Success Of Kingstonian. A New Brunswick local paper says: "Among thriving institutions of Campbellton, the band stands out prominently. Last spring it was started on a business-like basis. The citizens subscribed liberally. Instruments were bought and under efficient management the boys were given work, and the result was a band which the people were proud of. Summer engagements the band filled well, and also gave eight open air concerts, which were highly successful. The management deserve credit in securing an excellent teacher in Mr. Watson. He has edited the works of Champlain and Les Carib, and has written articles on Canada for the latest edition of the Encyclopaedia Britannica, now in press. It has been suggested that Mr. Grant should write a popular life of Joseph Howe. This was a posthumous honor. Mr. Grant had in view. He had gathered a large amount of material for the biography of this great Canadian patriot, but had not time to complete it before he could carry out his project.
