Geneva, Jan. 5.—The Italian guide, Rassa, a native of Campello, in the Val Sermenta, who was married a few days ago, is making preparations to spend his honeymoon in the hut on the summit of Monte Rosa, at a height of over 14,000 feet.

His wife, who is just twenty, and also an Alpinist, is delighted with the idea. One of Rassa's clients presented her with a valuable fur-lined cloak, and several friends of the guide have promised to carry up a week's provisions and a supply of champagne.

The waggon with $50,000 in gold and $49,500,000 in bonds and shares was on its way from the Gare St. Lazare to the Credit Lyonnais, when one of the horses fell down and an axle was broken.

The valuables were thrown into the roadway, and one heavy box of gold burst open. The crowd caught sight of the shining coins, but were kept at a safe distance.

DEATH ENDS HONEYMOON.

They were on their way to Matiras, where Mr. Hanna occupied an important post under the Indian railway service.

Dumb On One Subject.

Coroner Westcott—If we can't get it out of him, we can't, that's all.

The boy—No.

Outspoken Minister.

London, Jan. 5.—In bidding farewell to his congregation, yesterday, the Rev. E. H. Hobday, pastor of Gra's Baptist chapel, said there were those who were ever ready to find a blot on a minister's escutcheon, and he called on God to witness that if he had fifty sons he would not send one of them into the ministry.

London, Jan. 5.—The legal status of the barrister's fee came again before the courts, yesterday, in a suit in which the general council of the bar contended that a barrister need not affix revenue stamps to the vouchers for his fees on the ground that they were not debts. THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Costs Nothing To Try.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Send your name and address to-day for a free trial package and see for yourself. F. A. Stuart Co., 56 Stuart building, Marshall, Mich.

ESCAPE SCAFFOLD

CHILDREN ARE VICTIMS OF BRUTAL MURDER.

Series of Savage Crimes of Which Young Man Was Once Convicted—On Trial Again.

Berlin, Jan. 5.—Another of those diabolical criminal cases which periodically horrify Germany opened to-day at Greifswald, when a young carpenter's apprentice, Ludwig Tessnow, was put on trial for the second time for the murder of four children and the attempted murder of a servant girl.

Apart from the inhuman and revolting nature of his crime Tessnow's case is remarkable from the fact that a few minutes before he was to have been led to the scaffold and beheaded, on the morning of October 17th, 1903, he was seized with an epileptic fit, from which it was impossible to arouse him for several hours. The execution was postponed and a medical examination having revealed traces of insanity Tessnow for over three years has been incarcerated in the lunatic department of the Baltic prison in order to give the authorities an opportunity to determine his mental responsibility.

The prisoner presented an emaciated appearance in the dock to-day and the court announced that owing to his reduced physical condition it would be necessary to cut short each day's session of the trial. During his imprisonment the prisoner has survived a dangerous operation in the interior of his ear, and a brilliant galaxy of medical and scientific experts is assembled at Griefswald to give testimony, inasmuch as it is believed that the prisoner committed his crimes in consequence of deranged moral senses.

Among the charges pending against him is one of slaughtering a drove of sheep and mutilating their carcasses in the same fashion that he dealt with the bodies of the four children he killed. Tessnow is further suspected of murdering a man in Schleswig-Holstein in 1897, for which crime another man has meantime been executed.

The prisoner's first known crime was the murder of two little seven-year-old schoolgirls on their way home through the woods, near Osnabruck, in September, 1898. After offering oranges to the children Tessnow dragged them far into the forest and murdered them in the most horrifying manner, afterwards dissecting the bodies.

His second crime occurred in July, 1901, upon the island of Rugen, where he attacked two little boys who were bowling hoops through the woods just after having left their parents. Tessnow mutilated the bodies of the two boys, who were aged eight and six, just as he had done those of the two girls three years before. The murderer carried away the heart of one of his victims. The scientific precision with which the bodies had been dissected indicated that the murderer had used a razor and was skilful in using it.

