death of Rev. W. R. Tandy. He in herited the intellectual gifts by the development of which he attained disthe church. He had definite aims, and, leaving the occupations which were inviting, in which he had more than the usual success, he entered the profession that promised the largest United States, it is believed not measure of satisfaction. For this he possessed the culture, the courtesy, the gracious manner which mark the vant and the world of a man of piety and refinement. The Whig esteems the the greater because of hallowed associations with another of the expressed through it, editorially, and in which he moved.

Use Of Convict Labour. The warden of the Kingston penitentiary, in his report to the govern-

ment, explains that the binder twine made by the convicts is not sold freely because it is not marketed. It is sold only to the farmers direct, and after they have put up the money, and few are willing to buy an article

"We should," writes Dr. Platt, "be able to run the mill all year. Give us. the retail dealers, give us the market n equal terms with our competitors, nd we will sell all the twine make if we run our factory night and d - of every month all year. If we cannot have the market why run the factory ?" It is the old story-free larom convict labour. Perhaps the cure for this would be what a speaker outlined at a recent labour meeting. ompetition with free labour the ifference being that the convict did not get his but his family when they uffered through his incarceration. tive if the prison products had to pear the same expense as the product of the twine factories, and if convict which is offered freely for sale

should be under the same conditions as those which apply to free labour. Prison labour must be used in some vay. The health of the convicts debe for the benefit of the prisons only, or their occupants, and there is not nough of government contracts to wholle and profitably engage the

Cutting and Delivering Ice Without Permit.

P. H. Small, of the St. Lawrence Ice company, has been summoned to the police court on a charge of cutting and delivering ice without a permit. The case will come up before Magistrate Farrell to-morrow.

As stated in Saturday's Whig, Dr. J. G. Evans complained about ice being cut near the Cataraqui bridge and delivered to different hotels about the city, which was unfit for use. The matter was reported to the police, and on Saturday afternoon, a police officer was detailed to get par-

ticulars of the case. Dr. Evans had, it will be remembered, stopped a teamster on the street, who was de-livering ice, and asked him where he had obtained the ice. The man stated that he had secured the ice near the Cataraqui bridge, and that he was delivering it to hotels. The police found that the ice had been delivered by the St. Lawrence Ice company. Later in the day, Mr. Small took Dr. Evans down to Belle's Island, where the ice was cut, and used on Saturday. It is stated that the ice

was cut some distance away from where the sewers empty into the river, and that it was as clean as could be secured anywhere. It is claimed that the hotels were told to use the ice only for cooling purposes, and it is further claimed that it was the fault of the driver in not explaining the whole matter to Dr. Evans and However, as a result of the investi-

ration, Mr. Small is faced with ummons. He says that he was under the impression that his last permit was good for a year.
