

WORRY IS A DISEASE

THE CANADIAN MAGAZINE for 1907 will contain six articles on the consequences of worry by a famous English scientist and writer—Dr. C. W. SALERIE. The first is out now (but the magazine all through is an antidote of worry). Other articles are to the point, and well illustrated, and the stories are full of go.

Canadian Magazine

J. E. B. McCRADY, whose name is familiar to readers of THE CANADIAN MAGAZINE, will contribute six articles on "Political Reminiscences."

If you wish to know what a bright, interesting publication THE CANADIAN MAGAZINE is, get a copy of the January number. It contains eight illustrated articles, four articles without illustrations, seven short stories by leading writers, and a liberal interjection of original verse and other "quick" reading matter.

Hear the World Talk

Sing, laugh, cry, shout, make wonderful speeches, render the greatest music, give vent to the basest humor, and pour forth the best of everything the earth produces through.

NEWS OF NEIGHBORS

LOCAL NOTES AND THINGS IN GENERAL

The Hiddings From Various Points in Eastern Ontario—What People Are Doing and What They Are Saying.

Kepler Movements

Kepler, Jan. 8.—In a gripe is the prevailing ailment in this neighborhood. Mrs. Sharp is visiting friends in Ottawa. Mrs. T. H. Lawson has gone to the Kingston Hotel Dieu for treatment. William Patterson has sold his farm to George Cavagnari, Millhaven. Visitors: Miss Annie Patterson at her brother's, William Patterson; Walter Glozier and sister, Elizabeth; Herbert Johnston's, Mr. and Mrs. A. F. Smith and son, Lester; at A. Townsend's; Mr. Mucklew, Mucklew, at A. Ferguson's.

Parham Paragraphs

Parham, Jan. 8.—The elections passed off quietly here. W. D. Black has a number of teams drawing wood to the station. The gripe is quite prevalent here at present. F. Goodfellow and H. Hays, have left for Hallowbury. W. N. Bertram, a former resident of this place, is renewing acquaintances here. His many friends are pleased to see him so successful in his new home. School has started for this year with R. Butler as teacher. Mrs. D. Wagar, sick for some time, is improving. The recent warm weather has left the roads in poor condition.

May Open A Lodge

Arden, Jan. 8.—The mild weather of the last few days has taken off the snow considerably, and the ground is bare in places, and the sleighing fairly good. A preliminary meeting of the craftsmen residing in Arden, and vicinity, was held last evening in J. W. Brown's hall, to consider the advisability of opening a Masonic lodge in this village. Gilbert Thompson has purchased the Arden cheese factory from D. J. Cronk. Dr. Robb, of Mountain Grove, was in the village yesterday. The Arden school was opened after Christmas vacation, with good attendance. Herbert L. Spankie, principal (senior room), and Mrs. Lindray, has charge of the junior pupils. F. L. Wornworth, was re-elected trustee of the Arden school board at the annual meeting. At a meeting of the trustees on January 2nd, J. E. Hayes was appointed chairman and Thomas Andrew, secretary. The town hall has been renovated for the purpose of holding sittings of the division court.

Wedding In Wellwood

The home of Jason Caldwell, near Wellwood, was the scene of a pretty wedding on December 24th, when his daughter, Miss Helen Caldwell, was united in marriage to David Stephens, of the same place. The wedding was a quiet one, only a few intimate friends being present. The house was prettily decorated with flowers and evergreens, and presented a pleasing contrast to the wintry scene out of doors. The ceremony was performed by Rev. Mr. Lunan, and Rev. Mr. Lunan pronounced the words uniting them for "yea or nay." The bride was delightfully gowned in blue, with white silk trimmings, and was attended by Miss Jean Lee, while George Edgely stood by the bridegroom through the ceremony. After receiving the congratulations of their friends, the bride and groom, accompanied by the bridesmaids, went down to partake of the tempting supper prepared by Mrs. Caldwell. Miss Helen Stephens received many valuable presents, testifying to the affection in which they are held, and their many friends unite in wishing them a long and happy life together.

