CANADA'S REVENUE

For Last Year Was Largest in Its History.

Ottawa, Jan. 12.—Canada's revenue and expenditure statement for the six months ended December 31st, is probably the most satisfactory ever issued. The total receipts on consolidated fund account were \$13,694,716 the expenditure under the same heading by a little less than \$19,000,000 and giving a surplus over all expenditures combined of approximately \$13,000,000. The receipts are nearly \$6,000,000 ahead of the amount received at the same time a year ago, while the ordinary expenditure is more than \$1,000,000 less. For December the receipts were \$7,172,200, as compared with \$6,314,633 for the same month in 1905, while the expenditure was \$8,963,334, as against \$4,376,905.

ISSUE A MAP

Of Eastern Ontario And Niagara Peninsula.

SIGNS OF ACTIVITY

SEEN IN THE INTELLIGENCE SERVICE.

Hon. George W. Ross Appointed to the Senate—Bill in the Commons Regarding Export of Gas and Electricity.

From Our Own Correspondent.

Ottawa, Jan. 12.—The Hon. George W. Ross has been appointed to the Senate. The formal announcement has been delayed, but the appointment took place some time ago.

There will shortly be issued by the militia department, the first installment of the finest map which has ever been issued in Canada. It is the Niagara sheet of the mile to the inch topographic map, which the intelligence branch has had ready for some time. Two important districts of Canada have now been mapped out, and the results will soon be before the public. In the Niagara peninsula, from Hamilton to Port Dover; the other, the greater portion of Eastern Ontario, a triangle whose corners are Ottawa, Ganouque and Cornwall. There will be a free distribution of the maps.

The work is one of the visible signs of the activity of the intelligence service. It has grown out of the Royal Military College survey. The first start in the work was made by Maj.-Gen. Lake, who began by sending out cadets in the summer months to the different imperial offices on duty at the college. Some accurate work was accomplished, but the scheme lacked a guiding hand, and there was no systematic working out of results.

About four years ago, Capt. A. Clyde Caldwell, an R.M.C. graduate, who had seen in the intelligence branch in South Africa, was brought from the college to Ottawa, Lord Dufferin and Sir Frederick Borden, and he has since been in Canada, should have better maps of our country.

An area of about 6,000 square miles is under way or has been completed, and in the course of time the whole settled portion of the dominion will be mapped out.

The most important matter in the commonsense, yesterday, was the introduction of Mr. Aylesworth's bill regarding the export of electricity and gas. This, of course, has particular reference to Niagara, and the legislation is broad. It practically means that a prohibitive duty will be placed on the export of power, and that it will be impossible to export power which is needed for Canadian industries. It is a measure intended to ensure the enjoyment of natural advantages.

It is not intended to alarm investors or owners, for their rights are preserved, and there will be an ample market soon within the boundaries of Canada.

The minister of justice spoke handsomely of the conduct of the American section of the international waterways commission. They had been always fair, and inclined to be generous in their treatment of the international power question.

Mr. Fisher's neat inspection bill is in the process of committee. In the evening the tariff was given notice. Dr. Stockton has given notice of a resolution that legislation should be had in the United Kingdom and other British dominions possessing responsible government, so that when an alien becomes naturalized and has taken oath of allegiance in the United Kingdom or any part of the British dominions, he shall be entitled to all political and other rights, powers and privileges, and subject to all obligations of natural born British subject in all parts of the British empire.

The board of railway commissioners has adopted a regulation that reports made by its officers concerning railway accidents are to be regarded as privileged.

Oil Finds on Manitoulin Islands.

Vancouver, B.C., Jan. 12.—Oil has been discovered in vast quantities in the Manitoulin Islands. All the islands, with the exception of two, belong to Canada and they cover a range of one hundred and fifty miles by seventy or eighty wide. It has been found that the cost of sinking wells on the islands is only about one-third of the cost in the oil fields of Pennsylvania and Western Ontario. It is announced that the Canadian government is going to step in and prevent the royalties from going into the hands of the Standard Oil company, which at present controls the Canadian oil market.

Insurance Reforms In Force.

