SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Province, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-agent.

An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancelation, may, subject to approval of Department, relinquish it in favour of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled or voluntarily abandoned, subsequent to institution of cancelation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particulars the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry should the land become vacant, or if entry has been granted it may be summarily cancelled.

Duties.—A settler is required to perform the conditions under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 per acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

Placer mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

NEWS FROM PICTON

A CANNING FACTORY FOR CONSECON.

To Be Built at a Cost of $30,000—Picton's Junior Hockey Team—Doings in the Prince Edward Capital.

Picton, Dec. 26.—A new canning factory for Prince Edward county! A prevalent rumor and one fairly well founded gives the county a new addition to this marvellously growing industry. According to the report, it is said the new factory will shortly be built at Consecon and will cost in the neighborhood of $30,000. It is understood two prominent farmers of the district, Messrs. R. Smith and James Johnson, are the pushers of the scheme. If the proposal goes through, the establishment will be somewhat of a farmers' joint stock company, with the above named two gentlemen as the likely heads.

Consecon has long wished to keep step with Prince Edward's now prominent industry and there has for some little time been a "feeling" toward the building of a factory. This feeling is now very strong and it is understood, after a canvas, many of the district farmers have expressed willingness to subscribe for stock.

It is felt among a goodly portion, however, that Consecon district is not adapted to the growing of vegetables for the canning work. Many farmers, however, contend conditions are as suited as around Wellington.

This new addition would mean twelve factories in the county, devoted to the canning industry: One at South Bay, three in Picton, three in Bloomfield, three in Wellington, and one in Northport. There are sixty-five in the province; Prince Edward, therefore, has a good percentage.

As far as hockey is concerned, Picton is to be content with a junior O. H. A., team this season, the first game to be played on the local rink, Thursday night, when Belleville comes over to try our puck chasers. The rink has now been open for two weeks and there is a beautiful sheet of ice.

The following have subscribed towards the hockey club: B. R. Hepburn, W. G. McClellan, E. W. Sheriff, C. H. Smith, I. F. Fraser, R. Davidson, Dr. H. S. Reynolds, P. S. McLean, John Burns, W. J. Carter, John Conley and "Archie" Sullivan. "Cap" Gilbert, the well-known hockeyist, so famous on the Varsity line a season or so ago, is coaching the boys and under him and "Archie" Sullivan, they have been having some good workouts. To-morrow night's team will be picked from: Earle McMullen, George Williamson, Robert Collier, Bee Welsh, Earl Thorn, Roy Benson, Earl Croft, Angus Reid, Harry Despard and Charles Bedorough.

DRIVEN HIM OUT.

Edward Beaupre, a Good Citizen Forced to Leave Kingston.

Edward Beaupre intends leaving early next month for Brandon, Man., to locate. He has been practically forced out of Kingston by being refused the right by the license commissioners of buying out a business after being compelled to retire from the Beaupre Hotel. Now, Alderman Hoag wishes to entirely disfranchise him by asking that his name be struck off the voters' list. Kingston does not want for its mayor any man who will aid in driving from it a good citizen. Mr. Beaupre has been persecuted by some people who hold temporary power, and Alderman Hoag has added his share to the mud-throwing. But a day of reckoning will come for some person, and that day will not be later than January 7th. Mr. Beaupre's friends are indignant at Ald. Hoag's action.

SAID TO BE READY.

Tribesmen to Submit to Foreign Office.

London, Dec. 27.—The Tangier correspondent of the Times says Sir Mohammed Gabbas, minister of war, with practically his whole army, will go, to-day, to a spot three miles east of Tangier, on the border of Anghera territory, and there read to the neighboring chiefs a letter from the sultan, deposing Raisuli from the governorship of the Tangier district and calling upon the tribesmen to submit to the maghsen or Mococcan foreign office. The tribesmen are believed to be ready to do this.

CHURCH SEXTON'S STORY.

How Bileans Restored Him After Long Suffering From Liver Trouble.

John J. Wilson, sexton of the Church of Messiah, Toronto, and living at 53 Wickson avenue, has recently told a press representative how Bileans cured him of chronic biliousness, dizziness and liver troubles.

