# SAFE AND SANE

In these days of inflated capitalization and wild optimism, it is worth any investor's while to study the same business proposition which Western Oil and Coal Consolidated OFFERS to investors. One of the best opportunities for making large profits on a small investment that has come before you for a long time. The Company owns the only known oil lands in British Columbia that are on a railway. They own two wells that experts say will produce, at least, 100 barrels of oil per day. They have let a contract for drilling five more wells that are likely to be even more productive. They own 26,240 acres of oil and coal lands in Alberta and British Columbia; and there is little doubt but that within a year they will have, at least, a production of 500 barrels of oil per day on that land. Under their Charter, which is a very valuable one, being a special Act obtained from the Legislature of Alberta, they have the right to build pipe lines anywhere, and to construct tramways to carry their coal. They have successfully prospected for and obtained the oil on some

following:-

of their lands, and there is every reason to believe that their other oil lands are as good, probably much better than those they have already Proved. J. W. Warren, of the Winnipeg Oil Company, says, in an official report, that he " never found anywhere a crude oil equal to the Alberta production," and he adds that "it seems impossible to doubt that the Alberta wells will in the future be able to supply the Canadian market." Another oil expert, of well known standing, who has made a fortune out of oil, closes his report with the

"I have no hesitancy in saying that it is the most promising oil field I have ever examined, and I have been in every oil field on this continent, excepting California and Texas, and operated both as producer and refiner in Canada, Ohio and Pennsylvania."

If you had invested \$1,000 in the Home Oil Company, of California, seven years ago, your investment to-day would have been worth \$375,000. If you had invested \$1,000 in the Standard Oil Company twenty years ago your investment to-day would be worth \$6,500,000. The oil lands of this Company are only a part of the resources in which you have an interest when

you invest in the shares of the Western Oil and Coal Consolidated. The Company owns fourteen square miles of coal lands in British Columbia, which adjoins the Crow's Nest Pass Coal Company's lands and through which the Great Northern Railway now passes, and fifteen square miles of coal lands in Alberta. The Company also owns a mine at Chipman Creek, in Alberta, on which it has been estimated that there are 12,000,000 tons of coal; that is to say, the Company has sixty times as much area of coal land unprospected as now constitutes the Chipman Creek mine, on which it is estimated there are 12,000,000 tons of coal.

Not one gold mine in forty has ever paid its shareholders a dollar; not one silver mine in sixty-four has ever paid to its shareholders a dividend. On the other hand, 97 per cent. of the coal mines and oil fields have been a great success, and have made their proprietors enormously wealthy. \$1,000 invested in the Crow's Nest Coal Company ten years ago would be worth to you to-day \$275,000. The late Robert Dunsmuir, with less than \$1,000, laid the foundation on Vancouver Island for his great fortune, which it is estimated to-day is worth \$41,000,000, and made it all out of coal.

Coal and oil are as necessary in the domestic economies of life as food and clothes. An eminent financier who died worth \$70,000,000 said to a young man who enquired from him as to the source of his great fortune: "For certainty of rofits invest in necessities." Oil and Coal are necessities. In the Western Oil and Coal Consolidated you will have an investment in two of the most profitable commodities that are produced by mining. Greater fortunes have been made in the production of these than have ever

been made in any other class of mining. The Western Oil and Coal Consolidated own their properties and the titles are vested in the Company. The Company is managed by business men, who have invested largely in the Company's shares. If they are to make money for themselves they must make money for you-that is evident. In the consolidation of the various companies which are merged into the Western Oil and Coal Consolidated there was not a share of stock given to anyone for promotion. There is no one who received a share of this Company's stock without paying for it; everyone has been obliged to pay for the preferred stock the same price at which you can buy it now, but you will readily understand that when you are offered Cumulative Preferred shares bearing interest at 6 per cent., guaranteed by \$367,500 worth of assets, and in addition to this you are offered a bonus of an equal number of Ordinary Shares, that you are getting an investment which is far beyond the ordinary. For this reason the Directors of the Company, who are men of business sense, feel that they cannot afford, in the interest of those who

have already invested, to continue to give the bonus of share-for-share. Therefore, the bonus of share-for-share will be withdrawn after December 31st, 1906. Till then you can participate in this excellent opportunity; after that, if there are any of the 10,000 Preferred shares left, which is doubtful, the bonus will be considerably reduced, probably to over half, or withdrawn altogether. If you are a business man of ordinary business discretion, and have money to invest, you cannot make any mistake by

ed that there will be any left after the 31st of December. If you want to know more write to John N. Lake, 114a King Street west, Toronto, or fill out the following order and send to same address-Do it now.

## APPLICATION

I or we ..... the undersigned, hereby apply for John N. Lake par value of \$10.00 each, in the Western Oil and Coal Consolidated (No Personal Liability) and an equal number of Ordinary shares of a new release \$10.00 each Liability) and an equal number of Ordinary shares, of a par value of \$10.00 each, namely......to be granted as a bonus.

I, or we, enclose herewith cheque for \$..... in full payment of same.

Name in full Street address

'All cheques, drafts or post-office orders are to be made payable to John N. Lake, or to the Manager of the Royal Bank of Canada at Toronto.

As there are a number of parties who have expressed a desire to invest in the company's securities but whose funds will not be obtainable until about Jan. 15th, 1907—to those a reservation will be made of shares upon their making a deposit of 10 per cent.