Point Traversa Accident

Point Traversa, Jan. 8.—Farmers have been very busy hauling wood and coal. George Bongard has been sliding over his house and expects to be buried in it. Hudson Hysman, out of the house, was killed by a falling log. He was riding on a log skid when he was struck by the explosion of his gun. He is improving. David Wood made a short visit to Gilbert Mills recently. Miss Mahal Clark has returned to the College, Belleville, after spending the holidays with her parents. Amos Bongard is school trustee for this coming year. The people are glad to welcome the school teachers. Miss A. W. Palmater, of Detroit, is visiting friends here. Mrs. S. E. Thurston, who has been living in Michigan for past three years, has returned to spend the winter with her daughter, Mrs. N. Minaker, Deserres, lightkeeper at Pointe du Lac, on the Ottawa. Mrs. M. Minaker, of Chertsey, Ontario, has been staying with her parents a few days. Service on Sunday evening at Carleton. Mr. and Mrs. Bowdman, Michigan, visiting at Isaac Head's. W. Head is doing some carpenter work for J. D. Collier.

Wagerville Waits

Wagerville, Jan. 8.—Quite a number from around here attended the town council election at Parham on Monday. The unsettled weather is not very good, especially for the sick. Quite a few around here are on the sick list. Mr. and Mrs. G. Hays, see home again after spending a month with their daughter in Gananoque. Roads are very icy, but are good travelling. Some are taking advantage of loose snow by hauling wood to the station for S. Jackson. Miss Oona Wagar has returned to Sydenham High School, after spending a couple of weeks with her parents here. Miss Gable has resigned her position as teacher, and Miss Butler, O.S., is expected to take up her duties in the school room. D. McCumber, who a couple of days in Enterprise. Roy Wagar having spent Christmas with his parents here has returned to J. W. Wagar's store at Enterprise, where he has a position at clerk. Good fellow passed through here on Saturday, taking orders for machinery, and other goods, of which he is agent for: Victrola; Mr. and Mrs. R. Yauvorking; at William McCumber's; Frank McCumber at A. Smith's; Parham; D. G. Galt at Enterprise; D. H.

OWNERS NEGLECT

DISGRACE TO COUNTRY THE WAY CATTLE STARVE.

Hundreds and Perhaps Thousands of Cattle Are Lying on Prairies, Dying From Lack of Food. Calgary, Jan. 10.—S. G. Munn and S. Beveridge, ranchers from Springbank, have returned from a visit to Brooks, about 150 miles east. They say the cattle situation is a disgrace to the country. Munn found a bunch of hunters of last fall had a full measure of success. During the fifteen days open season of 1906 the Canadian Express company alone transported 3,100 carcasses of deer with an aggregate weight of 318,215 pounds, all of these being shipped from certain points in the Northern division and Ottawa division of the Grand Trunk, against a total of 2,700 carcasses in 1905, or an increase of 304 deer with an increase in weight of 11,520 pounds. The districts from which the largest numbers were shipped were the Magalloway River (Buck's Falls), Trout Creek, South River, Lake of Boies, (Huntsville), Kearney, Powassa, and the Haliburton region. This number of course cannot be taken as an estimate of the number of deer killed as a large number are eaten or buried in camp, and a large number are transported home by the settlers. When it is considered that nearly 5,000 hunters were in the several districts during the open season, and each hunter is allowed by law two deer, it can be conservatively estimated that close upon 10,000 deer were killed during the fifteen days of the open season between November 1st and November 15th. From other authentic information it is found that during the last seven or eight years deer have been seen from 150 to 200 miles further north than they were found before. Instead of diminishing in numbers the deer in the "Highlands of Ontario" are increasing. The woods are full of them and the game laws are so well enforced by the Ontario government that good hunting in that territory is assured for years to come. Without a doubt, the hunting season of 1907 in the province of Ontario has seen the largest influx of hunters that has ever been met. Not only from the towns and cities of Ontario have the hunters flocked in large numbers, but from the entire province of Quebec and from the United States many have taken advantage of the well-known attractions that appeal to lovers of sport, and the life in the woods following the chase. There has been some discussion in the newspapers to the effect that the large number of hunters who go in each year in quest of deer will eventually bring about a tendency to diminish the supply, but this has not been borne out by the facts and returns. This game is not on the decrease, but on the contrary, they seem to be multiplying in the several districts in which they are found, though in the regions where railway construction has been going on for some time it has had the effect of driving them further north, or to other parts of the province, into more sparsely settled districts. Every dog has his day and every cat has her night, but man isn't satisfied unless he has both. New Zealand exports over six million rabbit skins yearly.