The prisoner's opening statement was confined to telling the story of his life. His parents separated early in their married life on account of the father's drunkenness. After religious confirmation and a carpenter's apprenticeship Tessnow wandered about the country working at many trades in various places, including Berlin. While in Dresden he claimed to have hit upon an invention for a steamless engine but later he destroyed the model. Shortly after leaving Dresden he was sentenced to a year's imprisonment for a petty theft, and on the expiration of his term went to Osnabruck. He was arrested because the evidence was found not to be conclusive until the subsequent murder at Rugen three years later.

Meantime he had assaulted and attempted to murder a domestic servant at Mecklenborg, but he was not prosecuted because the girl could not supply an accurate description of her assailant. Not until after the Rugen murder did she recognize Tessnow as the man who had attacked her.

The trial is expected to last many days. There will be more than 100 witnesses and the court has sworn in two emergency juries. The parents of Tessnow's four victims are present. They wept bitterly when he entered court and their anguish threatened to provoke a violent demonstration against the sullen prisoner, for whom a special dock had been constructed, consisting of a chair, into which he was locked.

A STRONG REBUKE.

To the Conduct of the Whitney Government.

Brockville Recorder.

Brockville, Jan. 3.—Editor Recorder: I noticed to-day an announcement that D. B. Jones, clerk of the division court in Brockville, was dismissed on account of his being an offensive partizan. This is a weak and most contemptible apology for the Whitney government turning down honest, faithful, public officials. Mr. Jones requires no certificate from anyone regarding his faithfulness in discharging the duties of clerk of the division court. He was appointed by a conservative county judge and has earned the respect of all by his mild courteous manners. I have taken an active part in politics in this section for fifty years and never came in contact with Mr. Jones as a worker in the liberal ranks in any capacity. He has studiously refrained from hurting the feelings of anyone in politics or anything else. Why should Mr. Jones be dismissed for offensive partizanship without a trial or any proof of his wrong doing? Does this treatment commend itself to the legal mind of Mayor Stewart, or to the suave polished gentleman who carried the Whitney banner at the last election? I cannot believe it. Contrast the partizan actions of D. B. Jones with the present heads of the custom house, inland revenue and weights and measures. Everyone knows them to be sympathetic conservatives and supporters of the conservative ticket, but they still hold office. This is liberal treatment. What a fall when the conservative party of Ontario adopted the Yankee system "to the victors belong the spoils" and turned out faithful public servants solely to satisfy their hungry henchmen who have failed at everything except tory wire-pulling.—Yours, etc., JOHNNY CANUCK.

GANANOQUE NEWS.

A Night School is Needed For the Young People.

Gananoque, Jan. 7.—Considerable favorable comment has been indulged in by many residents of the town, during the past few days, concerning the advisability of organizing evening classes for the benefit of young men and women who desire to gain more education. A town the size of this should, in the opinion of most people, be able to maintain such an institution, and provide opportunities for the young who have been compelled to leave school, and do for themselves, a means of increasing their wage earning powers.

The town council held a special meeting, on Friday evening, to appoint, according to by-law, the poll clerks and deputy returning officers, to take charge of the six polling places for the municipal elections to-day.

During the past week the weather having been very mild, quite a number of changes have been made among the boat houses in the bay, following the new order of things instigated by the council of 1906. A decided improvement is already noticeable.

Miss Kate O'Neill, who for many years has acted as organist of St. John's church, was the recipient, on New Year's day, of an elegant mother of pearl rosary, gold strung, as a slight token of respect, esteem and appreciation of her services by the choir.

Adial Parmenter, who spent a couple of weeks in Kingston general hospital, where he underwent a surgical operation for the removal of a splinter from his eye, has returned, considerably improved. Miss Mary Hale, daughter of Mr. and Mrs. William Hale, Pine street, was taken to Brockville general hospital for a surgical operation. She was operated on the same day, and is improving nicely. Miss Minnie Ivey, of Kingston, who has been spending a week in town with her friends, returned home on Friday. Miss Stella O'Brien, Stone street, is spending a short time with friends and relatives in Brockville.