New York, Jan. 12.—The insurance reforms secured by the Armstrong committee of the legislature come into effect to-day. For this year and hereafter any company will be allowed to write more than \$100,000 worth of business a year, agents' commissions will be reduced at least one-fourth; every new policy must contain the full contract number which the holder and insurer alike are bound, and no more deferred dividend policies can be issued. Besides the main reforms several others, but less drastic, changes, go into effect.

FATHER KILLS CHILD.

While Visiting Her in a Convent.

Rome, Jan. 11.—Four little sisters, aged six, eight, ten and fourteen, respectively, yesterday morning, went to receive their father's blessing in the parlor of the convent orphanage kept by the Daughters of Charity at Taranto. The children were playing around their father with childish delight. When suddenly he drew a dagger and plunged it into the breast of his oldest daughter, Felice.

The poor child fell in terror along the cloisters, pursued by her infuriated father, who inflicted five wounds each time he caught up with her. Felice managed to push open the door of the convent chapel, where she sought the foot of the high altar, where a priest was celebrating a festival mass. Sister Gabriella, the superior, heroically hurled herself upon the assassin and with the aid of other nuns, managed to hold him till some soldiers and a naval officer, who were summoned from the outside, came and carried off the wretch to the guardhouse.

The unhappy Felice, when removed to a hospital, was found to have been stabbed in twenty-two places. She succumbed to her injuries later in the day.

THIRICE BURNED OUT.

St. Kitts Firm Has Very Bad Luck.

St. Catharines, Ont., Jan. 12.—The George Williams Building and Contracting company, who have been in business here for many years, were again visited by fire at 2.30 this morning, when the large planing mill, situated on Niagara street, together with a quantity of lumber, were completely destroyed. The loss is about \$20,000 with no insurance whatever. The mills, no doubt, were set on fire, as there was no fire in any part of the building.

Fire in Huntsville.

Huntsville, Ont., Jan. 12.—This morning what threatened to be quite a blaze, broke out on Front street, at E. E. Moberly's hardware store, but the fire brigade, which was immediately on hand, succeeded in extinguishing the flames. The contents, however, were considerably damaged by water. Loss covered by insurance.

LOCAL OPTION VOTE.

Fourteen Wins For Temperance and 52 Defeats.

Toronto, Jan. 12.—"Whiskey beat us in fourteen places, we were legislated out of victory in thirty-five, and we were in spite of the sixty per cent. vote handed in in forty-two places, and was the sentence in which F. S. Spence summarized the results of the local option voting throughout Ontario last Monday.

According to the figures of the temperance people, the standing is now as follows: Places voting on local option and repeal by-law, 106; heard and decided in favor of temperance, 42; local option defeated, 52; repeal by-law voted on, 8; repeal by-law defeated, 7; to hear from, 1; places where there was majority against local option, 14; places where majority for was below sixty per cent., 35.

TWO MEN KILLED

By Head-on Collision at Silver Lake Junction, N.Y.

Rochester, N.Y., Jan. 12.—Two, and possibly more, men were killed, and one was seriously hurt in a head-on collision on the Ontario and Western railway, at Silver Lake Junction, N.Y., at 2 a.m., to-day. The dead, William O'Brien, engineer, Rochester; John F. O'Brien, conductor, Rochester.

New Cardinals For America.

Rome, Jan. 12.—It has been announced, on authority, here, to-day, that the papal nuncio to the United States, Cardinal Gibbons, was written by Cardinal Rampollo, who, thinking it was inspired by Cardinal Rampollo, joined the Austrian and German cardinals in electing Rampollo as the last conclave. It is also stated on high authority that Archbishop Ireland will be made a cardinal.

Miss Dorothy Pardee Married.

Huntsville, Jan. 12.—The marriage took place, here, to-day, of Miss Dorothy Pardee, eldest daughter of Frank Pardee, the coal operator, and Harold Benjamin Clarke, of New York. Miss Pardee and Mr. Clarke are well known in New York society. The bride's grandfather was the founder of this city, and a pioneer operator in the anthracite fields.

Mange Among Foxes.

Cardiff, Jan. 12.—Followers of Lord Tredegar's hounds have had very poor sport during the last few weeks. Nearly all the foxes in South Monmouthshire are said to be suffering from mange, and on two days this week the hounds have drawn blank.

Italy Looking To Canada.

London, Jan. 12.—The Canadian Associated Press learns that the Italian government intends sending an expert commissioner to report on the condition of agriculture and viticulture in Canada. When completed the commissioner's report will be carefully edited and published with a copious index as a government record.