A GREAT YEAR.

Number of Deer Killed in Open Season.

From the latest returns received by the Grand Trunk Railway System whose lines tap the best territory in Ontario for fish and game, it appears in comparison with the season of 1905 the hunters of last fall had a full measure of success. During the fifteen days open season of 1906 the Canadian Express company alone transported 3,100 carcasses of deer with an aggregate weight of 318,215 pounds, all of these being shipped from certain points in the Northern division and Ottawa division of the Grand Trunk, against a total of 2,700 carcasses in 1905, or an increase of 304 deer with an increase in weight of 11,520 pounds. The districts from which the largest numbers were shipped were the Magalloway River (Buck's Falls), Trout Creek, South River, Lake of Boies, (Huntsville), Kearney, Powassa, and the Haliburton region. This number of course cannot be taken as an estimate of the number of deer killed as a large number are eaten or buried in camp, and a large number are transported home by the settlers. When it is considered that nearly 5,000 hunters were in the several districts during the open season, and each hunter is allowed by law two deer, it can be conservatively estimated that close upon 10,000 deer were killed during the fifteen days of the open season between November 1st and November 15th. From other authentic information it is found that during the last seven or eight years deer have been seen from 150 to 200 miles further north than they were found before. Instead of diminishing in numbers the deer in the "Highlands of Ontario" are increasing. The woods are full of them and the game laws are so well enforced by the Ontario government that good hunting in that territory is assured for years to come. Without a doubt, the hunting season of 1907 in the province of Ontario has seen the largest influx of hunters that has ever been met. Not only from the towns and cities of Ontario have the hunters flocked in large numbers, but from the entire province of Quebec and from the United States many have taken advantage of the well-known attractions that appeal to lovers of sport, and the life in the woods following the chase. There has been some discussion in the newspapers to the effect that the large number of hunters who go in each year in quest of deer will eventually bring about a tendency to diminish the supply, but this has not been borne out by the facts and returns. This game is not on the decrease, but on the contrary, they seem to be multiplying in the several districts in which they are found, though in the regions where railway construction has been going on for some time it has had the effect of driving them further north, or to other parts of the province, into more sparsely settled districts. Every dog has his day and every cat has her night, but man isn't satisfied unless he has both. New Zealand exports over six million rabbit skins yearly.

YOUR HEADACHE!

You Must Agree in This—Experience Tells You. That headache does not necessarily mean there is anything wrong with your head! That being so, you must find out what the cause is, and then take the proper remedy. Billean's is the only medicine that cures the headache, and does it in a few minutes. It is a natural, non-toxic, and perfectly safe remedy. It is the only medicine that cures the headache, and does it in a few minutes. It is a natural, non-toxic, and perfectly safe remedy.

TREE FELL ON HIM.

Pinned Down While Tree Was Sawn Through. Corvallis, Ore., Jan. 10.—John McCullum, formerly of Lancaster, Ont., was almost instantly killed in a logging camp near Hickmon, Centre, N.Y. a few days ago. Along with some other men he had sawed down a huge birch which, in falling, pinned him to the ground, and before he could be liberated the tree had been sawn through again. He died ten minutes later. He was twenty-nine years of age, and had resided at St. Regis Falls, Ont., for four years. He was a well-known young man, industrious and sober, and had many relatives in Glenora county.