Mr. and Mrs. R. D. Keefe, Princess street, who have been spending a short time with relatives in Toronto, have returned home. Mr. and Mrs. A. M. Campbell, of Amherst, N.S., spent some time, during the past week, with relatives in town. Miss Maggie Carruthers, of Marlbank, is the guest of her aunt, Mrs. William Hazel, Sydenham street. Miss Rose McGlade, of Kingston, who has been spending a week here, with friends, returned to her home on Friday. Mr. and Mrs. W. Fairman, of Montreal, are visiting with friends in town for a few days.

Mrs. Robert Donevan and daughter, Nellie, of Leeds, were the guests of Miss S. A. Cross, King street, for a few days this week. Mr. and Mrs. E. B. Ross, of Toronto, spent the holidays here with the latter's parents, Mr. and Mrs. William Toner, Tanner street. Miss Myrtle Ryan, Princess street, is spending some time with friends in Montreal. Mrs. Spencer, of Webbwood, is spending some time in town, the guest of Mr. and Mrs. Isaac Cole, King street. Melvin Carruthers, after spending the holidays at his home in Marlbank, has returned to town.

If A Dyspeptic, Use Hutch.

"Not a foul smelling, nasty tasting dose," but a palatable, appetizing corrector of acidity, heartburn and water-brash. It washes away fermenting matters, and the tough mucus that coats the dyspeptic's stomach, leaving it clean, refreshed and ready to digest proper food. It's a doctor for ten cents. REV. C. W. CASSON, OTTAWA

The Duty Imperative.

The most imperative task of man, viewed from the standpoint of religion or any other, is to contribute his share to the sum total of human good. Wherein his religion emphasizes as the chief aim of life, the saving of his own soul and the accumulation of celestial treasure, it blights, instead of blesses. No man has a right to live who has not learned to give. Religion counts for less than nothing if it does not impulse the individual to add to the gain and good of his fellow men. By this practical outcome in altruistic action are all religions and religionists to be wisely judged.

NOT HEREDITARY.

Baldness Due to a Living Minute Germ.

Many people, even unto the present day of grace, consider baldness due to hereditary influence.

Nothing is further from the truth—Baldness is caused by the onslaught of a minute organism which secretes itself beneath the scalp and attacks the roots of the hair—causing it to lose its life and fall out.

This organism cannot be got rid of except by the free and persevering use of Newbro's Herpicide.

No matter how badly the scalp is effected the Dandruff surely disappears and hair health is restored when Herpicide is applied.

"Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. G. W. Mahood, special agent.

VERONA IS ACTIVE.

An Improvement Society Doing Good Work.

Verona, Jan. 5.—At present excitement runs high over the local option question. A very enthusiastic mass meeting was held in the Canada Methodist church, the evening of January 3rd. The speakers represented both parties, Rev. John Ferguson spoke in his usual eloquent and forcible style, which carried conviction of right with every sentence, Rev. C. Gunter, Dr. Claxton, E. M. York, Howard Reynolds, and others spoke in favor of local option. The opposition was represented by Dr. Evans, and others.

The box social in the Orange hall on New Year's night, was a very enjoyable social evening. After the boxes had been sold and the choice dainties disposed of a very spicy programme was given, singing, recitations, tableaux, etc. Speeches were made by Joseph McMullen, Mattie Revell, Charles Revell, the latter giving two solos in his acceptable style. H. W. Reynolds occupied the chair. The entertainment was under the direction of the Verona Improvement Society, that is doing a lot toward improving the village. This society was started last September as a little social society and to make money for street lamps, which they did, and the lamps are fine on a dark night; but now its members have increased and it has become a regular village society, with proper officers and committees to do public business. School has opened under the able management of Mrs. Wellington Vannest and Mrs. Albert Wells.
