SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS. Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 36, not reserved, may be homesteaded by any person the head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less. Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-agent. An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail. In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim. An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of. A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favour of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment. Where an entry is summarily cancelled or voluntarily abandoned, subject to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry. Applicants for inspection must state in what particular the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of entry should the land become vacant, or if entry has been granted it may be summarily cancelled. Notice--A settler is required to perform the conditions under one of the following plans: (1) At least six months' residence upon and cultivation of the land in each year during the homesteading period. (2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother. (3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land. Before making application for patent the settler must give six months' notice in writing to the Commissioner of the Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS. Coal--Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or one company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output. Quartz--A free miner's certificate is granted upon payment in advance of \$5 per acre for each acre of land, and from \$5 to \$100 per annum for a company, according to the value of the mineral. A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1 per acre. The patent provides for the payment of a royalty of 2 1/2 per cent on the sale. Placer mining claims generally are 100 feet square, entry fee \$5, renewable yearly. A free miner may obtain two leases to "stake" for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased.
