CAUGHT IN ICE FLOE.

Passengers on Steamer Belleville

Have Exciting Experience.

The water level on the dam has

raised nearly three feet during the

nast week, due to the mild weather.

Ordinarily it is icebound at this time

of the year. Cn Monday the ice

at the bridge and in a short time the

water set back over the docks and

flooded the boathouses. Huge cakes

of ice ten inches thick were shoved

out by the force of the current in to

the docks. The weather was so mild

that there was danger of the ice

above the dam breaking up, in which

event the bridge would be in extreme

danger. Realizing this, Mayor Han-

nan ordered the steamer Armstrong

to break a channel through the field of ice from the St. Lawrence to the

bridee. As soon as this was done the

ice floe went out with a rush and

in a short time the water had sub-

rence caught the schooners and bar-

oes in winter quarters at Hannan's

dock and snapping their lines car-

ried them out into the channel. The

steamer Belleville, bringing a num-

ber of passengers from Prescott to

take the New York Central trains,

ran into the floe, and was held fast

for over an hour until released by

Armstrong Although within half

her length of open water she was un-

able to extricate herself. Some of the

Passenwrs climbed down over the

side of the Belleville and walking

rcross the floe hailed some fellows on

shore, who got a punt and ferried

them across to open water to the

shore ice, and they were thus enabled

to catch the afternoon trains. The

other "ssengers' had to take the