Will Enroll Under Canada's Flag.

London, Jan. 12.—The hundred and fifty men of the disbanded Manchester Regiment, left Liverpool, yesterday, for Halifax, N.S. It is understood they will re-enlist in the Canadian service.

THE OLD LAND

In Agitation Over Colour Of Baby's Eyes.

CHINA IS HEEDLESS

REGARDING HER PEOPLE—NO RELIEF BEGUN.

Resuscitated Channel Tunnel Scheme Shows Little Sign of Being Carried Out—Pavlov's Assassin Dies Unidentified—Lord Russell Dead.

London, Jan. 12.—The resuscitated scheme for a Channel tunnel, which will be submitted to parliament, at the coming session, seems, if the Telegraph is to be believed, to have little chance of being carried out yet. According to the Telegraph's statement, the committee on imperial defence has decided the construction of the tunnel would be prejudicial to the national security.

China Is Heedless.

Shanghai, Jan. 12.—Capt. Kirton, who is touring the famine-stricken districts as the representative of the foreign relief committee, reports there are 432,000 persons at the refugee camps at Tsinglingpu. Thirty per cent. of the refugees, he says, are apparently in distress, and ten per cent. in acute distress. The Chinese officials have organized no relief works, although they might easily do so. Capt. Kirton declares the worst is yet to come. Women and children are seen everywhere tearing up grass and roots and gathering insects and twigs, which they cook and eat.

Small William's Eyes.

Berlin, Jan. 12.—The imperial court is quite agitated over the eventual color of the eyes of the crown prince's baby, Prince Wilhelm. The question is will the color conform to the traditional Hohenzollern blue or remain as now, a hazel brown.

Lord Russell Dead.

London, Jan. 12.—Gen. Lord Alexander George Russell is dead, at the age of eighty-six. Russell was a veteran of the Crimean and Kaffir wars. He served twice in Canada, first as a D.C. to the governor, in 1847, an afterwards as commander of the militia, from 1883 to 1887. Duncan McGill, who said he stole a check to join relatives in Canada, has been sentenced to nine months in prison. He was a relative of a Canadian statesman.

Died Unidentified.

St. Petersburg, Jan. 12.—The assassin of Lieutenant Pavlov, the military procurator of St. Petersburg, was executed, early yesterday, at Lysno, near Kronstadt. He refused to take the sacrament, and died unidentified, with a cheer for "the revolution" on his lips.

CONCLUDE BY APRIL.

Session Should Not Be Prolonged Beyond That.

Ottawa, Jan. 12.—The prevailing impression in parliamentary circles is that in the present session three or three and a half months will be sufficient to deal with all the legislation that is likely to be proposed. "I know of no reason," said one leading member of the opposition to-day, "why we should not have everything finished up by April at the latest." The opposition is not likely to spend a great deal of time on the tariff schedule, for opposition have a determination to go into no matter of this sort. The other items of the ministerial programme are all ready for presentation, so there will be no undue delay on that score."

STRUCK INDIAN WITH BATON.

Former Policeman Gets Heavy Fine and One Month in Jail.

Peterborough, Jan. 12.—Patrick Clunan, hawkeeper at the Royal hotel and formerly a policeman, was fined \$100 and sent to jail for one month for striking Richard Cornelius, an Indian, on the head with a baton. Cornelius had come back for a fourth drink and refused to leave the hotel when Chinan struck him. Only prompt medical assistance saved the Indian's life.

The Brazilian Coffee Crop.

New York, Jan. 12.—Figures published above that the recent valorizing scheme is gradually increasing coffee shipments from Brazil to this country. In November 118,256,200 pounds were imported, the value being \$19,442,630. The two big banking houses in this city which showed their confidence in Brazil's scheme for coffee valorization by advancing the loan of \$3,000,000 to the government of the state of St. Paul, to-day, state that no public offering of the loan will be made.

Fire in Winnipeg.

Winnipeg, Jan. 12.—The large department store of the Hudson Bay Co., were damaged by fire last night. The fire was confined to the basement, but the damage to stock from smoke and water, will amount to considerable.

William Swain, piano tuner. Orders received at McAuley's.

SNOWSTORMS IN WEST.