MUNICIPAL ELECTIONS.

Township of Hinchinbrooke. Reeve—R. A. Hamilton, (accl). Councillors—P. Dwyer, 144; J. Jeffrey, 78; D. Leslie, 141; J. McNamee, 127; A. Wagar, 142.

Enormous Projection.

Review of Review. A billion dollars' worth of mining securities was created in 1906, most of it since spring. The market value of these stocks has appreciated at rates of from fifty and one hundred to several hundred per cent. Some have started at a few cents and grown to as many dollars; others have grown to from double to five and fifteen and even twenty times their par. It is estimated that \$100,000,000 has been realized from Nevada, gold-mining shares and that the "paper" profits on the Canadian cobalt and silver stocks have been \$20,000,000. One mine in Nevada has grown from a \$50,000 stock to a \$10,000,000 projection in a season. The New York market has been dealing in a quarter of a million shares a day. Philadelphia, Pittsburgh and Boston have been appropriated nearly as large. In San Francisco, Salt Lake City, and Goldfield, Nev., the buying and selling has reached an enormous proportion. That mining exchange has been closed for days at a time to allow brokers to catch up with their orders.

Machine-Fed Chickens.

To feed and fatten fowls by machinery is the purpose of an invention lately introduced into this country, by an enterprising Englishman. Already several hundred persons are raising their flocks by the use of this system, and more than \$200,000 has been invested in fattening plants. The system is called "cranking." It was originated in France, where the growers of poultry still make a practice of taking small fowls with rubber mouths, filling them with a semi-liquid food, and forcing the wet meal into the fowl's throat after inserting the tube in its beak. The fat capons Eshelby and other poultry of France was an enviable place, and the process was transplanted to England.

Had The Wrong Idea.

American Spectator. A certain congressman from Virginia has long retained in his employ a colored man by the name of Eshelby. One morning the master left the house, leaving behind him a letter he had forgotten. Some time in the afternoon he remembered the communication, and, as it was of some importance, he hastened back home only to find that the letter was nowhere to be seen in his library. He summoned Eshelby and asked if he had seen the letter. "Yes, sah, 'er 'er it on 'er table." "Then where is it now?" " 'er malled it, sah."

DR. J. COLLIS BROWNE'S

CHLORODYNE

(THE ORIGINAL AND ONLY GENUINE).

Coughs, Colds, Bronchitis, Asthma.

is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

is the best remedy known for COUGHS, COLDS, CONSUMPTION, BRONCHITIS, ASTHMA.

acts like a charm in DIARRHOEA, and is the only specific in CHOLERA, and DYSENTERY.

effectually cuts short all attacks of EPILEPSY, Hysteria, PALPITATION and SPASMS.

is the only palliative in NEURALGIA, RHEUMATISM, GOUT, CANCER, TROPHICAE, MENINGITIS, etc.

THE HOUSE OF GOOD SHOEMAKING.

TOLD THEM FRANKLY. Where it Pleases. London, Jan. 10.—Ramsay Macdonald, labor M.P., asked by the miners of Brokenhill, Australia, why he was going to tell the mother country concerning the preference on British goods given by Australia, said: "You are prepared to give the preference just when and where it suits your idea of an economically self-contained Australia is antagonistic to an imperial preference in any form but the name. The case for Australian protection is incomplete till an industrial census is taken, showing how much high wages have increased the cost of your production."

Require the Most Careful Attention as Well as Good Soil. Did you ever see a rosebush which—despite the most beneficent environment of soil-of sunshine—and of atmosphere—seemed never to achieve a healthy growth. A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect. You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc. You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out. Nowroz's Herpicide destroys the germ and healthy hair is the sure result. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. Two sizes, 50c, and \$1. G.W. Mahood, special agent.

Keep one in the house, a hot water bottle. The January rubber goods sale makes buying these goods easy at Gibson's Red Cross Drug Store. It is better not to be witty than it is to be half-witted.
