BEGGAR WORTH \$47,500.
Sum Found in His Pockets After
Death.

Vienna, Jan. 5.—An aged beggar
named Gerlach, who died in hospital
at Budapest, yesterday, was found to
have in his pockets banknotes and securities worth \$47,500.

He was a well-known figure in the
Hungarian capital, and remarkable
even among beggars for the extremely
neat condition of his clothes.

It has now been discovered that he
was a doctor of three faculties, and
had taken the highest academic honor
that can be obtained at his university.

Colds Cannot Exist.
Wade's Cold Cure Tablets (Laxative)
cure colds of every variety in twelve
hours if used promptly. No one can
estimate the value of such a remedy
for colds as the beginning of a host
of serious ailments. The remedy by
its laxative, cleansing properties also
cures headache, constipation, etc. A
specific for the grippe also. In boxes,
25c. Sold only at Wade's Drug Store.
Money back if not satisfactory.

Most of us discover we need bread
after the wafer has passed.
A woman judges the value of a
loaf by the postage it has to pay.
The small loaf who won't fight is
always meeting at little girls.

GIRLS OF TO-DAY
ARE WEAKLINGS!
Few Possess the Vitality and Girl-
ish Beauty of the Olden Times.

Never before was physical health
and vigor so highly esteemed and so
eagerly sought for as to-day.
No man finds happiness in a sickly
wife, and the woman who wishes to
enjoy the pleasures of life should
spare no effort to maintain perfect
health.

Is your daughter growing up strong
and ruddy? Has she strength to
drink in grossly all the pleasures that
youth so zealously seeks or is she
compelled to use the street car instead
of enjoying the delightful exercise of
walking—does she after the hall arise
refreshed and vigorous, or is she ex-
hausted, indifferent, and perhaps ir-
ritable?

When strength and vigor can be so
easily maintained by Ferrone, when
the glow of health is so quickly
brought to the cheeks and elasticity
to the step, it is plainly a mother's
duty to see that Ferrone is on hand
to assist her daughter back to health.

Upon this work of Ferrone quickly
follows a stream of rich, nourishing
blood which imparts that power and
surplus energy so earnestly desired by
those in ill-health.

The Cannons of Prince Edward Were Delayed.

Pictou, Jan. 5.—Prince Edward cannon factory men add their complaints over car shortage. Much difficulty was experienced all fall in getting cars for the shipment of goods, and as a consequence, annoying delays resulted. F. Beringer, secretary-treasurer of the Bloomsburg Packing company, told the Whig that the most of the shipments had now been consigned to the buyers, though a few lots were awaiting cars to go to their destination. "During the early fall," he said, "it was almost impossible to get a car for shipment any other direction than the North-West."

BRING CHURCH

Into The Arena Of German Politics.

AN ATTEMPT MADE

TO ELIMINATE THE PRESENT CATHOLIC INFLUENCE.

Movement in Germany to Organize Protestant Church—Actively Not to Be Lasting, But is to Affect the Approaching Reichstag Elections.

Berlin, Jan. 7.—A feature of the present political situation is the movement to organize the Protestant church into a political party, so as to counterbalance the centre or clerical party. As the Protestants form two-thirds of the population, the German Evangelical League, which is now placarding the country, argues that the Catholics by a union at the polls could be excluded from any influence in the reichstag. While opposed to permanent political activity, the Protestant League advocates political union in order to eliminate Catholic influence from German affairs.

EVERYTHING WAS O.K.

LONDON MERCHANTS WERE SWINDLERS' VICTIMS.

More Than \$50,000 Cleared by Two Men By Severely Concocted Scheme.

London, Jan. 7.—An audacious series of frauds has been perpetrated in the city, by which more than \$50,000 has been obtained by two men.

The frauds were in connection with deliveries of antimony ore—an extremely scarce and precious metal, the supply of which is controlled by a handful of people.

Early in the year two men of good appearance, apparently foreigners, made their appearance in London. They took two suites of offices—one in the Wool Exchange and the other in a large block of offices of Bishopsgate.

The door of one office they had painted the same name as that of a well-known shipping firm, and on the other office the title of a Spanish shipping and insurance concern. On the strength of their knowledge of the antimony business they obtained an introduction to several important firms, including a firm of London agents, who were instructed to their manner and so excellent were the references relating to themselves which they exchanged between them that confidence was soon established.