Railroads Are Tied Up—Cattle Are Dying.

Medicine Hat, Jan. 12.—The worst storm of the year has been raging all day at Medicine Hat, and that the blizzard extends eastward into Saskatchewan for a considerable distance is evidenced by the fact that no trains have pulled in from that direction for the past sixteen hours. The train from the west passed through, seven hours late.

A freight train got stuck in the snow between Cowley and Pincher and went dead. There was no getting it out, and the road was tied up for last night. The east-bound passenger train was consequently held up for the night and the west-bound was held the other side of the dead freight. A big crew of shovellers and a snow-plough left here at an early hour this morning, to release the freight.

More Cattle Dying.

Leithbridge, Alberta, Jan. 12.—Southern Alberta is in the grip of the storm king. About midnight yesterday's friendly chinook petered out, and the storm descended from the mountains and spread rapidly eastward. Both the Crow's Nest branch and the line of A. R. & I. company report the storm from all the stations, while last night they reported clear. The weather hardened and cleared quickly, and the net result will be undoubtedly that the cattle will be further from the range grass than ever. The storm blasts the hope of the cattlemen, who now admit that the mortality on the snowbound ranges will probably be heavy and costly. The winter has already proved itself the severest for years, and the snowfall breaks the record for recent years. Should the winter maintain its present character for the balance of the season it is safe to say that the ranges would almost be denuded of cattle. Such an uncommonly severe winter, however, is hardly to be expected.

CLERKS CHLOROFORMED.

Mysterious Affair in a Winnipeg Bank.

Winnipeg, Jan. 12.—A most mysterious occurrence happened in the west-end branch of the Canadian Bank of Commerce, yesterday afternoon, when two clerks were chloroformed, and according to reports, were robbed. Bank officials and the police are very reticent, but one of the clerks is now in the hospital. The police deny that any robbery was actually committed.

BOY SHOT HIMSELF.

Death of a Thirteen-Year-Old Lad in North Hastings.

Bellefleur, Jan. 12.—A fatal accident happened to Claude Godfrey, son of a farmer living on the Marsh road, in North Hastings. The boy was alone in the house when the report of a rifle was heard in the barn. Relatives rushed in and found Claude dead with a twenty-two-calibre rifle ball in his brain. The boy was thirteen years of age.

Corsets Cause Divorce.

Waterbury, Jan. 12.—A South Dakota divorce court has freed Mrs. Edith McMillan Harbottle (for several years stenographer of John Byrom Taylor, son-in-law of the late Governor Flower), from her husband, and permits both to marry, she to take her maiden name. This action was brought on the sole ground, the defendant's attorney says, that the defendant refused to pay for a single pair of corsets which the plaintiff purchased.

Bridegroom Frozen To Death.

Bethford, Jan. 12.—Alexander Crawford, a homesteader living fifteen miles from Strathmore, was frozen to death on the prairie, yesterday. He was a son of J. W. Crawford, a prosperous farmer of Bethford, Ont., and was married, in that town, to Margaret Ryan, only two months ago. The details of the tragedy have not yet been received.

Thaw Trial January 21st.

New York, Jan. 12.—The trial of Harry K. Thaw for shooting Stanford White to death at the Madison Square Garden Theatre, will not be put over, but will begin on January 21st, the date now set.

Oronhyatekha's Yacht.

Bellefleur, Jan. 12.—Dr. Oronhyatekha denies that he is going to build a \$60,000 yacht. He says the new yacht will cost \$4,000, not the large amount stated.

Beat Woman To Death.

Pottsville, Pa., Jan. 12.—Assisted by an armed posse of thirty citizens, the police are scouring the country for two men who, early yesterday morning, beat a woman to death and threw the body into Tumbling Run lake.

Save Your Coppers.

London, Jan. 12.—There is such scarcity of copper coin in England that bankers are offering £101 for £100 worth of pennies. This is regarded as a very good indication of prosperity among the working classes.

Guilt of Manslaughter.

Ottawa, Jan. 12.—John Kelly, the Blackburn farmer charged with causing the death by ill-treatment of an old country lad who worked for him, was, last night, found guilty of manslaughter.

Special dip, hip corsets, 65c. New York Dress Reform.

Proof proof chamois vests, \$1.50, at Best's.