Mr. Wilson says: "Practically from boyhood I have suffered from biliousness and liver and stomach troubles, and only recently I was cured by Bileans. After food I should have acute pain until I vomited. Headache troubled me very much, sometimes so bad that I could hardly see. At other times there would seem to be a rush of something to my head. I should turn dizzy and I have even fallen down in the street. The biliousness was so bad that for long periods at a time I have been unable to take food. Bileans were recommended to me, and I gave them a fair trial. To my delight they were equal to my case, and after a short course they cured me completely. I now enjoy the best of health, and am free entirely from the ailments which caused me such acute suffering for so long. Bileans are worth their weight in gold."

Bileans are altogether different to ordinary medicine. They are compounded from vegetable essences and are free from alcohol, bismuth, mercury or any of the harmful mineral ingredients and poisons found in so many liver and stomach remedies. They have the support of many eminent scientists and are frequently prescribed as a cure for constipation, piles, and stomach, liver and intestinal diseases generally. They also cure female ailments and irregularities, headache, debility, dizzy spells, heartburn, palpitation, heat flushes, etc. As a general tonic they are unequalled and as a family remedy. All druggists sell them at 50 cents a box, or post free from the Bilean Co., Toronto, upon receipt of price. 6 boxes for $2.50.

Should Order Repairs.

A prominent resident of King street west said, this morning, that the city council should order the finance committee to provide money to have the breakwater on King street repaired. The winter is certainly the best time to have this work attended to, as the men could patch the damaged part from the ice in less time than from a raft in summer.

AT THE Y.M.C.A.

Notes of Interest From This Institution.

Harold G. Beall, the former physical director of the Y.M.C.A., who is at present in the city on a visit, has consented to deliver a new year's message, at the men's meeting on Sunday afternoon.

James Bews has notified the association that he will offer a silver medal for competition each year in the swimming contests. The cup offered by Mr. Beall for this contest is now being engraved. The cup will be retained at the Y.M.C.A., and each year the name of the member scoring the highest points will be engraved upon it. The medal offered by Mr. Bews will be retained by the owner.

At the social to be held on New Year's night, two teams from the Y. W. C. A. will play a game of basketball. Senior members of the association will take part, and the ladies will no doubt put on an interesting game.

The membership of the association is steadily increasing. At the present time there are one hundred and sixty-five senior members and one hundred and sixteen juniors.

A large number of visitors made an inspection of the Y.M.C.A. on Christmas day.

Conley & Robinson will present the association with a large parlor croquet table.

Cent A Curiosity.

A resident of Wetaskiwin, in our North-West, has a collection of very interesting curios. While showing these to an easterner, one day, the collector gravely picked up a Canadian cent, and handed it to the eastern man, as one of the most curious things in his collection. The western man forgets entirely that in the way back time he thought of the copper cent as good coin of the realm and useful.

Printer's Ink.

As a letter of introduction predisposes one in favor of the bearer so advertising of the right sort predisposes one in favor of the thing advertised, but that is all. Unless the man, and the article advertised, possess in themselves qualities which the world values no amount of praise will enable either of them to make good.

A BROAD STATEMENT

This announcement is made without any qualifications. Hem Roid is the one preparation in the world that guarantees it.

Heaven Is Here.

Heaven is not of the heavens or the hereafter. Heaven is here. The door to it opens in this world and life. If you cannot attain heaven here, you can hardly expect to appreciate it hereafter. Heaven is a state and not a place. It is a special condition, and not a celestial city. The only heaven you will ever find in any life will be simply that harmony and happiness that are the results of good life, helpful action and pure thought. If you do good, you do not have to wait for reward. The only heaven you deserve, you are in now.

TO-DAY'S SNOW STORM.

It Knocked the Street Railway Schedule Out.

To-day's snow storm knocked the street railway schedule out, and was also hard on the steam railways. The snow was of the wet, sticky kind, and made the rails very slippery. The big sweeper was out on the various lines early, and the company did all that was possible in their endeavors to keep the line open, and to run the cars on time. But this could not be accomplished, and although the cars were kept on the move, they could not keep up to the schedule.