STARVING TO DEATH.

London, Jan. 7.—Late news from Russia states that from 20,000,000 to 30,000,000 persons are slowly starving to death. There is a fearful epidemic of typhus.

MAKING "GEMS."

One of the Greatest Frauds of the Age.

Philadelphia, Jan. 7.—Dr. B. C. Flower, alias C. G. Dalway, a fugitive from New York since 1903, where he is wanted to answer charges of grand larceny and swindling credulous investors out of about \$1,000,000 on alleged bogus mining operations, was arrested here by Detective Sergeant McConville, New York, and several local officers.

Flower, who the detectives say is the greatest mine swindler of the times, was captured in a room in one of the big office buildings in the centre of the city, where it developed he has been located for some time. Under the name of Prof. Oxford, the detective declared, he was seeking to secure money from investors by representing that he had a wonderful chemical process whereby he could make diamonds, rubies and other precious stones and a patent brick.

A GREAT GIFT.

Washington, Jan. 7.—It is announced that Andrew Carnegie has given \$750,000 for the construction of a building to be used by the Bureau of American Republics. Provision for the site already has been made by the United States and the South American republics.

Lord Charles Bessford and Lord Marcus Beresford will come to the United States to settle the estate of their brother, Lord Delaval, killed in a railroad wreck in North Dakota. The estate is roughly estimated at \$1,600,000.

ENCIRCLED BY MOLTEN IRON.

Awful Injuries Received by Buffalo Workman.

Buffalo, N.Y., Jan. 7.—With the flesh burned off his back, exposing the spine, and scarcely a shred left on his arm, Thomas Friend, head roller at the Lackawanna Steel plant, lying dead in the Moses Taylor hospital, Friend was mangled in position of one of the mills where the molten metal was being transformed into rails when a large piece of it shot out of the machine and wound around him the coils of a huge serpent. When a crane lifted the mass of metal from the floor Friend fell from the centre still alive, but horribly burned.

TO SUPPORT CLERGY.

Paris, Jan. 7.—The pope, no longer accepts Peter's Pence from France. All donations from French Catholics hereafter will be devoted to the support of the clergy of the country.

"How can you do it," sell a bull springs for 25c? said a customer in Wilson's Red Cross Drug Store, the other day. When you buy from the manufacturer you save the middle-man's profit. The customer gets the benefit during the January rubber goods sale.

RAISULI GOT AWAY.

His Stronghold Was Burned—Fled to Mountains.

Tangier, Jan. 7.—Zanati, Raisuli's stronghold, was practically destroyed by fire and fell into the hands of the troops of the sultan, yesterday, after a short and a most bloodless fight. Raisuli and his 700 followers succeeded in eluding capture and reached the mountains, despite the elaborate plans of War Minister Gabbas to prevent their escape.

TO CUT OFF SEVEN

REDUCTION IN THE BRITISH SQUADRONS.

The Purpose of the Admiralty Touching the Reduction in the Navy—The Various Fleets and Their Ships.

London, Jan. 7.—The Admiralty officially stated that there will be a reduction of British ships after the February manoeuvres. The channel fleet will be reduced from seventeen battleships to fourteen with three small cruisers. The Atlantic fleet will be reduced from eighteen battleships to six, with three small cruisers. The Mediterranean fleet will be reduced to eight battleships with four small cruisers. The first and second armoured cruiser squadrons will be reduced from six to four vessels. Thus the main squadrons of the British fleet in active commission will be reduced from thirty-three to twenty-six battleships and from sixteen armoured cruisers to twelve.

MUST SETTLE UP.

This is the Demand of the President.

New York, N.Y., Jan. 7.—A Chicago despatch says President Roosevelt dispatched E. E. Clark, former grand juror, to the construction of the Interstate Commerce Commission. Clark, with a message to the warring firemen and engineers that they must settle their differences and that the government would not stand anything calculated to throttle property. Chief Stone, of the engineers, and Chief Morrissey, of the firemen, said they were doing all they could for peace and with the assistance of the president they hoped serious trouble would be averted.

MADE EXCHANGE.

And Tahiti Becomes a British Possession.

Melbourne, Jan. 7.—The Age, on the authorities of 'missionaries', states that the British have ceded Tahiti to Great Britain in consideration of territorial concessions in Burma. Mr. Deakin, prime minister of the Commonwealth of Australia, has, he says, no objection on the subject.
