines. He was struck down by a barrel of water falling on him, but is gradually recovering. J. K. Freeman is recovering from a severe attack of la grippe.

Visitors: J. Blakley at J. Freeman's; H. Arkroyd spent a most enjoyable evening at G. Emis' lately; Rev. J. Rolles at Miss A. G. Zimmerman at S. Sears'; J. S. Roberts and family at R. Staines'; W. Greer at A. Folger's.

A Dollar A Vote!

Charges of gross corruption are made against the republican campaign committee of Clinton county, N.Y., in a petition filed by Edward J. Lance, late candidate for district attorney on the democratic and independent tickets. Mr. Lance alleges under the law of 1906, commonly called the corrupt practices act, which provides for publicity of campaign contributions and forbids trafficking in votes. His petition alleges that the republican committee, in defiance of that act and contrary to an agreement entered into by all Clinton county campaign committees to refrain from the purchase of votes, did buy through its agents 100 votes in the town of DeLamater at an average price of \$1 per vote and that it used large sums in the city of Plattsburgh and elsewhere in corrupting the electors. Mr. Lance, a prominent publican, the petition alleges, broke the agreement which was the same as that adopted in Elmira and known as the "Elmira compact."

Kepler Doings.

Kepler, Dec. 13.—There are quite a number on the sick list. Among them are Mrs. G. Lawson, Mrs. T. H. Lawson and Mrs. S. Leeman. Stanard Guess has moved into his new house. A very pleasant evening was spent at the home of J. H. Johnson, the occasion being the marriage of Miss Carrie Babcock to T. Smith, Kingston. Visitors: Miss Patterson, Wilmar, at W. Patterson's; Mrs. T. E. Lawrence at T. H. Lawson's; A. Hagerman at J. Woods'; Noble Rutledge and wife, Regina, at J. Knight's; Mrs. C. Sparks, Gibson, Georgian Bay, at A. Townsend's.

Pickpocket Pocketed.

Joseph Lang, the public executioner of Vienna, carries a heavy gold watch chain and a massive watch, which is held securely in his pocket by a thief-proof hook. Both the chain and the hook withstood the attack of a daring pickpocket who endeavored to relieve the hangman of his treasure in a crowded street of the Austrian capital recently. The thief was captured and the watch, on which the gruesome record of the owner's official activity, is engraved was saved.

In 1861 there were only 62.16 females to every 100 males in New Zealand. In 1901 the proportion was 90.33 to 100.—It is expected that the sexes will soon be equal in numbers.

NEWS OF THE WORLD
OCCURRENCES RECOUNTED
IN BRIEF FORM.

Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered.

Robert Palen, formerly of Cornwall, is dead in Buffalo, N.Y.

It is stated that two Japanese recruits, fully equipped, are in Honolulu, working as laborers.

William Wilson Wood, assistant provincial auditor, since 1901, died at 97 Avenue road, Toronto.

Mrs. Susan Sutton of Sault Ste. Marie, was burned to death by the explosion of an oil lamp.

Raidi has announced that he intends to commandeer the army the sultan is sending against him.

Richard Henry Boyle, sixth earl of Shannon, died suddenly in his country house, in Cardiganshire.

James Gallagher, secretary of the Stark Telephone, light and power system, died at 25 Withrow avenue, Toronto.

Former United States Senator Arthur Brown, of Utah, shot in his apartments at the Hotel Radleigh, Washington, Saturday afternoon, by Mrs. Anna M. Bradley, of Salt Lake City, died Monday night.

DISTRICT DASHES.

Items of Useful Information Briefly Given.

Peter Scott, Carleton Place, left for Nova Scotia a few days ago to resume his position in the woolen mills at New Glasgow.

By the death of James Jamieson, Carleton Place, which sad event occurred Friday evening, the town has lost another of its older citizens.

James Riddell, father of W. R. Riddell, Carleton Place, died at the home of his son George, in Chicago, on Sunday evening, of Bright's disease.

At the ripe old age of seventy-three Mrs. William Lamb, passed quietly to rest on Tuesday, at the home of her son, John Lamb, Carleton Place.

By the death of Alexander McTavish, which occurred Wednesday at the homestead, Beckwith township, loses another of its stalwart pioneer settlers.

George Deck, an old and highly respected resident of Pakenham, died on Saturday, the funeral taking place to the cemetery in Pakenham. He had been in failing health for some time.

There is a probability that Carleton Place's woolen mills may be going again shortly, but the government had nothing to do with the closing of them, nor will it have anything to do with their opening.

CASES IN COURT.

The Street Car Rioting Cases to Proceed.

Toronto, Dec. 13.—The trial of David and Freeman King, charged with sheep stealing, was on at the session of the peace all morning. There was no evidence against Freeman, the younger man, who, accordingly, was acquitted by Judge Snider, without the case going to the jury. The elder King's case will be given to the jury this afternoon.

It is likely the street car rioting case will be gone on with this afternoon. About twenty true bills on charge of rioting, mischief and assaulting peace officers have been found by the grand jury.

All Metal.

"Can I sell you a love story," asked the aspiring young author in the editorial department of the big magazine.

"Possibly," replied the busy editor.

"What kind of a heroine have you pictured?"

"Well, she is a girl with an iron will."

"Go on."

"And a heart of steel!"

"Ah!"

"And sufficient brass to carry her through the world, and plenty of tin to buy a titled husband."

"Where?"

"But when she riveted her eyes—"

"Hold on, young man. This is a magazine office. I think you better try selling peace officers before you go and sell that story in a hardware store."

Diplomacy Defined.

At a dinner, Senator Long was once asked by a young woman to define diplomacy. "Well," said he, "what do you do at a hall when a young man asks you for a walk, and you don't wish to dance with him," she replied, "I say my card is full."

"But supposing it isn't, and he still persists?"

"Then I insist that it is and at the same time let him see it isn't."

"That's diplomacy," said Senator Long.

CATCHABLE
CURABLE
PREVENTABLE

That's what doctors say about consumption.

But as it always springs from Catarrh, why not prevent it?

Catarrh cures because it kills the germ.

It heals the inflamed membrane—relieves coughing—dries the throat—frees the nostrils—makes you well.

Here's the result of "Catarrhose," and worth noticing too:

No more colds.

No more coughs.

No more frontal headaches.

Sneezing is cured.

Hawking is cured.

Bad taste is cured.

A quick cure—a sure cure—the kind that stays cured follows Catarrh.

That's what doctors say about consumption, Bronchitis and throat troubles; try it.
